

Developing socio-technical collaborations to support researchers at the University of Florida

Presenter: Plato Smith, Data Management Librarian
Date: June 15, 2022
Time: 9:35 am – 9:50 am (Paper Session 7)

Event: 42nd IATUL ANNUAL CONFERENCE MIAMI 2022 **Location**: Virtual

UF George A. Smathers Libraries

Rise to Five

- Established 1853
- Carnegie classification R1: Doctoral Universities – Highest Research Activity
- Public land grant university on 2,000 acre campus
- 54,000+ students; 5000+ faculty
- No. 5 for Public Universities in U.S. (U.S. News & World Report Ranking)
- Located in Gainesville, Florida USA
- State University System of Florida

Context

"Plato, I'm always very impressed with your expertise and tenacity, to tackle issues that take years to resolve. The ELN [electronic lab notebook] conversations are a great conversational step forward!" (UF Marston Science Library Senior Leadership, 6/2/2022)

"Organizational change programs often fail because they are too focused on one aspect of the system, commonly technology, and fail to analyze and understand the complex interdependencies that exist [between social and technical systems]." (Leeds University Business School, 2022)

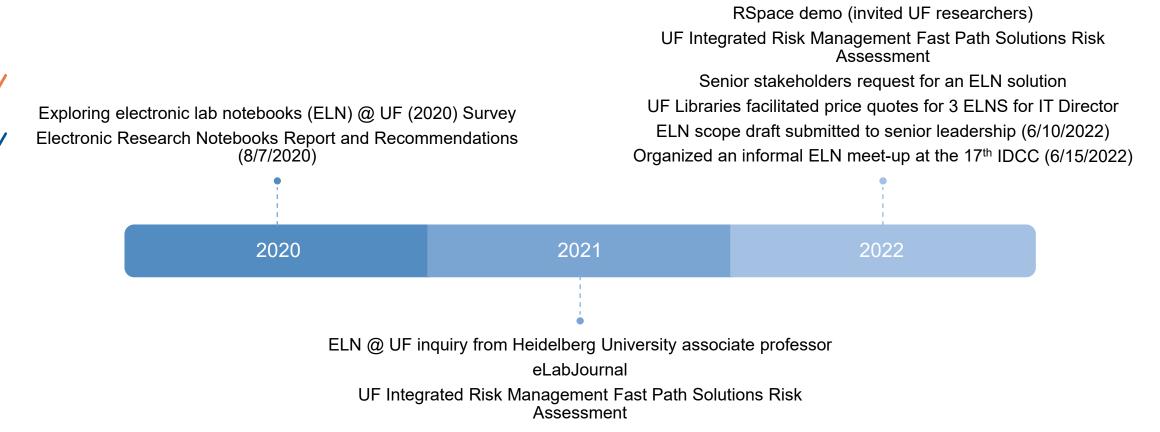

Table of Content

- I. Progression of ELN conversations at a R1 in the southeast USA
- 2. A theoretical framework approach to better understanding research data management
- Development of select projects related to data management support service efforts at UF
- 4. Electronic Lab Notebook (ELN) and inventories at UF inquiry
- 5. US Health & Human Services IR-ORI-22-001 Grant Proposal
- 6. Two research questions related to developing good laboratory practice (GLP)
- 7. Select early outcomes in developing data management as research support service
- 8. References

Progression of ELN conversations at a R1 in the southeast USA

A theoretical framework approach to better understanding research data management

Identification of key stakeholders interested in developing research data management capacity

- Aggregation of key stakeholders interested in developing research data management infrastructure
- Interaction with key stakeholders interested in developing research data management resources
- Collaboration with key stakeholders interested in developing research data management **policy**

