

D1.6 Report Year 3 on Dissemination and Communication

Grant Agreement Number	825640
Project Acronym	DIHNET.EU
Deliverable Date	8 November 2021
Authors	Marta Palau Franco (euRobotics)
Number of Pages	55
Number of Annexes	1
Version	1
Reviewed by	Ruud Baartmans (TNO)
Approved by	Kristina Karanikolova (TNO)
Dissemination level	Public

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under grant agreement No 825640.
www.dihnet.eu

About the DIHNET.EU project

The overall aim of DIHNET.EU is to create a sustainable European network of Digital Innovation Hubs (DIHs), by developing a set of tools and boosting the collaboration of the different DIH networks, DIHs and other key DIH stakeholders in Europe. The project will act as a coordinator to enhance the collaboration, aligning and synchronizing their activities. This is considered crucial for a better support of SMEs and MidCap companies in offering and using digitisation services.

The project is carried out by TNO, Tecnalia, Fundingbox, euRobotics, BluMorpho and LuxInnovation, have strong experience in DIHs and well connected to the EU DIH community.

Executive Summary

In the third year, dissemination work has focused on establishing DIHNET as a source of relevant content while maintaining the growth of the DIHNET community via the DIHNET.EU community platform, the social media channels, and the organisation and/or participation in conferences, workshops and webinars. Project partners have co-organised the successful EDIH2021 conference, and written a series of articles, interviews, reports and press releases to raise the profile of the project. This resulted in at least 28 articles on DIHNET appearing in (external) online media. The extremely successful EDIH2021 conference and the DIH Champions Challenge had a terrific impact in the members and engagement rate, and greatly contributed to the excellence of DIHNET network brand and the visibility of the project.

The COVID-19 pandemic continued in Year 3 and partners kept organising online activities to draw the interest of the DIH and EDIH community. Dissemination within the Digital Innovation Hubs community included, among others, webinars on sustainability and finance, precursor network webinars and meetings, the awards ceremony of the second edition of the DIH Champions Challenge, and the virtual EDIH conference “Gearing up towards European Digital Innovation Hubs” that took place on 25-26 January 2021 and was organised together with the European Commission, Luxinnovation and the Luxembourg Ministry of the Economy. Collaboration links have been established through the participation in events with DIH networks projects (RODIN, I4Ms, AI4EU, STARTS, BOWI, SAE, Connected Factories, PhotonHub Europe, EUHubs4Data, SmartAgrihubs, AgrOBOfood, Trinity, etc.) and with the JRC, Enterprise Europe Network (EEN), African-European Digital Innovation Bridge (AEDIB) and EBN. The monthly “DIH-related initiatives News Bulletin” had an excellent response from the EU-H2020 CSAs in digital innovation we collaborated with such as RODIN, OpenDei, DigiPLACE, I4MS, DigiFed, SAE, EUHubs4Data, RobotUnion, etc.

The DIHNET community platform reached the goal of 1000 members set in the previous year, welcoming 693 new registered users, and making a total of 1594 members as per October 2021. The four DIHNET ambassadors have contributed to increase the engagement in the community and give visibility to the project in other events. As in previous years, the attendance to DIHNET events such as webinars, online sessions and conferences has been very high. The private space about the “Precursor Network” has been a success with the participation of many to-be EDIHs; and the monthly Digest very well received among the community members. To reach our audience outside the DIHNET community platform, we made use of our online social media channels (i.e. Twitter, LinkedIn and Facebook), the DIH-related News Bulletin and the participation in events by consortium partners to present the network. The work of DIHNET has also been mentioned in two academic papers published by individuals outside the project consortium.

The strategic efforts put in place in Year 3 for nurturing the DIHNET community and establishing the project as a source of relevant information have been successful; and the DIHNET community has showed a significant growth in this period.

We believe DIHNET is leaving behind an important legacy, and we are confident the project publications and materials archived on the website, the DIHNET Zenodo Community, and the DIHNET community platform will be a source of valuable information for the DIH community beyond the project lifetime.

1 Introduction

The DIHNET.EU project enables the coordination of European, national and regional initiatives directly supporting the digital transformation and Digital Innovation Hubs (DIHs). The project aims at creating a sustainable pan-European network of networks, with a focus on regional DIHs.

This deliverable contains first, information on the communication and dissemination activities organised and attended by the DIHNET consortium partners following the information required in the project continuous reporting; and second, an analysis and evaluation of DIHNET's website, community platform, social media and press coverage during **Year 3: 1 November 2020 – 31 October 2021**.

2 Publications

The project publications are classified in two categories: academic publications and non-scientific or non-peer reviewed publications. In Year 3, the consortium partners published only in the non-scientific category. Due to the nature of the project being a coordination Support Action (CSA).

2.1 Academic publications

As planned the project has not produced any academic publications in this third year.

However, the project has been mentioned in other people's academic publications:

Claudio Sassanelli, Hervé Panetto, Wided Guédria, Sergio Terzi, Guy Doumeingts. Towards a reference model for configuring services portfolio of digital innovation hubs: the ETBSD model. 21st IFIP / SOCOLNET Working Conference on Virtual Enterprises, PRO-VE 2020, Nov 2020, Valencia (virtual), Spain. pp.597-607, ff10.1007/978-3-030-62412-5_49ff. fffhal-02975488f. <https://hal.archives-ouvertes.fr/hal-02975488/document>

(eds) Smart Technologies for Precision Assembly. IPAS 2020. IFIP Advances in Information and Communication Technology, vol 620. Springer, Cham. https://doi.org/10.1007/978-3-030-72632-4_15

Alonso D. (2021) Data Innovation Spaces. In: Curry E., Metzger A., Zillner S., Pazzaglia JC., García Robles A. (eds) The Elements of Big Data Value. Springer, Cham. https://doi.org/10.1007/978-3-030-68176-0_9

2.2 Non-scientific and non-peer reviewed publication (popularised publication)

Various members of the DIHNET consortium have published special articles in the community platform seeking to reach the DIHs community. TNO, BLUMORPHO (BM), FundingBox (FBA) and euRobotics (ER) have contributed to the DIHNET community by publishing articles on DIHs.

3 Dissemination

In the context of dissemination within Horizon 2020 projects, we aim at sharing the project results with potential users in the research field, industry and policymakers. We expect that by sharing the results with the rest of the Digital Innovation Hubs community, we contribute to the progress of science and digitisation in Europe, and by consequence strength the image of the European market as one of the leaders in R+D and its implementation.

The DIHNET consortium partners have promoted the project and its results, by providing targeted information to multiple audiences (i.e. policy makers, DIH networks, EDIHs, DIHs and SMEs, among other stakeholders), in an effective manner. In this section we list the different events organised and the channels used to communicate the information.

3.1 Conferences

In Year 3, COVID pandemic has not made possible to organise face-to-face events. From 26-30 January 2021, we (DIHNET) organised together with Luxinnovation (consortium partner and local host), the European Commission, and the Luxembourg Ministry of the Economy the virtual conference **“Gearing up towards European Digital Innovation Hubs”** (<https://event.e-dih.eu/>).

Figure 1: Gearing Up towards EDIHs conference. Photo credits: Luxinnovation

This EDIH conference was an opportunity for DIHs and future EDIHs to meet nurture their networks, share ideas and learn about the new EU policy developments on supporting the green and digital transformation.

The morning plenary session started with a welcome message by **Prime Minister of Luxembourg, Xavier Bettel**, and the keynote speeches of **Thierry Breton, Commissioner for the Internal Market**, and **Francesca Bria, President of the Italian National Innovation Fund** and consultant on digital innovation to the EC and UN.

The full **agenda** of the event can be found on the event website and in the following link: <https://s3.amazonaws.com/us.inevent.files.general/3/39/368d91b997bbb8d83407103ac249f09a4e7e44.pdf>

The 3-day phygital event had more than **3,300 people registered** from 40 different countries. The event was a great success, receiving compliments from attendees about the speakers, the content of the sessions and the organisation.

You can read Luxinnovation's press release for a more detailed summary including statements from the local hosts: <https://www.luxinnovation.lu/news/e-dih-network-a-successful-launch/>

3.2 Workshops/Webinars

DIHNET's partner Funding Box (FBA) has organised 5 webinars, 3 of them with TNO. These webinars are addressed mainly to target the Industry community and SMEs as part of Funding Box work in WP2-Task 2.2, DIHs and policy makers (work of TNO in WP5). These webinars are available on the DIHNET.EU community platform and some of them were recorded and are also available on the DIHNET YouTube channel.

- **DIHNET webinar: "Enterprise Europe Network & cluster services for EDIHs", Online, 2 March 2021**

Organised by FBA and TNO in collaboration with DG CNECT

WP2 – Task 2.2

<https://spaces.fundingbox.com/spaces/dihnet-eu-community-enterprise-europe-network-cluster-services-for-edih/603e709d9bbc1905d0abba84>

The estimated number of people reached is **700** from **Industry**.

- **DIHNET webinar: "Opportunities and services provided by CSAs to support DIHs and EDIHs", Online, 18 March 2021**

Organised by FBA and TNO in collaboration with I4MS, Smart Anything Everywhere, Connected Factories, PhotonHub Europe, EUhubs4Data, RODIN, STARTS

WP2 – Task 2.2

<https://spaces.fundingbox.com/spaces/dihnet-eu-digital-innovation-hubs-community-dihnet-eu-news/604224979bbc1905d0abc55f>

The estimated number of people reached is **600** from **Industry**.

- **DIHNET webinar: "Opportunities for DIHs in the EU Artificial Intelligence Ecosystem", Online, 20 May 2021**

Organised by FBA in collaboration with AI4EU. WP2 – Task 2.2.

<https://spaces.fundingbox.com/spaces/dihnet-eu-digital-innovation-hubs-community-dihnet-eu-news/60a6662730af7c57fa7082e2>

The estimated number of people reached is **70** from **Industry**.

- **DIHNET webinar: "EDIH Heatmap" Information and Exchange Webinar, Online, 29 June 2021**

Organised by FBA and TNO in collaboration with the BOWI project. WP2 – Task 2.2

<https://spaces.fundingbox.com/spaces/dihnet-eu-community-edih-heatmap-information-and-exchange/60dcaceb89116a059aae86be>

The estimated number of people reached is **500** from **Industry**.

- **DIHNET webinar: 'Innovation ecosystems: Cooperation between Africa and Europe', Online, 7 October 2021**

Organised by FBA in cooperation with AEDIB. WP2 – Task 2.2

<https://spaces.fundingbox.com/spaces/dihnet-eu-community-innovation-ecosystems-cooperation-between-africa-and-europe/5f7de20af9a7a75c28f3602c>

The estimated number of people reached is **110** from **Industry**.

