

CO-create **CHANGE** in Research Funding and Performing

Follow us cochangeproject.eu | #COCHANGE2020 | peter.biegelbauer@ait.ac.at

WHAT IS CO-CHANGE?

Increasing demands of research and innovation stakeholders in our societies require changes in research funding and performing organisations to accept inputs from citizens and organisations that used to be considered outsiders to the world of research and innovation. The EU financed project Co-Change inspires such changes by introducing new practices in the areas of research ethics, open access, citizen engagement, gender equality and science education. Our aim is to align both innovation processes and its outcomes with the values, needs and expectations of society.

Consortium partners come from 4 research performing organisations, 2 research funding organisations and 2 universities.

OUR GOALS

Initiate and implement institutional changes by developing the capacity for responsible conduct into the day-to-day routines of research performing and funding organisations.

Build transformative capacity and leadership for responsible research and innovation through systemic change coalitions around our change labs.

"The future of responsible research and innovation will depend on its ability to have a direct impact on organisations and the practices of innovators in research and technology."

Peter Biegelbauer, project coordinator

8 LABS

organisational spaces for building transformative capacity and leadership in the areas of RRI

#01 AIT

Austrian Institute of Technology
RRI in machine learning and artificial intelligence

#02 VTT

Technical Research Centre of Finland
RRI in artificial intelligence driven autonomous systems

#03 TECNALIA

Fundación TECNALIA Research & Innovation
RRI in technological research

#04 WWTF

Vienna Science and Technology Fund
RRI in funding guidelines

#05 PL

Council of Tampere Region
RRI in regional development

#06 PFNS

Faculty of Agriculture of the University of Novi Sad
RRI in science education, gender equality

#07 TUD

Delft University of Technology
RRI in tackling global challenges of delta regions

#08 NEN

Royal Netherlands Standardization Institute
RRI in the standardisation process

THE OUTCOMES

We will publish co-created and tested RRI-related practices for institutional change in research funding and performing organisations in the form of a toolbox based on the analysis of the change labs' outcomes, and a field book for responsible research related changes.

We make an effort to align both project process and outcomes with current public discussions regarding research and innovation.

The Project In Numbers

H2020 grant agreement
No 873112.

Timeframe
1 February 2020 –
31 January 2023

Overall budget
€ 1.498.833,75

Coordinated by
Austrian Institute
of Technology

Project
communication
ESSRG
