

Future of the Barcamp Open Science

We are the committee that organizes the **annual Barcamp Open Science (OSciBar)**. For a few years, it takes place each spring at the Wikimedia Deutschland office in Berlin, in conjunction with the Open Science Conference. The main organization behind the Barcamp is the Leibniz Research Alliance Open Science. Learn more about OSciBar here: <https://www.open-science-conference.eu/barcamp/> (<https://www.open-science-conference.eu/barcamp/>).

Since it started in 2013, the OSciBar changed a lot and ultimately established itself as a major event for the Open Science-Community in Europe and beyond. For several reasons, we consider a few changes for OSciBar. To make sure that our barcamp fits the expectations of (potential) participants, we kindly ask you to participate in this quick online survey.

The survey will run until 30th September 2021. Of course, all results will be made freely available immediately.

Thanks a lot for your time and effort!
