A4. make books open access	no	NPOS	UU-OSP	Plan S impl.	Hor-Eu, prelim. MGA	no	no	no	Plan S impl.	Hor-Eu, prelim. MGA	no	NI (st)
A5. make reports open access	no	NPOS	UU-OSP	no	Horizon 2020	no	no	no	no	no	no	no
A6. make articles & chapters open access retrospectively	no	no	no	no	no	no	no	no	no	no	Aw 25fa	YS (sc)

reality NL

publishers

Publishers are not in the framework, as they are mainly seen as service providers. Still, they are important actors that can implement innovations and can offer support to advance quality of open access. Things they could do:

implement OA for books - make backfiles full OA - engage with diamond OA

- implement (open) metadata standards - allow/implement open peer review
