Unit 1 - Snippet 11

Reflective activity - How do I think?

Reflect on your education experiences and the things you have learned so far in your life:

To what extent have you been thinking critically?

What examples would you share with someone as evidence of your answer to the previous question? Try to remember a situation when you either used your critical thinking skills well or you feel in hindsight you should have thought more critically. Jot down your answers for later reference.

You may find it useful to share your answers with your fellow students.
