## **D1.4 Webinars (T1.2.)**

### **Work package 1**

Responsible Partner: 36-INSA

Contributing partners: 2-AGES

## GENERAL INFORMATION

European Joint Programme full title	Promoting One Health in Europe through joint actions on foodborne zoonoses, antimicrobial resistance and emerging microbiological hazards
European Joint Programme acronym	One Health EJP
Funding	This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No 773830.
Grant Agreement	Grant agreement n° 773830
Start Date	01/01/2018
Duration	60 Months

## DOCUMENT MANAGEMENT

Deliverable	Webinars
WP and Task	WP1: Project management and communication T1.2: To facilitate interaction and problem solving at regular intervals Webinars will be organized as well as ad hoc Skype meetings. These activities will be co-ordinated by 2-AGES and 36-INSA.
Leader	Mónica Oleastro (36-INSA)
Other contributors	2-AGES: Markus Wögerbauer, Karin Rainer, Krista Rathammer 36-INSA: Manuela Caniça
Due month of the deliverable	30
Actual finalization month	31
Type <i>R: Document, report DEC: Websites, patent fillings, videos, etc. OTHER</i>	R: report
Dissemination level <i>PU: Public (default) CO: confidential, only for members of the consortium (including the Commission Services).</i>	PU
Dissemination <i>Author's suggestion to inform the following possible interested parties.</i>	OHEJP WP 1 <input type="checkbox"/> OHEJP WP 2 <input type="checkbox"/> OHEJP WP 3 <input checked="" type="checkbox"/> OHEJP WP 4 <input type="checkbox"/> OHEJP WP 5 <input type="checkbox"/> OHEJP WP 6 <input type="checkbox"/> OHEJP WP 7 <input type="checkbox"/> Project Management Team <input checked="" type="checkbox"/> Communication Team <input checked="" type="checkbox"/> Scientific Steering Board <input type="checkbox"/> National Stakeholders/Program Owners Committee <input type="checkbox"/> EFSA <input type="checkbox"/> ECDC <input type="checkbox"/> Other international stakeholder(s): ..... <b>Quality check</b>	2-AGES: Karin Rainer 36-INSA: Manuela Caniça

## D-JRP15- FED-AMR –WP1.4: Webinars

### Preliminary remarks

The deliverable **D-JRP15-FED-AMR-WP1.4** Webinars (T1.2) corresponds to the task **JRP15-R2-WP1-T1.2**. The teleconferences, comprised in the associated task, take place on a monthly basis, which is more often than initially proposed. The project partners decided this in order to facilitate interaction and discussion hindered by the different local restrictions due to CoV-2 of the collaborators. Some partners were unable to start laboratory work at the time points planned and others had to prioritise their contribution to SARS-CoV-2 testing and management for their institutions and the local government. Therefore, it was decided that the webinars should start at a later time point (M31)

### Description of action

The organisation of the webinars was started in M25 in order to initiate knowledge transfer and for the project partners to have an accessible platform for in depth scientific discussion. The task leader, Mónica Oleastro (36-INSA), initiated a discussion about the upcoming webinar topics in the preceding teleconference starting with M30. All members of the consortium were asked for their input and recommendations concerning suitable speakers and other topic pitches. As deputy lead, the 2-AGES team, contacted the suggested speakers and fixed a date for the webinar with them. The task leader discussed the webinars scientific content with the speakers and transferred this information to the AGES team in order for them to prepare a suitable platform for the webinar. Together INSA and AGES appointed a chair and moderator, organised and implemented the webinars via Zoom. The agenda was distributed to all partners along with the official invitation to the webinar. AGES recorded, cut and uploaded the webinar files to the internal website for future reference. This was especially beneficial for consortium members that were unable to attend the webinars. For documentation purposes AGES also maintains a list of participants for each webinar and a list of suggested topics and speakers.

### Description of the deliverable

The task **JRP15-R2-WP1-T1.2** lead by Mónica Oleastro (36-INSA) and Markus Wögerbauer (2-AGES), includes the organisation of webinars to facilitate scientific dialogue within the consortium as part of the deliverable **D-JRP15-FED-AMR-WP1.4**. The webinars were intended as a tool to establish and facilitate inter-consortium communication, scientific discourse and knowledge transfer between the partaking experts and partners. The agenda and the participant list attending to the first webinar are included in Annex 1 and 2 to this deliverable, respectively.

### Confidentiality of the documents

The recordings of the webinars are available only for consultation of the consortium members. There were no arrangements made with the speakers about distribution outside of the consortium.