- **DIHNET final event: Future and shape of the EU DIH ecosystem, online, 26 October 2021**

DIHNET hosted a virtual event for presenting the lessons learned from the last 3 years and discuss with the audience the future and shape of the EU DIH ecosystem. All consortium partners organised and participated in this event with the participation of the European Commission and HaDea, plus other guest speakers.

Full details of the event including agenda, presentations and videos can found in this press release: <https://dihnet.eu/2021/10/future-and-shape-of-the-eu-dih-ecosystem-the-vision-of-dihnet-eu/>

The estimated number of people reached is **297 people**, although we do not know the numbers associated to each of the categories of audience.

Figure 2: Group picture or some of the attendees to the DIHNET final event. Photo credits: DIHNET

3.3 Press releases

euRobotics and FundingBox have written press notes and press releases from **1 November 2020 to 31 October 2021** that have been published on the DIHNET website “News” section. The unique page views are from the data extracted from the google analytics of the DIHNET website.

All the articles were first published on the community platform, before publishing them on the website. Most of the website news articles (link) have not been share on social media (only the main event ones), as we normally use the link of the community platform. We have marked in bold the articles with more views also showed in Figure 32.

3.4 Newsletter

In this Year 3 we continued with the monthly **DIHNET Community Digest**. This publication is written by Marta Palau Franco (ER) with the contributions from Kristina Karanikolova (TNO), Lucie Milcent (FBA) and Laura Argiles and Laura Camus (FBA).

Related information has been shared every month about “Highlights of the month”; the most relevant information in the month, "Know Your Ecosystem: content to give visibility to the DIH of the month; DIH-related projects and initiatives; Community Spaces & Collections; and events not to be missed.

In Year3 the number of unique open views of the Digest has increased compared with the previous period (Y2) and the **email open rate is in average 40%**, which is a **very good rate** considering that an average (desirable) open rate is 12-22%.¹

3.5 Local Press conferences / Media Briefings

No local press conference or media briefing has taken place in this third year. Due to the nature of this Coordination and Support Action (CSA), we do not envisage the organisation of this type of events.

3.6 Training

The consortium has not given any specific training activities except for the webinars mentioned already in section 3.2

¹ <https://www.campaignmonitor.com/resources/knowledge-base/what-are-the-average-click-and-read-rates-for-email-campaigns/>

3.7 Participation

Various members of the consortium have disseminated DIHNET network at workshops, seeking to reach DIHNET's specific target groups: research community, industry, and policy makers. Due to COVID-19 pandemic, the face-to-face participation was not yet possible, and the events were virtual.

The workshops and other events partners have participated in are listed in this section.

3.7.1 Conference

No participation in (non DIHNET) face-to-face conferences due to COVID-19 pandemic.

3.7.2 Workshop

Consortium members from TECNALIA, FBA and TNO attended different workshops to present some of the activities of the project and the project itself.

- **"First meeting - Digitalisation Working Group (WG)". Online, 11 March 2021**
Mayte Carracedo and Graciela Garrido from FBA participated in this event. (WP1)
<https://www.eurada.org/news/detail/first-meeting-digitalisation-working-group-wg-on-the-11th-of-march>

The estimated number of people reached is **50** from **Industry**.

- **"A view on the collaboration of EDIHs and EU-networks". Online, 18 March 2021**
Maurits Butter (TNO) presented DIHNET in the workshop "Opportunities and services provided by CSAs to support DIHs and EDIHs".

We do not know the estimate number of people attending the event session.

- **"European Expert Group on Clusters Working Group 2 - Digital Transition", Online, 14 April 2021**
Mayte Carracedo (FBA) participated in this event representing DIHNET network (WP1).
<https://ec.europa.eu/transparency/expert-groups-register/screen/expert-groups/consult?do=groupDetail.groupDetail&groupID=3636>
<https://clustercollaboration.eu/content/recommendations-cluster-policies-boost-resilience-and-foster-green-and-digital>

The estimated number of people reached is **50** from **Industry**.

- **"DIHs over the borders. Opportunities for DIHs within the EU context." Online, 20 April 2021.**
Begoña Sánchez (TECNALIA) attended the Workshop and presented DIHNET project. (WP1)
<https://eufordigital.eu/dihs-over-the-borders/>

The estimated number of people reached is **170 people**, although we do not know the numbers associated to each of the categories of audience.

- **DIHNET presentation at private spaces (run by national DIH networks) of the DIHNET community.**

FBA and TNO presented DIHNET vision in the following private spaces:

- o 07/07/2020 Romania space.
- o 14/07 2020 CZ
- o 07/09/2020 Slovenia
- o 15/09/2020 Latvia
- o 03/02/2021 France restricted space
- o 12/03/2021 Health network

We do not know the estimate number of people attending each session.

3.7.3 Other events

- **“Digital skills: opportunities and collaboration between EU Digital Innovation Hubs and EU|BICs”, EBN Congress. Online, 3 Nov 2020**

Maurits Butter (TNO) presented DIHNET’s vision in this congress.

<https://ebn.eu/downloads/3Congress%20-%20schedule%20-%20programme%20overview.pdf>

We do not know the estimate number of people attending this session.

- **“A view on post project sustainability of European networks”, DIGIFED event. Online, 17 Nov 2020.**

Maurits Butter (TNO) presented DIHNET’s vision at the SAE (Smart Anything Everywhere) First DigiFed DIH-Network Event.

We do not know the estimate number of people attending this session.

- **“An overview of the European DIH landscape”, EU4Digital ICT Innovation networking event, Online, 22 April 2021**

Maurits Butter (TNO) participated in this event presenting DIHNET’s vision.

https://eufordigital.eu/wp-content/uploads/2021/04/EU4D-ICT-Innovation-Networking-event-DIHs-Concept_20210416.pdf

We do not know the estimate number of people attending this session.

- **“DIHNET: pan EU collaboration”, European Robotics Forum (ERF 2021). Online, 15 April 2021**

Kristina Karanikolova (TNO) presented DIHNET at the European Robotics Forum (ERF) 2021

<https://inevent.uk/en/euRoboticsaisbl-1608579504/ERF2021/hotsite.php>

We do not know the estimate number of people attending the event session.

- **“The future of the EU DIH ecosystem”. Online, SAE event, 27 October 2021**

Maurits Butter (TNO) presented the future of the EU DIH ecosystem in “SAE Ecosystem Building Event (Auvergne-Rhône-Alpes)”.

<https://smartanythingeverywhere.eu/events/sae-ecosystem-building-event-auvergne-rhone-alpes/>

We do not know the estimate number of people attending the event.

3.8 Video/Film

In this third year, the project consortium has produced a series of video interviews of the winners of the Champions Challenge 2019 and organised a series of webinars that were recorded and uploaded to the YouTube channel.

The table below shows the videos previous videos (with the current views) and the new videos views for the Year 3 (1 November 2020 to 30 September 2021).

Table 4: Video/film in Year 3

3.9 Activities organised jointly with other EU projects

In Year 3 we continued publishing the monthly **DIH-related initiatives News Bulletin** in collaboration with other EU-H2020 CSAs in digital innovation. This are **RODIN, OpenDei, DigiPLACE, I4MS, RobotUnion, SAE** including new ones like **SmartAgriHubs, DigiFed** and **EUHubs4Data**. This monthly bulletin is written by Marta Palau Franco (ER) with the contributions of the CSAs and some IAs that do not have an umbrella CSA. Before publishing the bulletin on the DIHNET Community, it is reviewed by Kristina Karanikolova (TNO) and Lucie Milcent (FBA).

Other collaborations are the workshops co-organised with other EU projects and mentioned in sections 3.2 and 3.7.2

3.10 Public engagement and outreach events

There are not public engagement or outreach events addressed to the public to report in Year 3.

3.11 Communication Campaign

This section describes the dissemination via TV, Radio, Print press, social media and on-line media. Section 3.11.2 includes the analysis of DIHNET's social media channels (i.e. Twitter, LinkedIn and Facebook). A detailed compilation of online media articles (published by external sources and not by DIHNET consortium members) is given in Annex 1 of this report, analysed by country, media type, and genre. A total of **28 online articles** are listed, although this is suspected to be an underestimate, since we are not always advised when items appear; the very nature of present-day communications, particularly over the Internet, makes it impossible to achieve full completeness, as news items go viral and escape our compilation efforts.

We have not organised specific communication campaigns to be present on TV, radio or print media such as newspapers or magazines. Due to the budget limitations, it is out of the scope of the project

to pay to be present in those media channels. In Year 3 there are no activities to report concerning television, radio/podcast or print media.

3.11.1 Radio/Podcast

There are not radio/podcasts to report in Year 3.

3.11.2 Social Media

In order to maximise the reach of DIHNET to a wide range of audiences, we are making use of social media including Twitter, LinkedIn and Facebook, being this last one a mirror channel of LinkedIn posts. The social media activities peaked around the months of November 2020-January 2021. The topics with more engagement were the **EDIH conference**, the winners of the **DIH Champions Challenge** and the funding/sustainability webinars and EC survey.

- **Twitter**

The DIHNET Twitter account (<https://twitter.com/DihnetE>) is active since 1st of July 2019. Since that the channel has reached a total of **1062 followers** and has posted **2588 Tweets** (this number includes re-tweets) as per November 5, 2021. This is 405 new followers and 1071 new tweets more than from September 2020 (Year2) as shown in **Error! Reference source not found.** and Figure 4.

