**Agricultural transitions**

**C3** We would like to understand changing patterns for wages for agricultural and non- agricultural labor in the community.  
Please complete the following:

		Wages for	Now – in Rs/day	5 years ago	10 years ago	Farm activities hired for	
			(with / without food) (W/WF) (				
		Female agricultural labourer					
		Female non – agricultural labourer					
		Male agricultural labourer					
		Male non- agricultural labourer					

**C4**

Have agricultural practices changed in the last 10 years in the village? Can you indicate 3-4 important changes? ( only if the respondent is unable to answer , prompts : -no. of crops grown per year, type of crops grown, irrigation, machines like tractors, weeders, harvesters, threshers, fertiliser use, pesticide use, other technologies, access to markets, access to information – weather, market etc (e.g., use of mobile phones, TV, Radio), access to extension services, access to credit, coping mechanisms when climate shocks strike)-

(1) \_\_\_\_\_  
(2) \_\_\_\_\_  
(3) \_\_\_\_\_  
(4) \_\_\_\_\_

Why do you think these changes have occurred? Who (or which groups) have these changes affected most (both positively and negatively)? Can you indicate why?

Key activities	Social group	Who is involved	What age group	
In agriculture		Men (1) Women (2) Both (3) (W12.2)	(W12.3)	(W12.4)
Land preparation / Seed planting				
Crop care				
Harvest				
Post harvest (marketing/ processing)				

### Migration timeline and trends

Is there a history of migration of village in the village? If yes?

When can you trace the first wave of migration? Where did they migrate?

(Now)

**D1**

(Then)

(When? Who? Went where? How long? What kind of jobs)

---

---

---

	Job pursued outside	Wages today	5 years back
Male			
Female			

**D2** Do all members from all the social groups that migrate have the same destination?  
If yes, why?  
  
If no why?  
(What influences the destination and indicate the different destinations )

**D3** Do members who stay back do so out of choice? What constraints or motivates different people from various groups to stay behind from migrating?

---

---

---

**D4** Where do migrants get to know about opportunities for work in other countries/ cities/ towns? Do all migrants from this community get to know from the same source (Sources : Agencies , networks , relatives)

---

---

---

---

---

**D5** Do the migrants, from this village contribute in the affairs of the household and the village after migrating? If yes how?  
(Including the contribution in labour , common assets purchased for the household , farm or village etc , help provided to others in the village, information and knowledge they bring back if any? )

**Role of women and men**

**E1** Have the opportunities and roles of women on farm and in the village changed in the last 10 years? Why do you think this happened?

Group 1	Remarks
