1. OUR RESEARCH IS COMPLEX

2

Value of TIRs in meeting the complexity

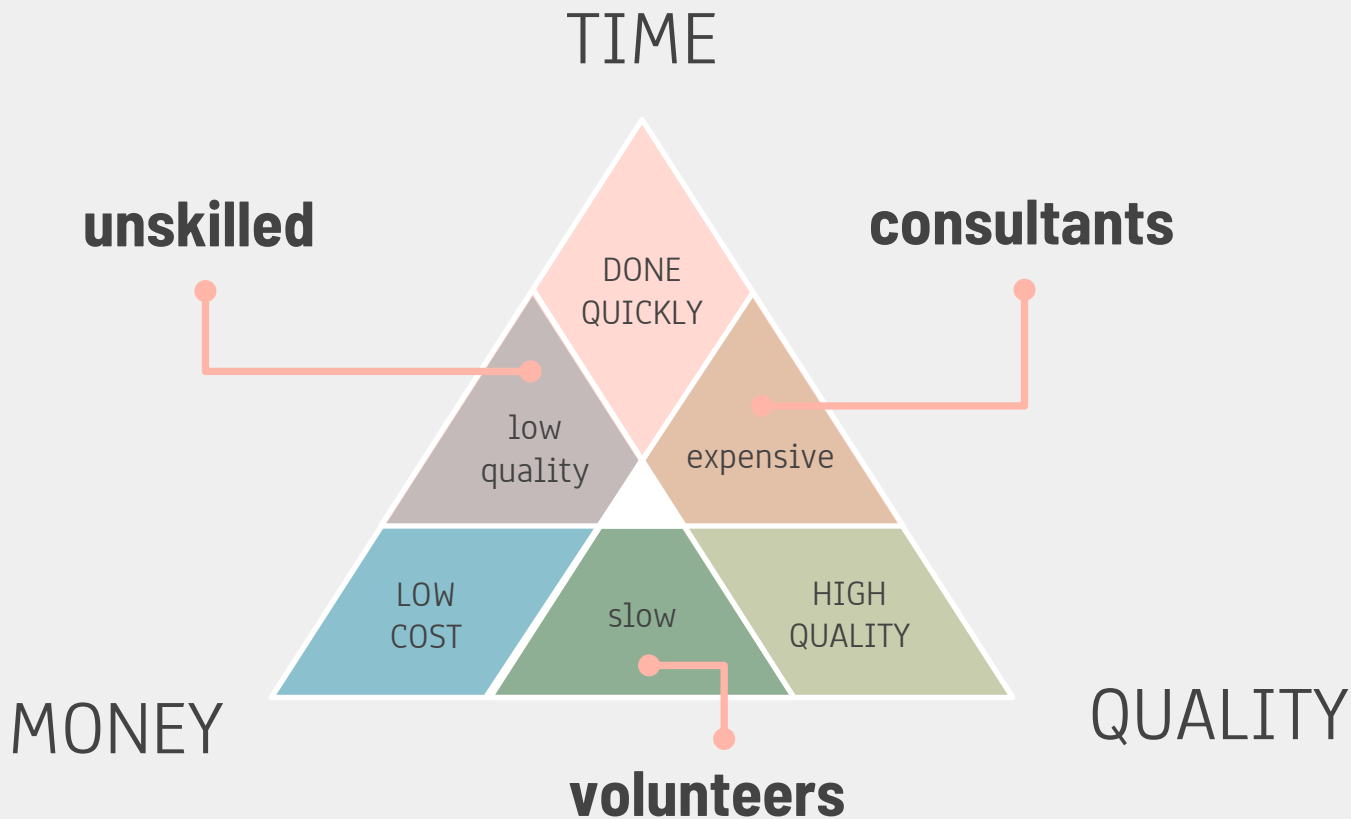

MEETING THE COMPLEXITY

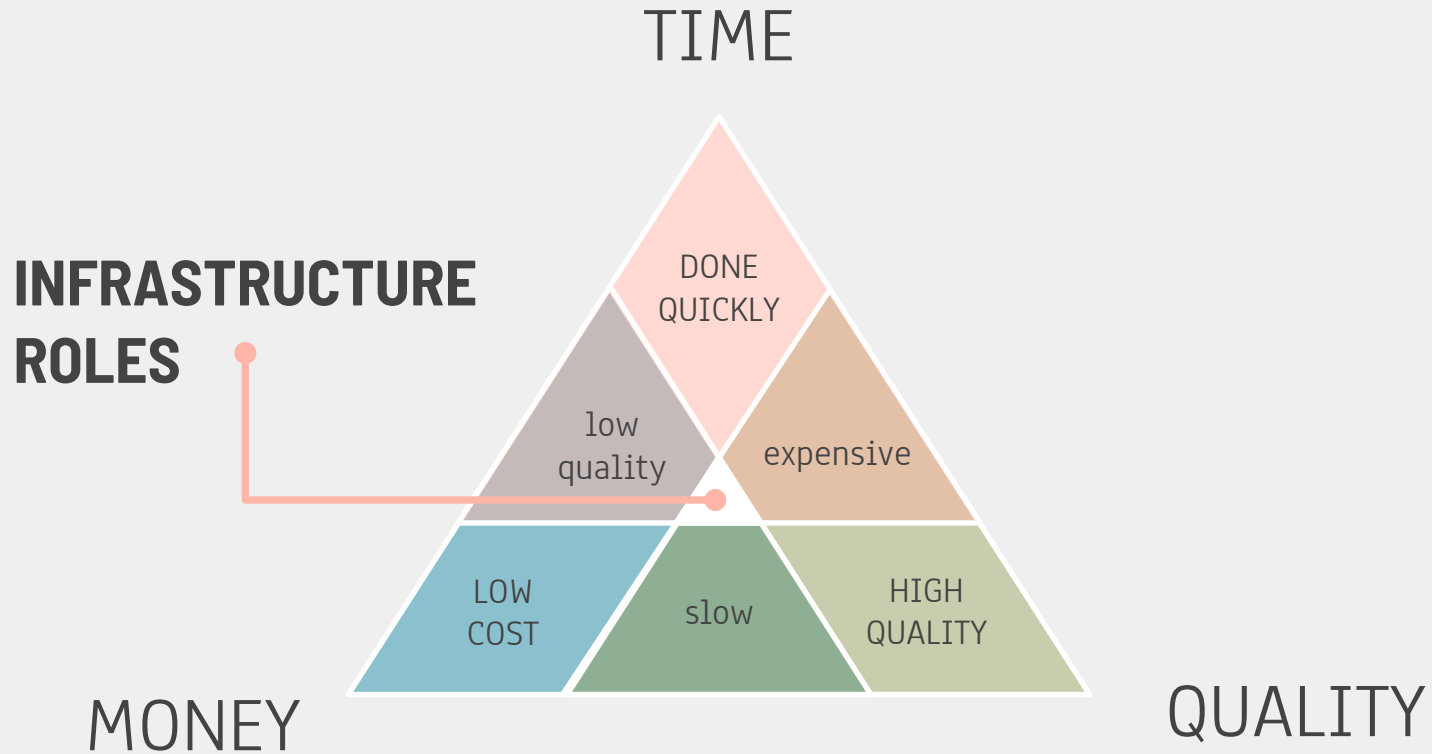

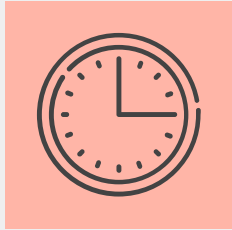

doi: 10.5281/zenodo.6651963 CC-BY 4.0

MEETING THE COMPLEXITY

MEETING THE COMPLEXITY

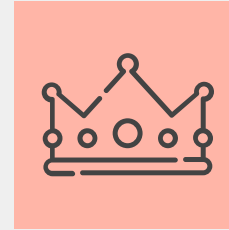

TIME

Skills quickly brought into your project

MONEY

Not attached to a specific project (sustainable)

QUALITY

Expertise to deliver high quality support

- Incredibly valuable, but contributions difficult to measure with standard academic practices.

3. MEET SOME TIRs

Dr Malika Ihle
Reproducibility Trainer
Ludwig-Maximilian
University, Germany

Dr Hao Ye
Reproducibility
Librarian
University of Florida,
US

Dr Esther Plomb
Data Steward
TU Delft,
Netherlands

Dr Stephan Heunis
Research Data and
Software Engineer
Research Centre Jülich,
Germany

Dr Rowan Wilson
Licensing and IP
Specialist
University of Oxford,
UK

Dr Jessica Walsh
Clinical Impact
and Policy Lead
University of
Oxford, UK

3. MEET SOME TIRs

Dr Elisenda Bonet-Carne
Scientific Manager
Fetal Medicine Research
Center , Spain