Figure 3: Twitter page for DIHNET (Source: [www.twitter.com/DihnetE](https://twitter.com/DihnetE) [Accessed November 4, 2021])

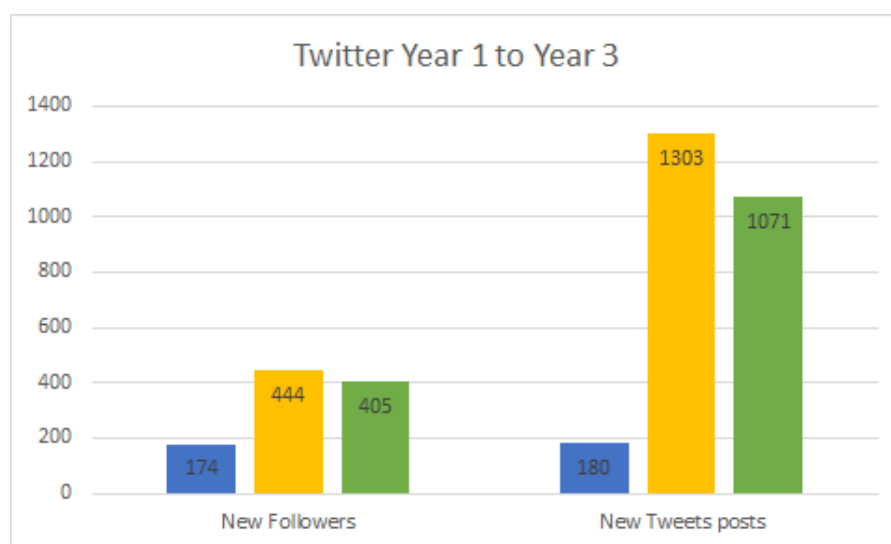

Figure 4: Twitter comparison between Year 1 to Year 3 New Followers and number of tweets (Source: DIHNET)]

The twitter followers have increased since November 2020, linked to the EDIH conference in January 2020, the organisation of more activities, and the communication of project results to our targeted audience. The number of new followers has not increased as much as Year 2 as the DIH community is relatively small.

Over the period of 1 November 2020 – 31 October 2021 the twitter account had a total of **212K Impressions (5.3K more than in Year-2)** as shown in Figure 5.

Note: Twitter does not provide graphics of more than one month anymore, so we had to export the data in an Excel file and edit it to make the graphics. We can provide the Excel files if required.

Figure 5: DIHNET Tweet Impressions period 1 Oct 2020 – 31 Oct 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

The Twitter impressions peaked in January 2021 (see Figure 5) during the EDIH2021 conference and with the announcement of the winners of the DIH Champions Challenge. The other peak was in May-June 2021 around the webinar organised in collaboration with AI4EU.

The Tweet activity that include the top tweets is shown in Figure 6, Figure 7, Figure 8, Figure 9 and Figure 10. Twitter does not allow to create the graphics for more than 91-day period, so we have divided Year-3 in 5 periods. We have also selected the two top tweets for each period.

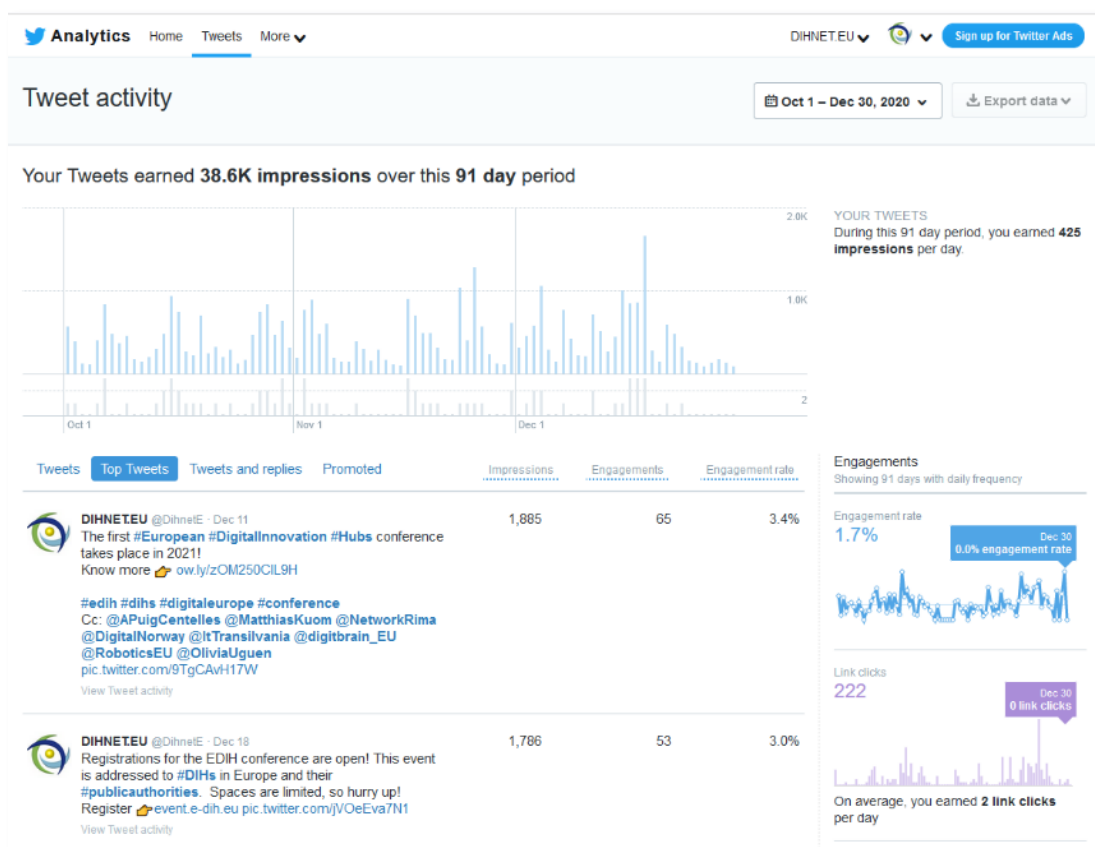

Figure 6: DIHNET Top 2 tweets 1 Oct 2020 – 30 Dec 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

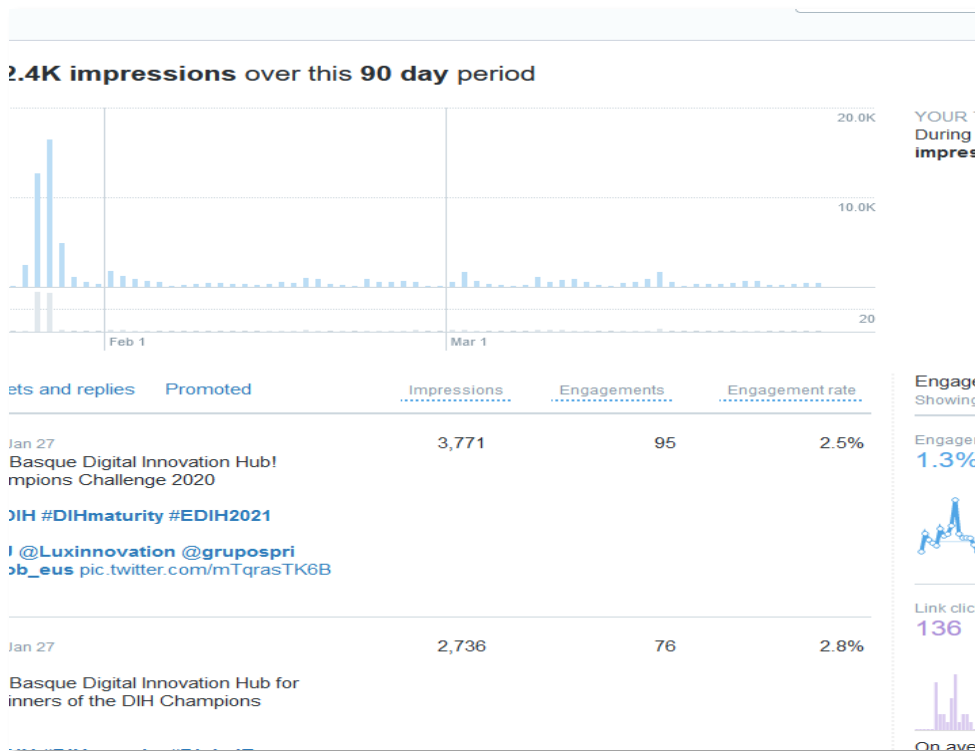

Figure 7: DIHNET Top 2 tweets 1 Jan 2021 – 31 Mar 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

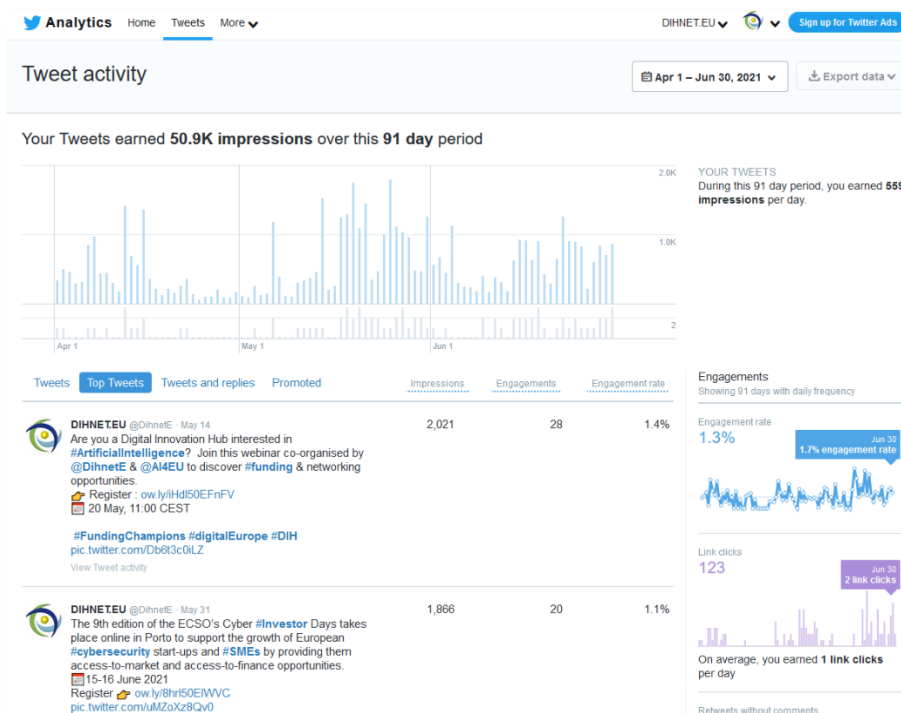

Figure 8: DIHNET Top 2 tweets 1 Apr 2021 – 30 June 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

