In today's fast-pased world ,foreign languages skills are becoming an integral part of professional education. As a result of the introduction of new innovations in almost every field ,the demand for learning irrelevant languages is growing.In fact people learn foreign languages frist at school ,collage , high school, and then, at institutes ,courses ,or by learning basic information that helps them learn an outlandish languages. Today,there is a large collection of educating materials for people with various levels of language skills.Success in achieving this goal depends on the practical methods and finesse of teachers.

Nowadays, intractive games are becoming a tradition in schools . It is well known that, an abnormity of play based activities help students illustrate their capacities ,focus ,enhance their knowledge ,skills and become stronger.

We know that in the current educational treat ,the student must be a subject.Focusing on more interactive arrangements will increase learning effectiveness. One the most essential requirements for English is to teach students to think independently.Currently, English language pedagnun use the following advanced methods based on the experience of teachers in the United States and the United Kingdom.

1.GO ON... ; When I grow up ,I ...- I wanted to be a nurse when I grew up because I love caring for people.

- When I grow up ,I will be a good teacher, because I want to teach my sister and children.

In this game, students are divided into 2 groups .Whichever group has the most ideas is encouraged.

2.CREATIVE PROBLEM -to use this method , the beginning of the story is read and the conclusion is left to discretion of the students.

3.MERRY RIDDLES- is an important part of teaching English to students, where they learning words thes are unfamiliar with and find the answer to a riddle . Quick answers help to increase the effectiveness of the lesson.

4. PANTOMIME is a method that can be used in a lesson where very difficult need to be exexplained , or when student are tired of writing exercises.

5 A CHAIN STORY METHOD helps to develop students oral skills

6. ACTING CHARACTERS . This method can be used in all type of lessons Professionals such as Interpreter, Translitor ,Writer and Poet can participate in the class and talk to students .

7. THINKERS MEETING .It is possible to 'invite' poets and writers such as W.Shakesper , A.Navoi , Z.M.Bobur , R. Burns . At the same time, using the words of wisdom they say in class will help young people to become perfect human beings .

8. WHEN THE PICTURES SPEAK method is more convenient and helps to teach English , to develop students' oral speech , it is necessary to use thematic pictures ;

9. QUIZ CARDS are distribute according to the number of students to attend classes at the same time, which saves time.

10. IMPOSSIBLE. In this style ,the teacher reads a certain text . Students should find a sentence or phrase that describes events that may not have happened. This way of humor requires students to be alert , careful and observant , as well as not to be indifferent to what is happening around them. It also stimulates their interest in extracurricular scientific films helps them develop storytelling skills. Once this technique has been repeated ,it is possible for students to develop such stories later.

The goal of the Interactive lesson is to give students as many opportunities as possible to communicate freely in a foreign language.

On the other hand , teaching and learning a foreign language using modern technology is on of the most effective ways. An important factor in the use of recent technologies in education is the competency of students to know use information and communication technologies.

In this process , including ;- when using computers, the student can watch and hear videos , demonstrations, dialogues, movies or cartoons in a foreign language;

It is possible to listen and watch radio broadcasts in foreign languages and TVprograms;

-Use of tape recorders and cassettes , which are more traditional methods ;

- CD players are available . The use of these tools makes the process of learning a foreign language more interesting and effective for students.

All of these methods involve collaboration between teacher and student , active participation of the student in the educational process. To sum up, the use of innovative methods in English lessons develops students' logical thinking skills, fluency and the ability to respond quickly and accurately.

Such methods stimulate the student's desire for knowledge. The student strives to prepare to prepare well for the lessons . This makes students active participants in the learning process. As the education system sets itself the task of nurturing a free-thinking , well-rounded, mature person, in the future , we will contribute as future teachers develop more sophisticated ways to make effective use of innovative technologies.
