### Levy\_Data.zip

Contains microsatellite and mitochondrial haplotype data used to estimate genetic diversity and genetic connectivity of three small mammal species (*Ningui timealeyi*, *Pseudomys chapmani*, *Pseudomys hermannsburgensis*) in the Pilbara bioregion of Western Australia, Australia.

### File description

**Levy\_Ningui\_timealeyi\_Haplotype\_data.csv** Mitochondrial control region haplotype data for *Ningui timealeyi* from the Pilbara bioregion, Western Australia, with spatial coordinates in decimal degrees. Refer to Levy\_Ningui\_timealeyi\_Haplotype\_Info.csv for haplotype information.

**Levy\_Ningui\_timealeyi\_Haplotype\_Info.csv** Summary of mitochondrial control region sequence haplotypes for *Ningui timealeyi* from the Pilbara bioregion, Western Australia, with Genbank accession IDs.

**Levy\_Ningau\_i\_timealeyi\_Microsatellite\_data.csv** Microsatellite genotypes (in base pairs) for *Ningau\_i\_timealeyi* from the Pilbara bioregion, Western Australia, for 12 loci in GenAEx format, with spatial coordinates (decimal degrees) after genotype data.

**Levy\_Pseudomys\_chapmani\_Haplotype\_data.csv** Mitochondrial control region haplotype data for *Pseudomys chapmani* from the Pilbara bioregion, Western Australia, with spatial coordinates in decimal degrees. Refer to *Levy\_Pseudomys\_chapmani\_Haplotype\_Info.csv* for haplotype information.

**Levy\_Pseudomys\_chapmani\_Haplotype\_Info.csv** Summary of mitochondrial control region sequence haplotypes for *Pseudomys chapmani* from the Pilbara bioregion, Western Australia, with Genbank accession IDs.

**Levy\_Pseudomys\_chapmani\_Microsatellite\_data.csv** Microsatellite genotypes (in base pairs) for *Pseudomys chapmani* from the Pilbara bioregion, Western Australia, for 14 loci in GenAEx format, with spatial coordinates after genotype data.

**Levy\_Pseudomys\_hermannsburgensis\_Haplotype\_data.csv** Mitochondrial control region haplotype data for *Pseudomys hermannsburgensis* from the Pilbara bioregion, Western Australia, with spatial coordinates in decimal degrees. Refer to *Levy\_Pseudomys\_hermannsburgensis\_Haplotype\_Info.csv* for haplotype information.

**Levy\_Pseudomys\_hermannsburgensis\_Haplotype\_Info.csv** Summary of mitochondrial control region sequence haplotypes for *Pseudomys hermannsburgensis* from the Pilbara bioregion, Western Australia, with Genbank accession IDs.

**Levy\_Pseudomys\_hermannsburgensis\_Microsatellite\_data.csv** Microsatellite genotypes (in base pairs) for *Pseudomys hermannsburgensis* from the Pilbara bioregion, Western Australia, for 14 loci in GenAEx format, with spatial coordinates (decimal degrees) after genotype data.