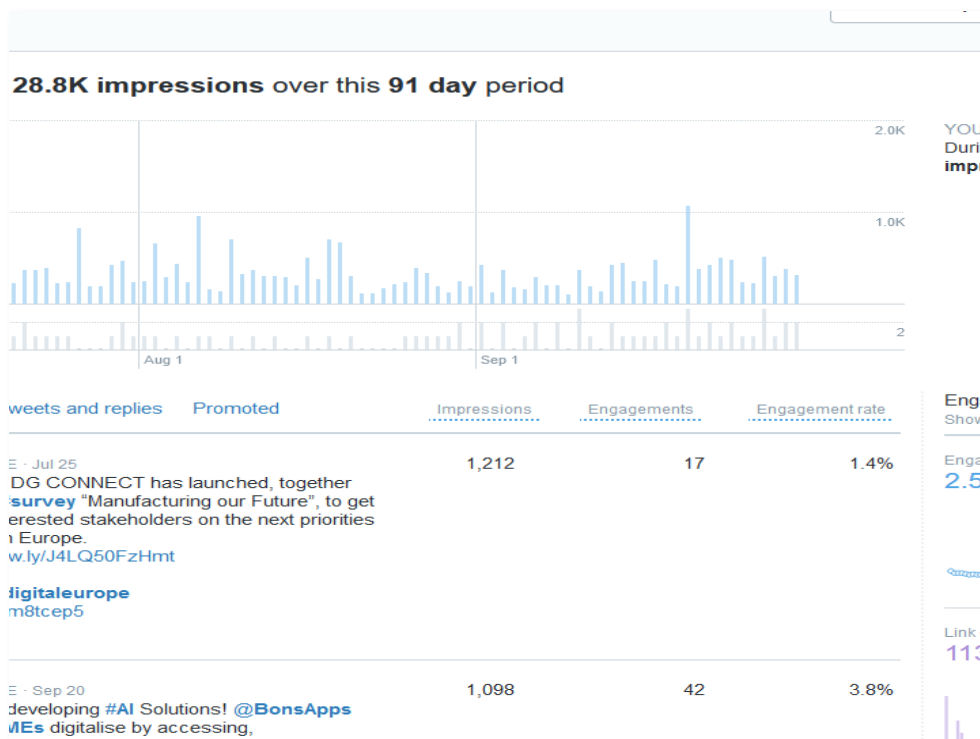

Figure 9: DIHNET Top 2 tweets 1 Jul 2021 – 30 Sept 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

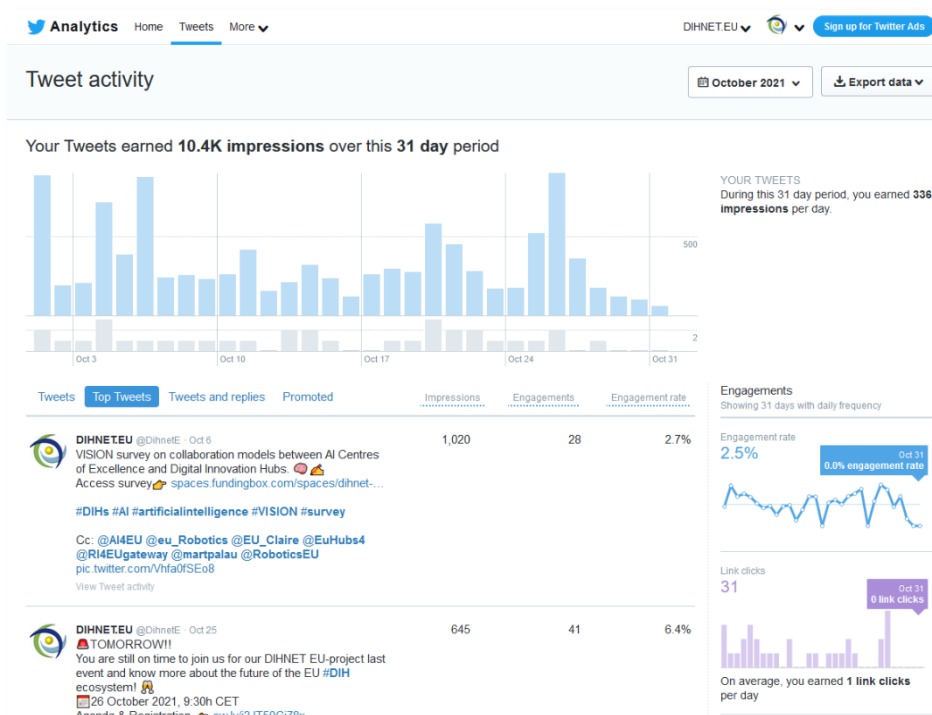

Figure 10: DIHNET Top 2 tweets October 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

The **average engagement rate for Year-3** is **2.1%** which can be considered **high**² and it is higher than the average of Year-2 (1.6%) The engagement rate is the number of engagements divided by the total number of impressions.

Figure 11: Tweet activity DIHNET period 1 Oct 2020 – 31 Oct 2021 (Source: www.twitter.com/DihnetE [Accessed November 5, 2021])

- **Facebook**

As per October 2021, the DIHNET Facebook page (<https://www.facebook.com/dihnet/>) has a total of **100 people likes** and **123 people follow**, this is 36 and 45 people more, respectively, than in Year 2.

Figure 12: DIHNET Facebook page likes and follows (Source: <https://www.facebook.com/dihnet/> [Accessed October 31, 2021])

² <https://embertelelevision.co.uk/blog/the-beginners-guide-to-twitter-analytics/>

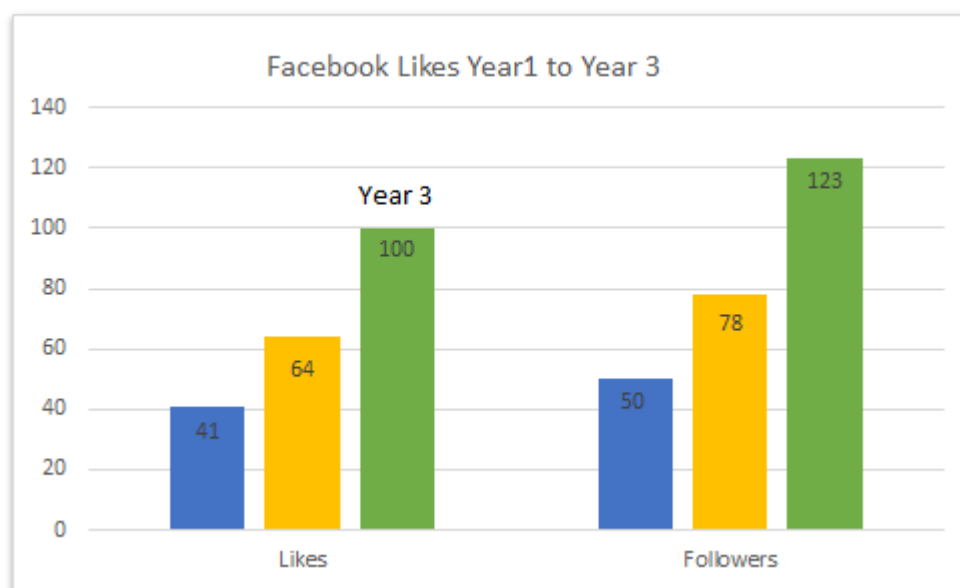

Figure 13: DIHNET Facebook Likes Year1 to Year3 (Source: DIHNET)

Since December 2019, the Facebook page is a mirror of the LinkedIn, without extra investment of personnel time on curating the channel. Because of that the numbers keep being in general low, although there has been a considerable increase on likes respect to Year-3 (see Figure 13).

Since January 2021, the analytics interface of Facebook has changed, so we only have access in “Insights” to “Results” (Page reach), “Content” (top performers reach) and “Audience” (Page likes). Because of this, it will not be possible for us to give numbers of “Impressions” and compare them with previous Year 2.

Results

Facebook Page reach ⓘ

8,489 ↑ 375.8%

Figure 14: DIHNET Facebook Monthly total Organic Page Reach (Source: <https://www.facebook.com/dihnet/> [Accessed October 31, 2021])

During the period of 1 November 2020 to 31 October 2021, we had a total of **page reach of 8489 people a 375.8% increase** compared with the previous year (see Figure 14 and Figure 15). Facebook

activity peaked around the months of January and February 2021 with the EDIH event and the winners of the DIH Champions Challenge (see Figure 16)

Figure 15: DIHNET Facebook Post Reach Year1 to Year 3 (Source: DIHNET)

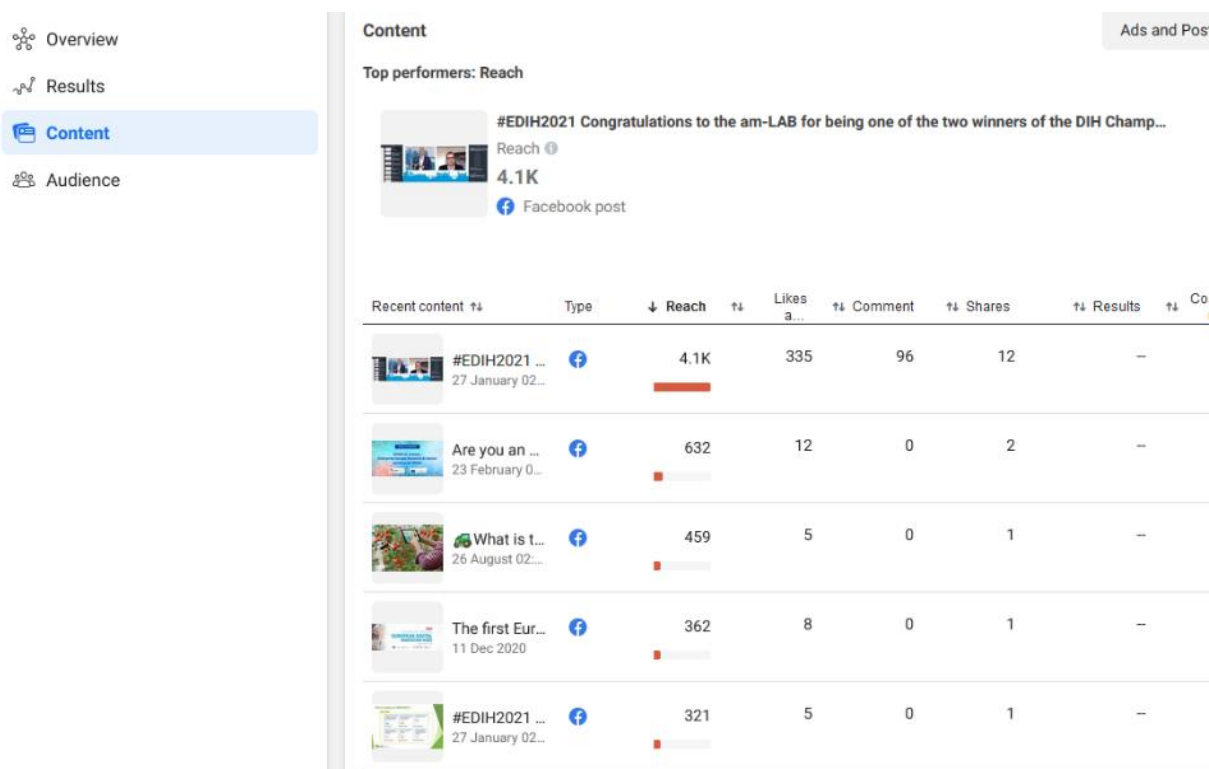

Figure 16: Post reach for DIHNET's Facebook page in Year3 (Source: <https://www.facebook.com/dihnet/> [Accessed October 31, 2021])

- **LinkedIn**

The LinkedIn page for DIHNET (<https://www.linkedin.com/showcase/dihneteu>) has **658 followers** (403 more than Year 2, see Figure 18) a number that has increased in part during the months around the EDIH conference. All this as per November 4, 2021.

