

# Montana State University Dataset Search

An open source tool to support  
data discovery, reuse, and analytics

---

## Open Repositories 2021

# Project Team

**Sara Mannheimer, Project Lead**

**Jason A. Clark, Technical Lead**

Jim Espeland, Software Engineer, Phase 1

Jakob Schultz, Software Engineer, Phase 2

Rhonda Borland, Metadata Curator, Phase 2

Kyle Hagerman, Student Research Assistant, Phase 1

Daniel Laden, Student Research Assistant, Phase 2

# Prototype phase: OR2018

## A **Prototype** for an Institutional Research Data Index

Sara Mannheimer, Jason A. Clark, and  
James Espeland

**Montana State University**

---

# Dataset Search goals

---

1. Promote discovery for datasets from MSU\*
2. Support community data repositories like Dryad
3. Support discovery for restricted data
4. Showcase research data as a legitimate research product that can be cited, reused, shared, and analyzed

\* See Mannheimer, S., Sterman, L., & Borda, S. (2016). Discovery and reuse of open datasets: an exploratory study. *Journal of eScience Librarianship*, 5(1), e1091. <https://doi.org/10.7191/jeslib.2016.1091>

# Features

Harvests metadata from DataCite and data repository APIs to automatically populate an index of datasets from MSU researchers

Human curators clean and edit metadata records

Visualization dashboards showcase data (in beta)

Optimized for search engines like Google

Supports discovery for restricted datasets

# Outline

Public interface

## Data from: Entomopathogenic nematodes combined with adjuvants presents a new potential biological control method for managing the wheat stem sawfly, *Cephus cinctus* (Hymenoptera: Cephidae)

- Portman, Scott L. [ Western Triangle Agricultural Research Center, US Department of Agriculture (USDA), International Society of Chemical Ecology, Entomological Society of America, Penn State University, University of Florida, Washington University School of Medicine, Southe ]
- Krishnankutty, Sindhu M. [ Invaio Sciences, USDA-PPQ/Xavier university, Montana State University, University of Notre Dame, Ivy Tech Community College, University of Illinois ]
- Reddy, Gadi V. P. [ Western Triangle Agricultural Research Center, Biological Control in Pest Management Systems of Plants: W3185, Ecological Society of America, Entomological Society of America, International Association for the Plant Protection Sciences ]

[Access dataset](#)

The wheat stem sawfly, (*Cephus cinctus* Norton) Hymenoptera: Cephidae, has been a major pest of winter wheat and barley in the northern Great Plains for more than 100 years. The insect's crvotic nature and lack of safe chemical control options make the wheat stem sawfly

The screenshot shows the GitHub interface for the repository 'msulibrary / dataset-search'. At the top, there is a search bar and navigation links for Pulls, Issues, Marketplace, and Explore. The repository name is displayed with icons for Watch (4), Star (0), and Fork (2). Below this is a navigation bar with links for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, and Insights. The 'Code' tab is selected. On the right side, there are buttons for 'Go to file', 'Add file', and 'Code'. The main content area shows a commit by 'jasonclark' on April 20, 47 minutes ago, with a list of files: 'app', 'docs', '.gitignore', and 'README.md'. The 'About' section on the right provides context about the project and includes a link to 'lib.montana.edu/digital/data...' and tags for 'data-management', 'research-data-repository', 'research-data', and 'dataset-search'.
