

# Study limitations, Reporting, Schedule

Montag, 28. Juni 2021 16:34

- |     |                   |   |
|-----|-------------------|---|
| 8.  | Study limitations | Specify <b>residual validity issues</b> including potential <b>conflicts of interest</b> (i.e., issues that are inherent in the problem, rather than arising from the plan).          |
| 9.  | Reporting         | Identify target audience, relationship to larger studies [217].   |
| 10. | Schedule          | Give time estimates for all of the major steps: planning, data collection, data analysis, reporting. Note data collection and data analysis are not expected to be sequential stages. |

## Study limitation

### Conflicts of interest

The corresponding author Marion Wiese was employed by Gruner + Jahr GmbH until March 31, 2020, and was a team member in the case unit under consideration. At the time of the development of the framework, she was therefore part of the unit under consideration and contributed to its development in her role as software architect. The evaluation of the framework took place after employment.

Julian Schwarze is the group leader of the case unit under consideration and also contributed to the development of the framework.