Figure 17: DIHNET LinkedIn page header (Source: <https://www.linkedin.com/showcase/dihneteu> [Accessed November 4 2021])

Figure 18: DIHNET LinkedIn Followers Year1 to Year3 (Source: <https://www.linkedin.com/showcase/dihneteu> [Accessed November 4, 2021])

Figure 19: DIHNET LinkedIn follower metrics period 31 October 2020 – 30 October 2021 (Source: <https://www.linkedin.com/showcase/dihneteu> [Accessed November 4, 2021])

The number of **unique visitors** peaked around the months of December 2020 and February 2021, linked to the EDIH2021 conference as shown in Figure 20

Figure 20: DIHNET LinkedIn unique visitors period 31 October 2020 – 30 October 2021 (Source: <https://www.linkedin.com/showcase/dihneteu> [Accessed November 4, 2021])

The number of **unique impressions** has peaked around the months of December 2020 and February 2021 as show in Figure 21. The publications with more impressions in those three months were about the EDIH conference.

Figure 21: DIHNET LinkedIn Unique Impressions 31 October 2020 – 30 October 2021 (Source: <https://www.linkedin.com/showcase/dihneteu> [Accessed November 4, 2021])

The unique impressions decreased during the Summer holidays in 2021, with a low peak in July and raised again in August and September with the start of business as usual. The swift between August and July, may be related with the holiday season being affected by COVID lockdowns, so people decided to move their main travel holidays to July.

The DIHNET LinkedIn **engagement rate** decreased in December 2020 due to the Christmas holidays and reaching low peak in March 2021. During this Year 3 period, the engagement rate has been very irregular compared with Year 2. The months with the best engagement rate were December 2020 (**10.5%**), January 2021 (**8%**), April 2021 (**8.7%**) and October 2021(**8%**); but there were also low peaks in half of the year going from **6% to 7%** (see Figure 22). It's considered that an engagement rate³ of 7% in LinkedIn, is very good. Therefore, we can say that in average we have had a **very good engagement rate**.

³ <https://www.contentcal.io/blog/what-is-a-good-social-media-engagement-rate/>

Figure 22: DIHNET LinkedIn Engagement Rate period 31 October 2020 – 30 October 2021 (Source: <https://www.linkedin.com/showcase/dihneteu> [Accessed November 4, 2021])

DIHNET LinkedIn page has improved considerable since November 2020, especially with the exposure of DIHNET in the EDIH conference and the winners of the DIH Champions Challenge.

3.12 Community platform

DIHNET has reached out to 4 ambassadors (**Merete Norby, Thorsten Huelmann, Tereza Zamanova and Georgios Megas**) consolidated figures in the DIHs' ecosystem, to create awareness about topics developed on the online community. You can check the website page for information on their profiles: <https://dihnet.eu/ambassadors/>

The Ambassadors proposal was implemented in the first quarter of 2021, and although it has not translated directly into an increase of community members, it has given value to DIHNET's brand and they have participated and created specific content of great added value for the DIHNET community and engage with it; and those were the main objectives for which we decided to have ambassadors.

During Year 3 the DIHNET community platform had **693 registered new users**, 569 more than Year 2, making a total of **1594 community members**.

Since the end of Year 2 (30 September 2021), people have posted **569 new messages**.

Figure 23 shows the evolution of the members for Years 3 from 30 September 2020 to 30 September 2021, while Figure 22 shows a comparison between Year-1, Year-2, and Year-3. The evolution is quite stable but performing. In Year 2 we had 40 new members per month, and in Year 3 we had 58 members per month.

Key Charts

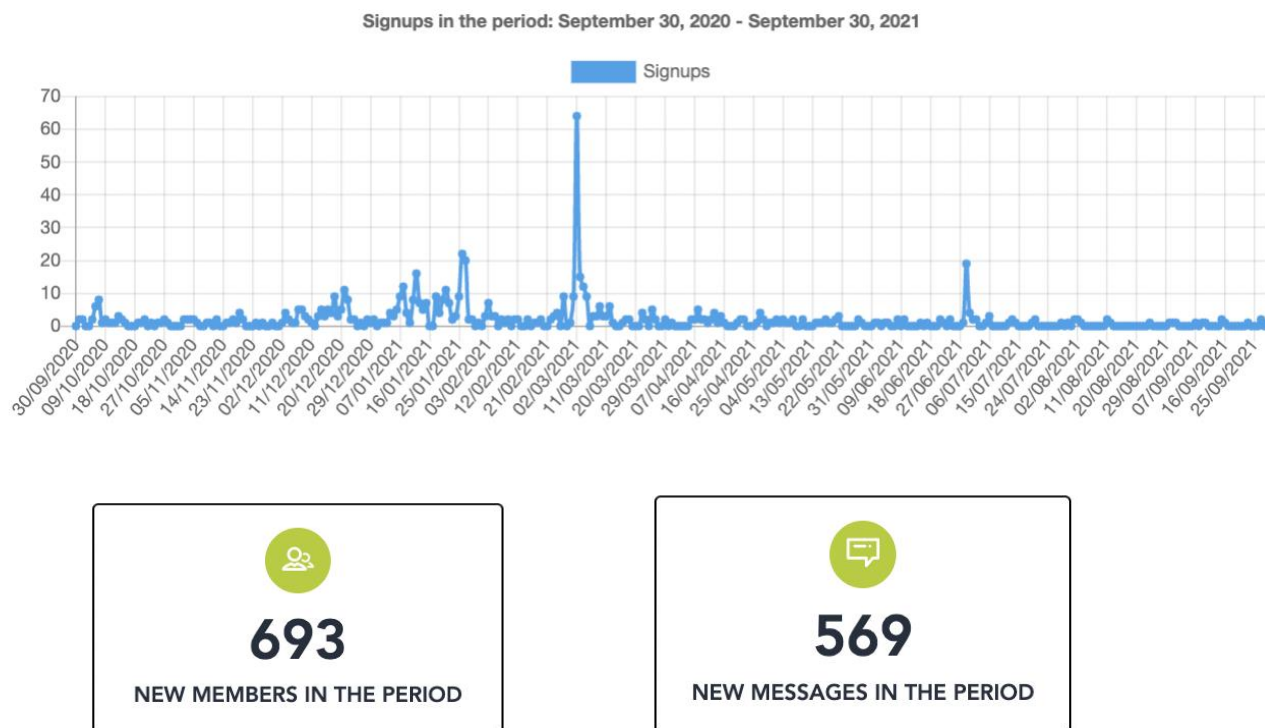

Figure 23. Evolution Community members 30 Sept 2020– 30 Sept 2021 (Source: Funding Box) [Accessed October 4, 2021]

Community Platform Year 1, Year 2, Year 3

Figure 24. Comparison Community new members and messages Year 1, Year 2 & 3 (Source: Funding Box) [Accessed October 4, 2021]

The most successful collection in Year3 is the “**events**” one, with 135 events (81 more than the previous year) shared by members from 1 November 2020 and 31 October 2021. Accordingly, the space with the most content is “**News & Events**” as shown below in Figure 24

Community Content

Figure 25: DIHNET Community content Sept 2020– Sept 2021 (Source: Funding Box) [Accessed October 4, 2021]

Once the project ends on the 31st of October 2021, DIHNET.EU Community will inform users that they can continue using the community platform – that will undergo a re-branding.

The new community will be renamed “DIHNET Club: European Digital Innovation Hubs Community.” In addition, information related to funding, networking, training, and events will be shared and keep it alive by FundingBox.

3.13 Website

The DIHNET.EU project website is continuously being updated. The repository is now on the menu bar. We have included a page on DIHNET ambassadors under “About Us” and one page about the different DIH of the month called “Know Your Ecosystem” under “Explore”. We also updated the content in all the website sections.

The analytics shown in this section cover the **period from the 1 November 2020 to 31 October 2021**. We also have compared Year 3 with previous Year 2.

Figure 26: DIHNET website landing page (Source: DIHNET) [Accessed November 3, 2021]

The audience overview of DIHNET website for the before mentioned period is of **10787 users**, of which 10680 are new users. This is **77.3% of new visitors** and 22.7% of returning visitors (see **Error! Reference source not found.**). As shown in Figure 28, the number of users in Year 3 is higher than in Year 2, with **more than double of new users**.

Some new users directly access the website, while others are referred to it from external sources.

In Year 3, the percentage of **referrals has increased 38,71%** compared with Year 2 as shown in Figure 29. The **European Commission's website keeps bringing most of the new uses, 30,55%**. This period has also seen a more diverse sources of referral, including now **bots (8,99% + 7.71%)**. The **JRC DIH catalogue** website keeps being another of the main referral pages (**7.03% + 3.64**).

