

D4.3 Quantitative results of antibiotics in manure

Workpackage 4

Responsible Partner: 34-PIWET,
2-AGES

Contributing partners: 7-SZU, 14-UT, 23-UoS,
25 NUIG, 36-INSA

GENERAL INFORMATION

European Joint Programme full title	Promoting One Health in Europe through joint actions on foodborne zoonoses, antimicrobial resistance and emerging microbiological hazards
European Joint Programme acronym	One Health EJP
Funding	This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No 773830.
Grant Agreement	Grant agreement n° 773830
Start Date	01/01/2018
Duration	60 Months

DOCUMENT MANAGEMENT

Title OHEJP deliverable	Quantitative results of antibiotics in manure
WP and task	WP4: Determination of the selection pressures in the tested compartments of human, animal and environmental ecosystems Task 3: Quantification of four antimicrobial classes (tetracyclines, macrolides, sulphonamides and fluoroquinolones) in manure
Leader	Anna Gajda / Małgorzata Gbylik-Sikorska (34-PIWET), Martin Brandtner (2-AGES),
Other contributors	7-SZU, 14-UT, 23-UoS, 25 NUIG, 36-INSA
Due month of the deliverable	M50
Actual submission month	M50
Type <i>R: Document, report DEC: Websites, patent filings, videos, etc.; OTHER</i>	R Save date: 29-Mar-22
Dissemination level <i>PU: Public (default) CO: confidential, only for members of the consortium (including the Commission Services).</i>	PU <i>See updated Grant Agreement</i>
Dissemination <i>Author's suggestion to inform the following possible interested parties.</i>	<p>OHEJP WP 1 <input type="checkbox"/> OHEJP WP 2 <input type="checkbox"/> OHEJP WP 3 <input checked="" type="checkbox"/></p> <p>OHEJP WP 4 <input type="checkbox"/> OHEJP WP 5 <input type="checkbox"/> OHEJP WP 6 <input type="checkbox"/></p> <p>OHEJP WP 7 <input type="checkbox"/> Project Management Team <input checked="" type="checkbox"/></p> <p>Communication Team <input checked="" type="checkbox"/> Scientific Steering Board <input type="checkbox"/></p> <p>National Stakeholders/Program Owners Committee <input type="checkbox"/></p> <p>EFSA <input type="checkbox"/> ECDC <input type="checkbox"/> EEA <input type="checkbox"/> EMA <input type="checkbox"/> FAO <input type="checkbox"/> WHO <input type="checkbox"/> OIE <input type="checkbox"/></p> <p>Other international stakeholder(s):</p> <p>Social Media:</p> <p>Other recipient(s):</p>

D-JRP15-FED-AMR-WP4.3: QUANTITATIVE RESULTS OF ANTIBIOTICS IN MANURE

Preliminary Remarks

This deliverable D-JRP15-FED-AMR-WP4.3 relates to WP4 task 3, “Quantitative results of antibiotics in manure” and is led by Anna Gajda (34-PIWET).

This project is an ongoing effort, however, due to the delay in sample collection (arising from COVID-19 restrictions), the progress of this task is behind the original schedule.

Description of action

The manure samples were collected as part of the sampling campaign lead by WP2 partners. For more information on the manure sample collector, sampling timeline, manure sample distribution, sample transportation, sample identifiers used, please see D-JRP15-FED-AMR-WP2.1, Annexes 1 to 4 and Annex 6. All collected samples were sent by the involved institutes within FED-AMR to 34-PIWET in Poland for further antibiotic detection in manure samples as described in D-JRP15-FED-AMR-WP4.1, Annex 1.

Description of deliverable

This deliverable provides quantitative results of antibiotics in manure across the countries involved in WP4. These results will be exchanged with other WPs, namely with WP2, in order to associate the presence of certain antibiotics in manure samples with their corresponding resistance genes, which have been detected by target enrichment.

Confidentiality of the deliverable

This deliverable is public, however, results associated to this deliverable are confidential until published, and are shown in **Annex 1** to this deliverable.