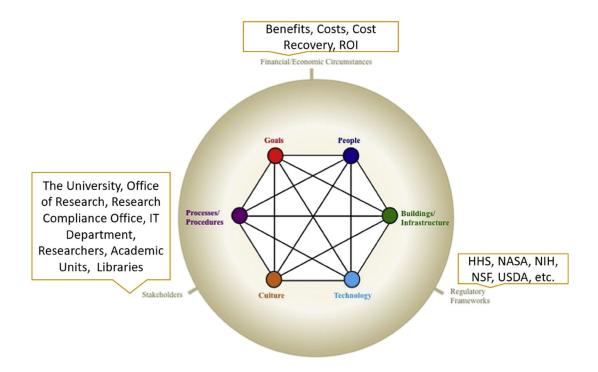

Fig. 1 – Social-technical system embedded within an external environment (Davis et al., 2014)

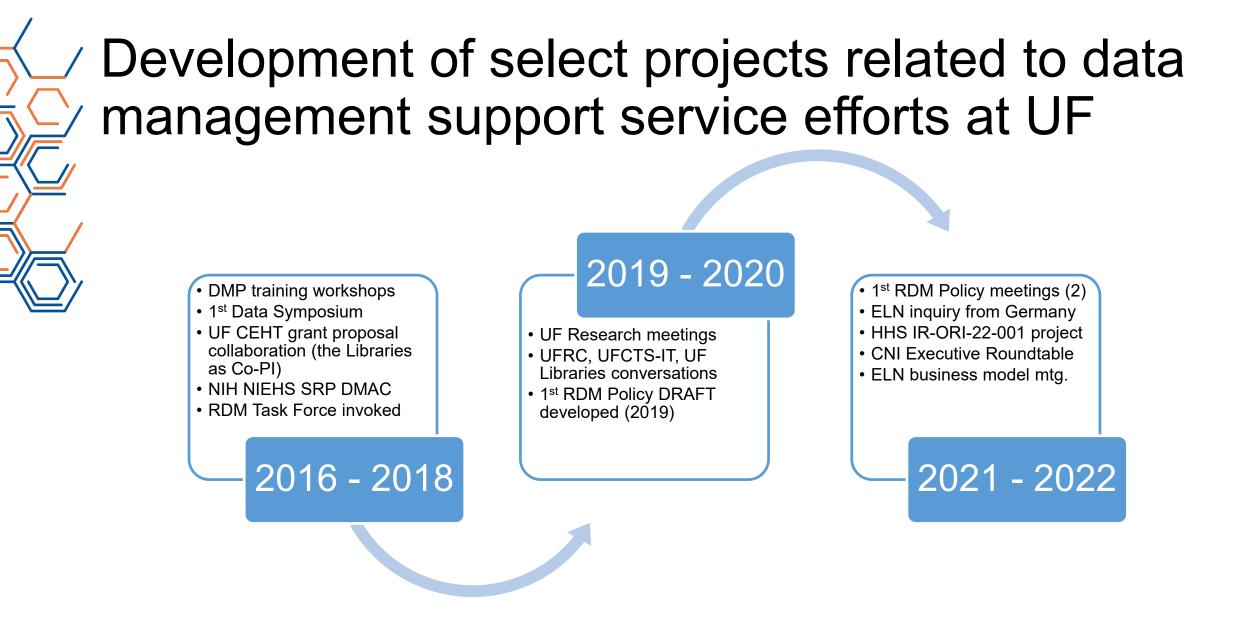

Fig. 2 – Select research support services and the role of Libraries

Electronic Lab Notebook (ELN) and inventories at UF inquiry

General Content of Content of

- □6/14/2021 forwarded inquiry to select key collaborative stakeholders
- 7/22/2021 Boulant Lab articulated use of eLabJournal at Heidelberg University (Good Laboratory Practice (GLP) compliance)
- 7/28/2021 recommended Boulant Lab seek University of Florida Integrated Risk Management Fast Path Solutions risk assessment of eLabJournal ELN for open data

Fig. 3 – eLabJournal dashboard (image courtesy of eLabNext)