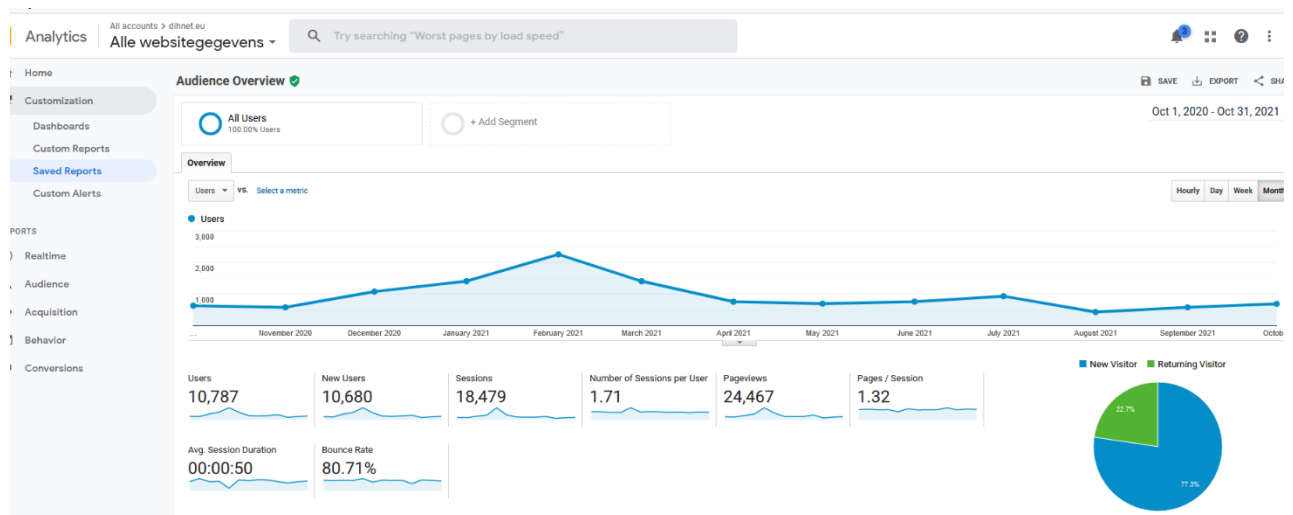

Figure 27: DIHNET website audience overview 1 October 2020 – 31 October 2021 (Source: DIHNET) [Accessed November 4, 2021]

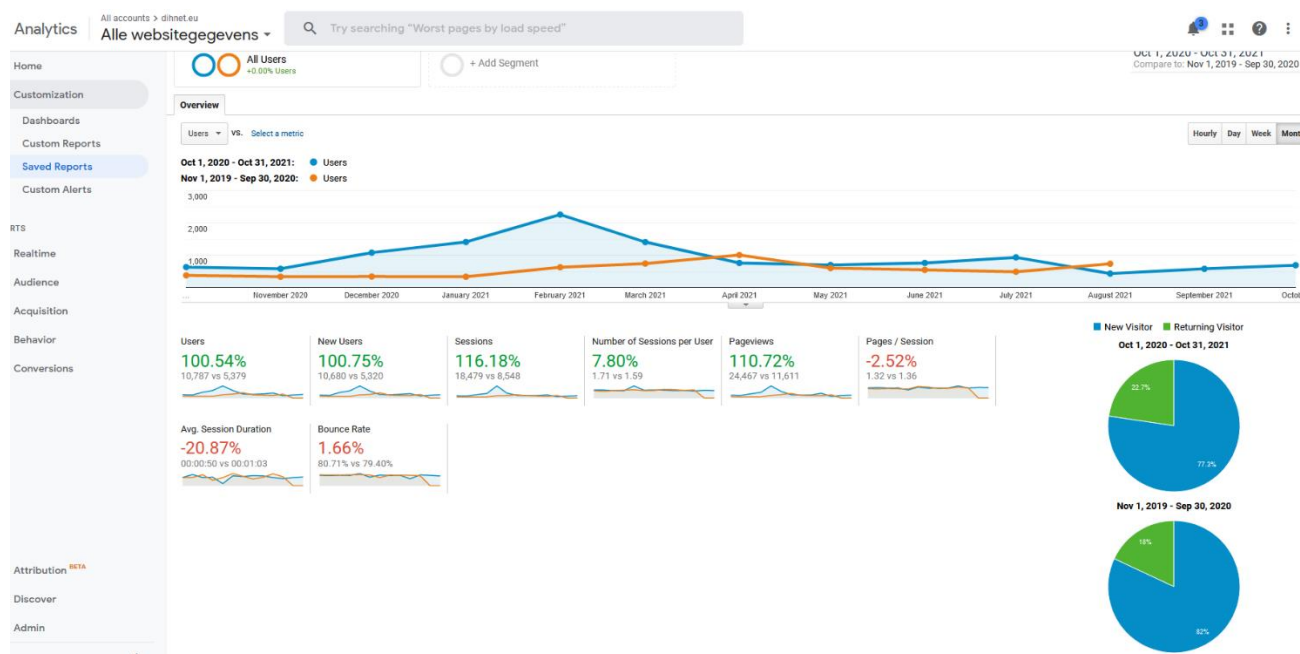

Figure 28. DIHNET website audience Comparison Year 2 to Year 3. [Accessed November 4, 2021]

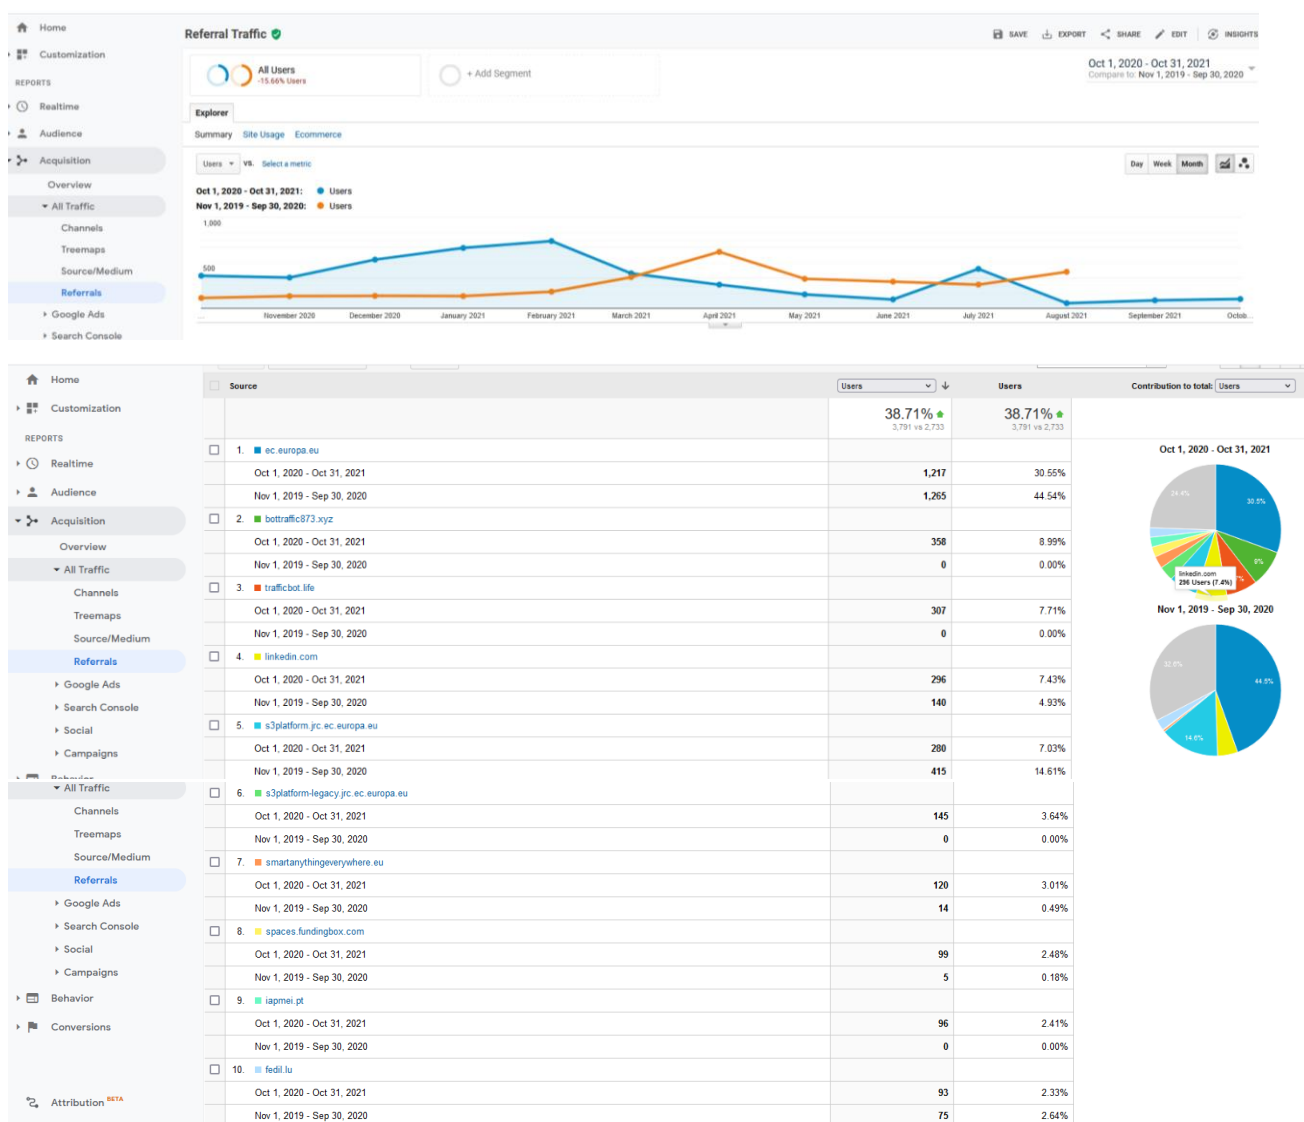

Figure 29: DIHNET website Referral Traffic, 1 October 2020 – 31 October 2021 (Source: DIHNET) [Accessed November 4, 2021]

The top five **primary countries** of the DIHNET website users in Year 3 are **Spain** (1117 users), **Italy** (747 users), **Germany** (734 users), **United States** (664 users) and **Belgium** (587 users), as show in **Error! Reference source not found**. Italy and USA have moved up positions, while Spain, Germany and Belgium keep being again this Year 3 in the top 5. The location data is gathered during the access to the website, so it can be either the users' country of residence or country they are temporary visiting. Most of the users are from European countries which is the geographical area of our targeted audience.