Dr Sebastien Rieger
Experiment Support
University of Oxford,
UK

Dr Dylan Roskams-Edris
Open Science Alliance Officer
Montreal Neurological
Institute-Hospital, Canada

Dr Arielle Bennet-Lovell
Programme Manager
Turing Institute, UK

Dr Sara El-Gebali
Research Data Manager
Max Delbrück Centre
for Molecular Medicine,
Germany

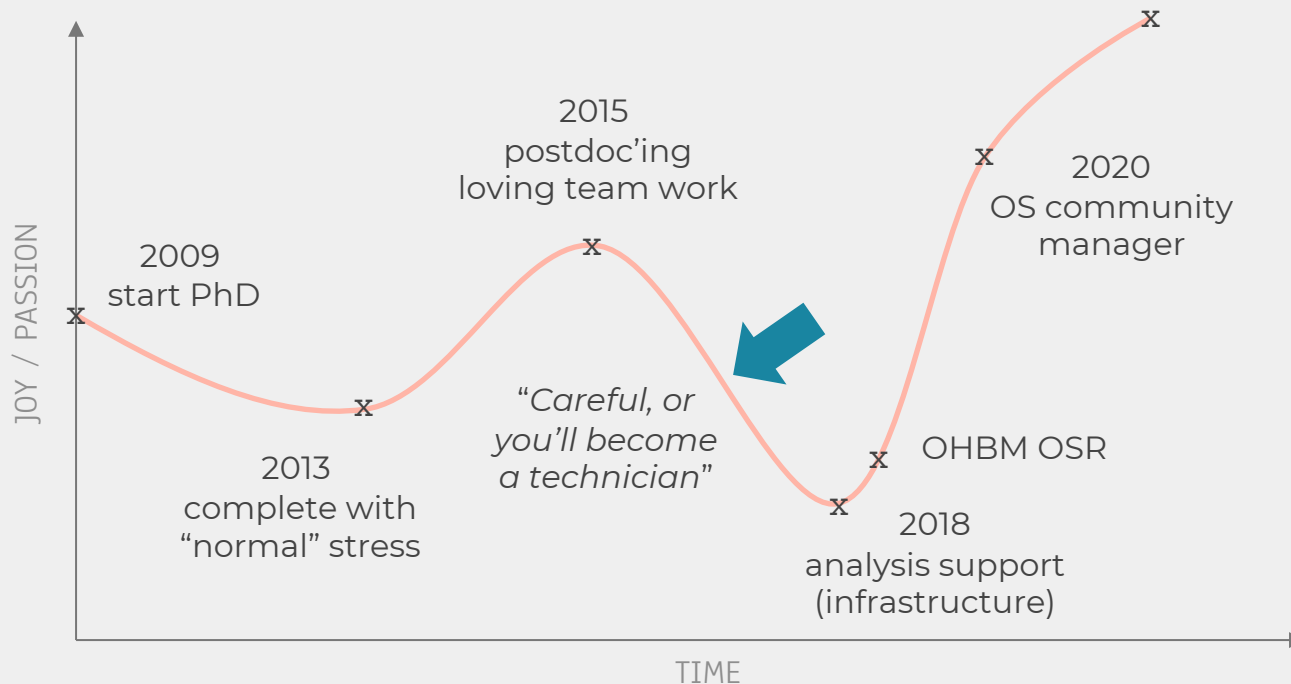

Dr Cassandra Gould van Praag
Community Manager
University of Oxford,
UK

3. MY JOURNEY

Human Resources Office

ARE WE RESEARCHERS?

cassandra.gouldvanpraag@psych.ox.ac.uk t:@cassgvp OHBM 05-SIG Symposium 2022

PAID EMPLOYMENT

Volunteers will not be able to deliver to the same standard.

CRedit

Acknowledge all contributions and give CRedit. Publications are the “currency” of academia.

CAREER PROGRESSION

Is there a defined pathway for development, without a requirement for line management?

CELEBRATION

Will TIRs ever be celebrated like a “rising star” fellow?

RESOURCES & INVESTMENT

TEAM INFRASTRUCTURE ROLES

Specialization

Complexity will require specialist skills

Value

High quality and rapid value, with low project costs

Team work

Active collaboration through the whole project

Reward

Show that these roles are valued and valuable

Recognition

Celebrate, publish outputs and give CRediT

Resource

Invest and prepare for growth
