RoLECT: a self-assessment tool against
EOSC RoP Legal & Ethics Compliance

Marianna Katrakazi
Legal Associate ATHENA RC

What is RoLECT?

- Self-assessment tool against EOSC RoP focusing on Legal & Ethics aspect.
- Designed to promote compliance with EOSC RoP & raise awareness.
- Understand the main priorities of EOSC RoP.
- Before starting the onboarding process, prospective resource providers can verify if the resources meet the legal & ethics standards of EOSC RoP.
- Quick look at the main priorities of RoP > proceed to corrective actions for onboarding or proactively integrate features ensuring compliance into the resource.

EOSC RoP Legal & Ethics Compliance

Demo Case : a Medical Software

Targeted audience: Researchers, administrators, managers of resources, doctors, hospitals, IT providers.

Existing problems :

- EOSC RoP do not provide for specific compliance criteria (“high-level” information);
- Lack of sufficient knowledge and understanding of FAIR principles.
- Not aware of the specific legal and ethics conditions that apply to the EOSC RoP.
- No similar tools available.

Results:

- The resource may be licensed under a non- compatible with EOSC RoP license;
- Existence of data that cannot be further used in the EOSC ecosystem.