D1.6 Report Year 3 Dissemination and Communication

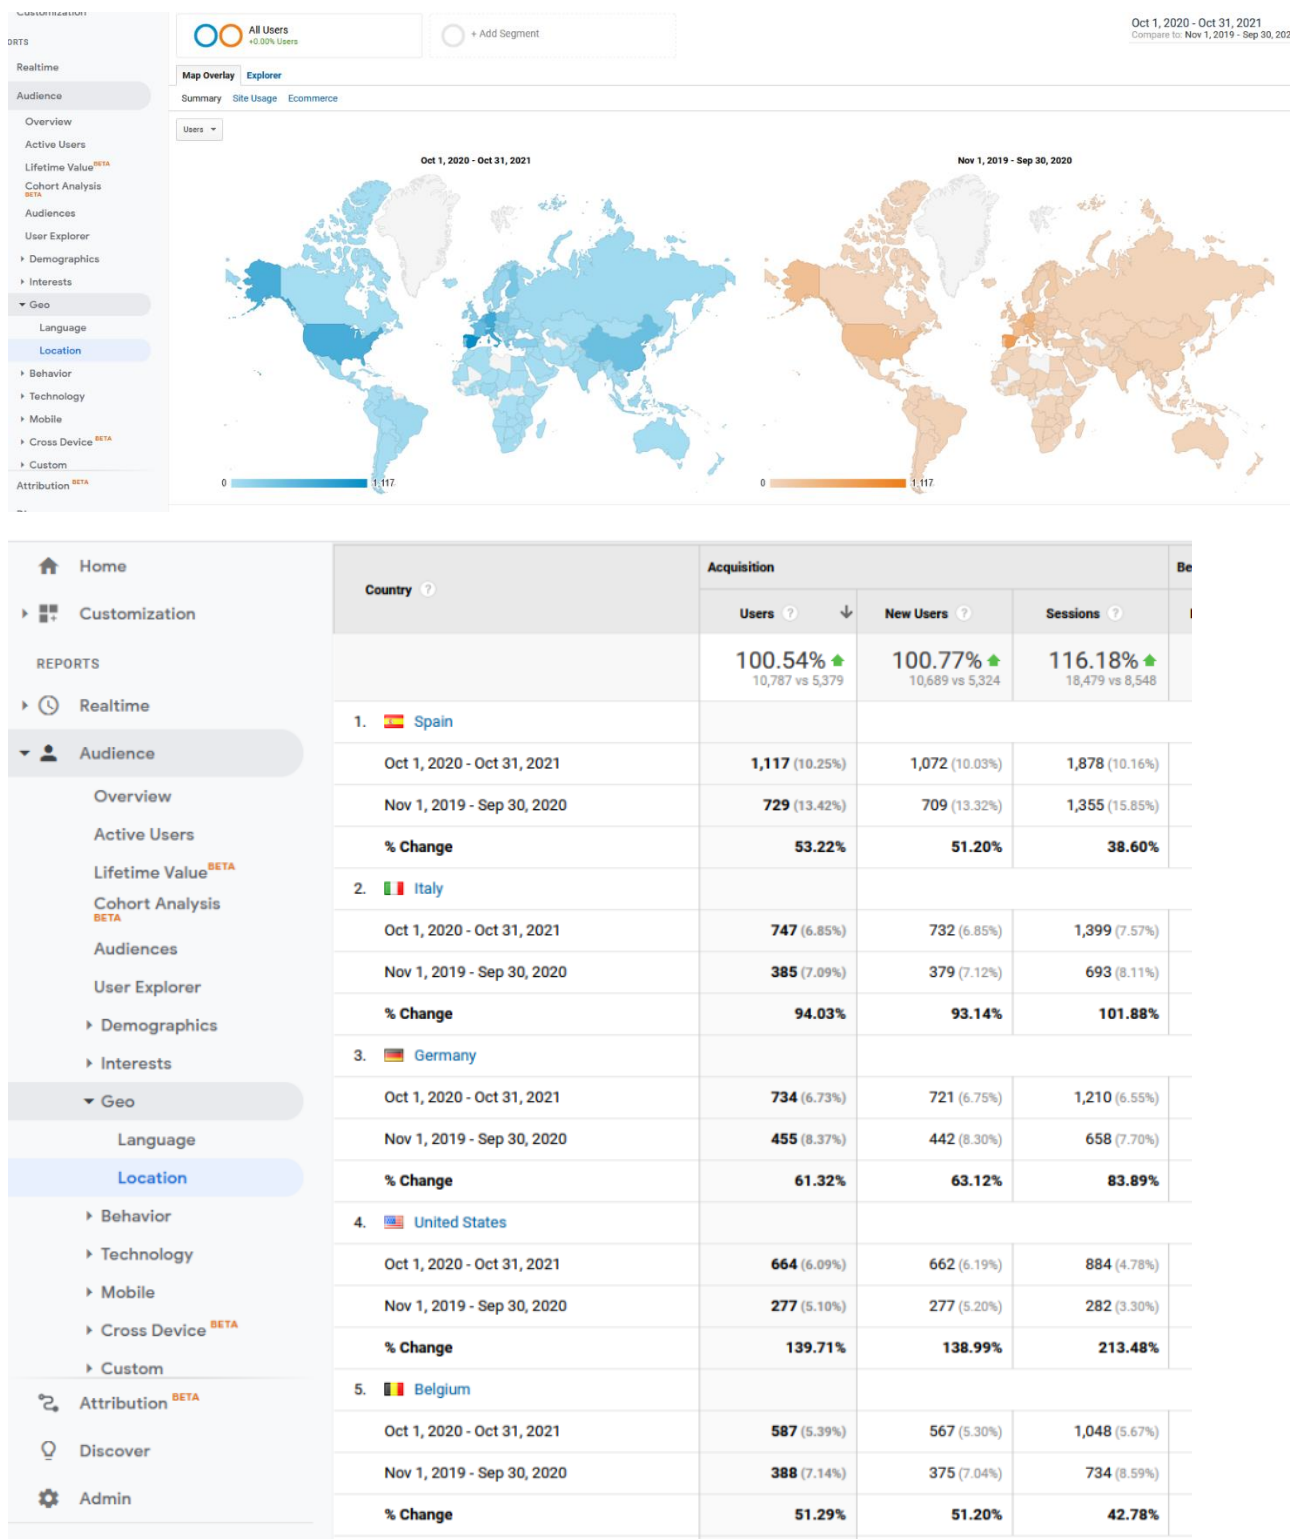

Figure 30: DIHNET website users by location, 1 October 2020 – 31 October 2021 (Source: DIHNET) [Accessed November 4, 2021]

Further to **social network referrals** to the website during the period 1 November 2020 – 31 October 2021, **68,08%** are from **LinkedIn**, **17,66%** from **Facebook**, and **12,01%** from **Twitter** (see Figure 31). In this period the LinkedIn has clearly increased the number of referrals while Facebook and Twitter have decreased it.

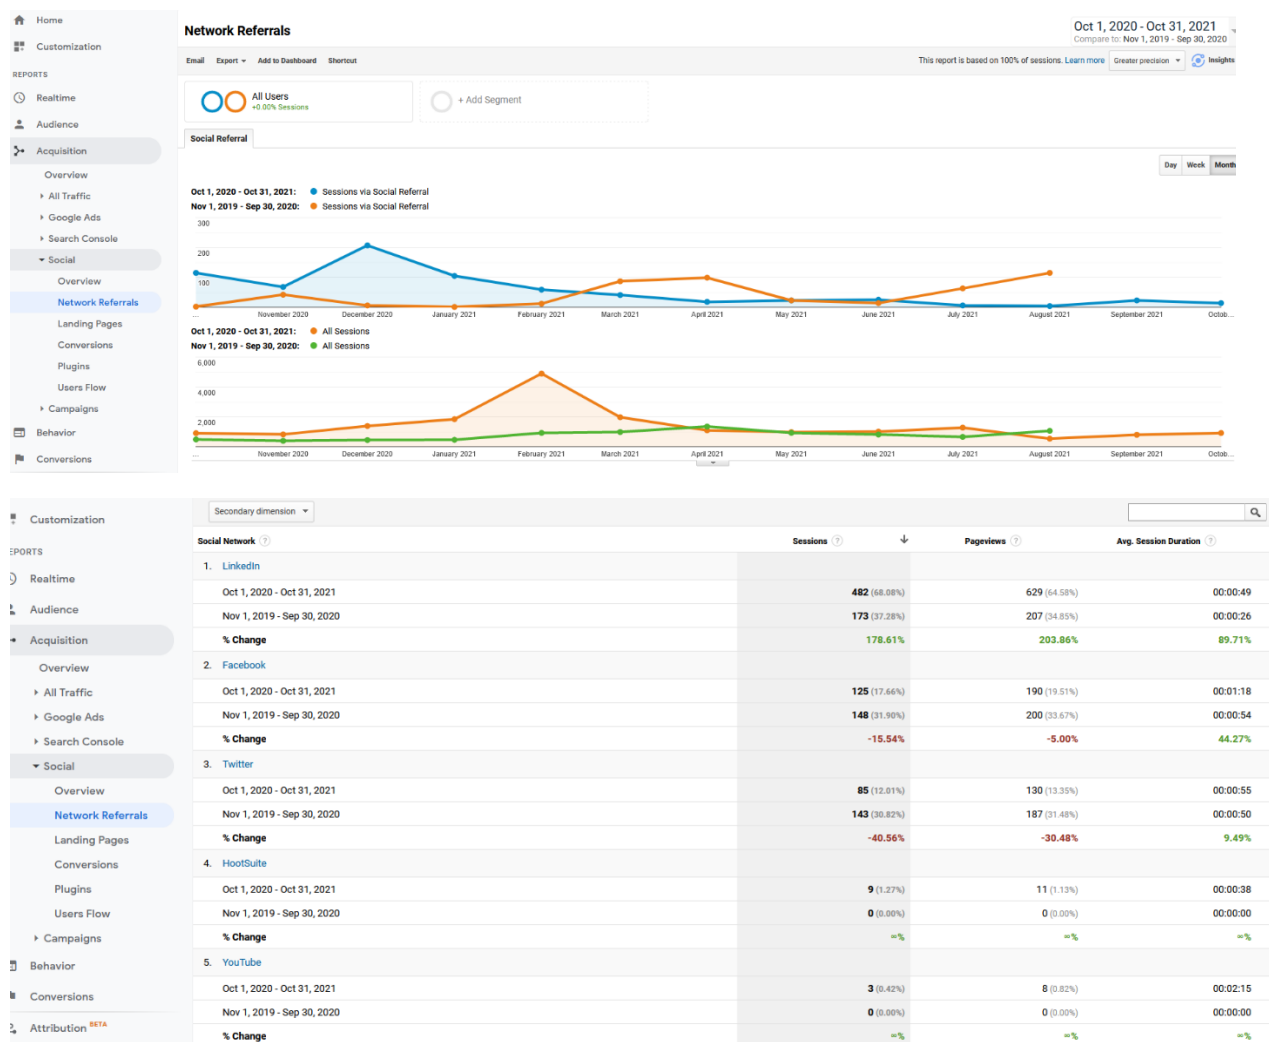

Figure 31: DIHNET website network referrals by social networks, 1 October 2020 – 31 October 2021 (Source: DIHNET)
[Accessed November 4, 2021]

The number of page views during the year-3 period is **24467** of which **20639** are **unique page views**, this is an increase of **110,72%** and **121,4%** respectively, in comparison with Year-2. The open calls page keeps being the page with most views after the landing page, this period had **4092 (3812+280) unique page views**, as shown in Figure 32. Followed by the “Save the date. Gearing up...” news **1029 unique page views**. The pages related to the event in Luxemburg show a clear peak on page views in the graphic between January-March 2021.

