I. Introduction (10 minutes) Steve Baskauf

    D. What is the purpose of this meeting?

        c. potential use with video (Rich)
III. Open term proposal issues in issues tracker https://github.com/tdwg/ac/issues (actions: advance, close, or defer)
    A. Comment Date term is missing (# 150, noted by Niels Klazenga)
      - **defer** (could mint the term, and provide a "recipe" for mapping onto w3c Annotations, while also expecting in the longer term)

      - **defer** (needs someone to push it forward)

C. [Proposal to import term dwc:individualCount](#) (# 176, created by Dan Stowell & Ed Baker) - **defer** (this led to some debate [within the DC MG's issue tracker](#) about the term's definition)
D. [Linking media items to occurrence records](#) (# 191, created by Steve Baskauf) - **defer** (wait to see how the machine-observation related discussions pan out, in groups other than AC)
E. [Move ac:framerate from ROI category to Resource Creation category](#) (# 217, created by Ed Baker) - **advance**

IV. Work in the coming year
   - Sound examples document?
   - Cameratrap DP (with Machine Observations IG)
   - Pull 3D proposal over the finish line

V. Name of Audubon Core and slaverholding legacy of J. J. Audubon (5 minutes)
https://www.audubon.org/news/the-myth-john-james-audubon

Four members of the core maintainers group said they were open to considering a new name. None spoke against it. It is desirable to stick with the "AC" initialism if possible. Suggestions: ask the TDWG executive to give general guidelines about naming after people; add an acknowledgement to AC documentation about the issue.

Possible other names that were suggested: audiovisual core, animated media core, AuviCore (+1 to AuviCore!)

Questions:
   1. Arthur Chapman to Everyone (3:33 PM)
      Q: Rich - have you looked at how Sports broadcasting stations do this with sports broadcasts where they can bring up a particular part of a video for near instant replay?
      A: Not yet -- are there suggested contacts from the industry? [Arthur to check]