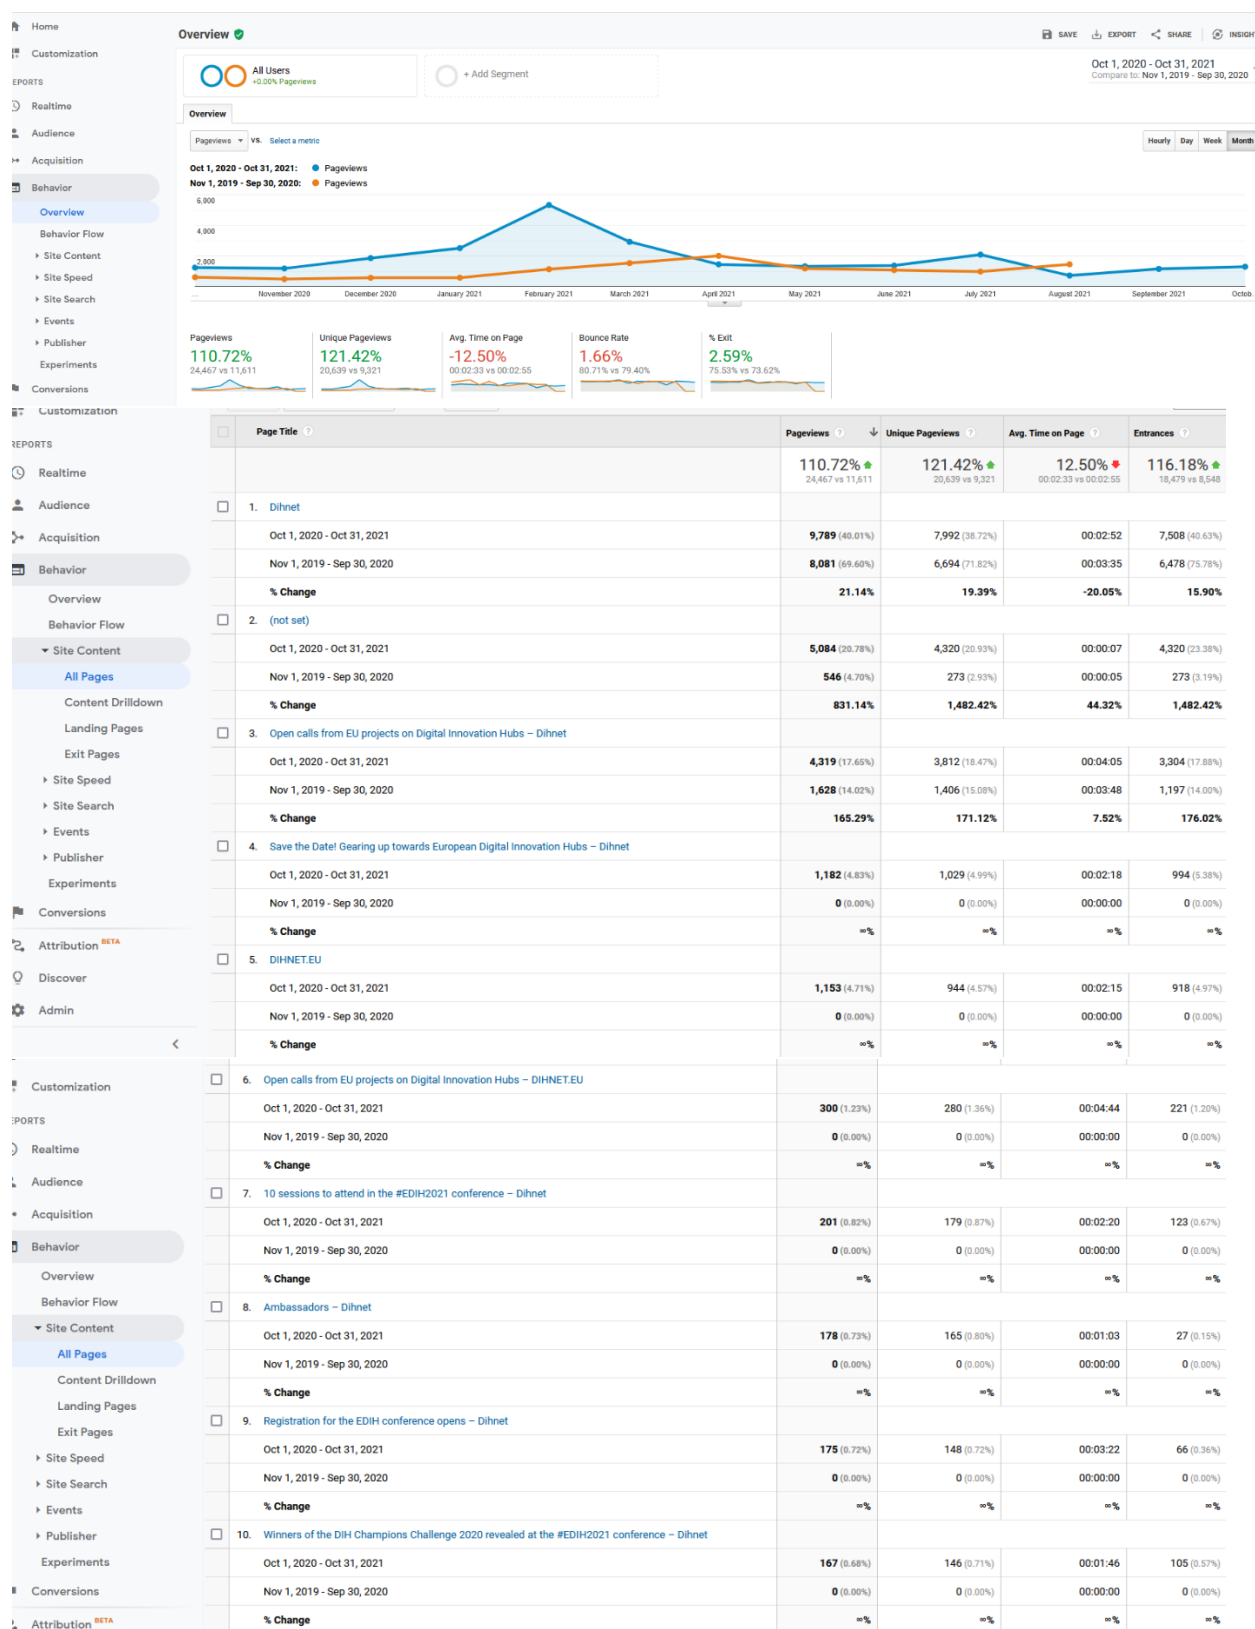

Figure 32: DIHNET website page views overview, 1 November 2019 – 30 September 2020 (Source: DIHNET) [Accessed October 1, 2020]

3.14 Zenodo Community Repository

The project publications and materials are shared and archived in two repositories, the website and the DIHNET Zenodo Community. In this section we present the analytics of the files stored in the Zenodo Community. The table below shows the current [accessed 26/10/2021] unique views and unique downloads of the documents from Year 2 and Year 3. The Year 3 deliverables will be uploaded once they are approved by the EC. The documents with more downloads and views up to now are the “Deliverable 5.1 – Segmentation of DIHs services and business models, “Deliverable 2.3 – Maturity Assessment tool”, “DIHNET- Deliverable 4.1 – Specialisation and collaboration in the DIH universe”, “Specialisation and collaboration in the European Network of DIHs: Leading the way to a European Innovation Support Infrastructure” and the “DIHNET – Presentation – 7 WG meeting – Introduction- 01072019”.

4 Dissemination materials

- **Leaflets**

Due to not organising or attend physical events, we did not produce new leaflets in Year 3.

Previous dissemination materials are available to the DIH community and the public on the Zenodo DIHNET community under “Type” → “Other”: <https://zenodo.org/communities/dihnet-repository/search?page=1&size=20>

- **Communication materials for policy makers**

The purpose of the Deliverable 1.3 “Communication material for policy makers” was to highlight the most important policy issues on DIHs for decision makers. This communication material published in Year 2 by Butter, Maurits; Karanikolova, Kristina; Gijssbers, Govert (TNO) was aimed at policy makers at different levels: regional, national, international. The set of slides is available on PDF in Zenodo DIHNET community under “Type” → “Publications” → “Deliverable”:
<https://zenodo.org/record/3970848#.X70zprN7mUk>

These communication materials for policy makers (Deliverable D 1.3) have been **downloaded by unique users 57 times** up to today (25/10/2021).

5 Conclusions

Year 3 has been also marked by the **COVID-19 pandemic**, that did not make possible face-to face events or gatherings of people. **All consortium partners have contributed disseminating the project exclusively in an online format.** These activities have included among other the successful EDIH conference, the DIH Champions Challenge, webinars and workshops. DIHNET partners were also invited to present DIHNET network in virtual conferences, webinars and workshops.

The success of the **DIHNET community platform** within the Digital Innovation Hubs community is shown by the level of registrations (**1594 users**) and the users' engagement in the webinars, conference, events, and community spaces (including the creation of new private spaces by community members). In Year-3 we reached the objective of 1000 members set in Year 2 and we also triggered successfully more interaction among members through the figures of the DIHNET ambassadors.

The social media evaluation shows **high engagement rates in Twitter and LinkedIn**. This year analytics indicates a clear increase in engagement and number of followers in all the social media channels. After the project ends, the Facebook channel will be stopped and the Twitter and LinkedIn will be kept alive for some months with minimal maintenance by euRobotics, until another project can take over it or it is decided to completely close it due to lack of resources.

The overall project dissemination for this Year 3 is very good and shows an improvement respect previous Year 2 and Year1. Our project community grown also in this last year and DIHNET has made known itself known in the DIH community thanks to the events and activities organised by the consortium and the help of the publications, social media channels and the community platform. There is no doubt that the efforts made during these three years have made possible to **establish DIHNET brand as one of prestige and great value within the Digital Innovation Hub community in Europe.**

Annex

This annex provides a summary of online media coverage of DIHNET network in Year-3: **1 November 2020 to 31 October 2021**.