US Health & Human Services IR-ORI-22-001 Grant Proposal

- □Funding Opportunity Number: IR-ORI-22-001
- Funding Opportunity Title: Ensuring Research Integrity Research, Development, and Demonstration grant proposal
- Funder: Department of Health and Human Services Office of the Assistant Secretary for Health
- Category of Funding Activity: Science and Technology and other Research and Development
 - **Submitted**: 3/14/2022
 - **Requested**: \$149, 939.50
 - □ Goal: A goal of the project is to improve practices related to transparency in the conduct and reporting of research through development of resources and tools leveraging institutional-level select Collaborative Institutional Training Initiative (CITI Program) Courses, Figshare, Open Science Framework, select ELN notebooks, and protocols.io.
 - □ Status: Pending Sponsor Review

US Health & Human Services IR-ORI-22-001 Grant Proposal

□CITI Program Courses (select)

- 1. Research Study Design
 - (\$675 per year/per site for government and non-profit organizations)
- 2. Good Laboratory Practice
 - (\$675 per year/per site for government and non-profit organizations)
- 3. Data Management and Security for Student Researchers: An Overview
 - (\$300 per year/per site)
- 4. Responsible Conduct of Research (RCR) Basic
 - (\$675 per year/per site for government and non-profit organizations)
- 5. False Claims Act: A Primer and Guide for Research Organization
 - (\$675 per year/per site for government and non-profit organizations)

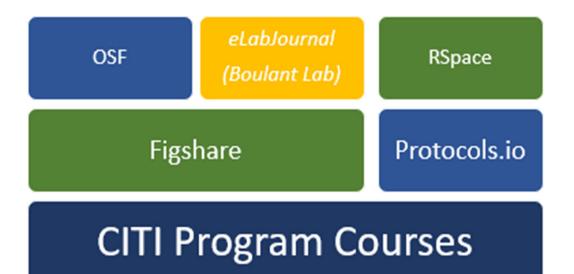

Fig. 4 – Proposed IR-ORI-22-001 Project and its ecosystem supporting transparency

Two research questions related to developing good laboratory practice (GLP)

- 1. What constitutes good laboratory practice in the conduct of research?
- 2. How can an ELN ecosystem support research related to ensuring research integrity, including good laboratory practice from a data point of view?

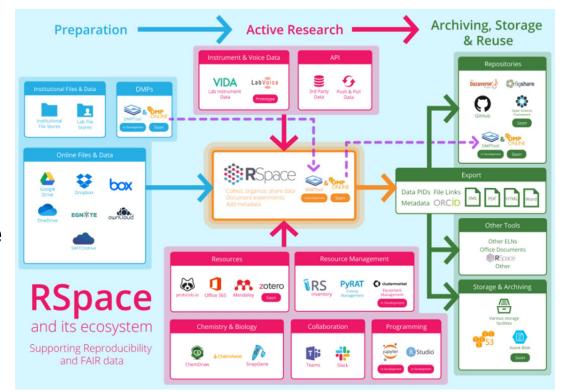

Fig. 5 – RSpace and its ecosystem supporting reproducibility and FAIR data

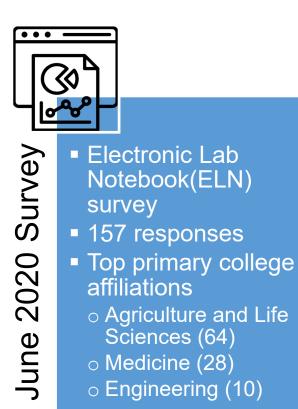

Select early outcomes in developing data management as research support service

March 2017 Survey

少血

Investigating Data Assets, Management, and Planning survey
153 responses

53% (81) Faculty
22% (34) Graduate
17% (26) Staff
4% (6) Postdoc Fellow
1.3% (2) Resident, (2) Undergraduate, (2) Other

2022

2020

- ARCS Student HiPerGator Access
- Co-PI on grants
- DMP training
- Data repositories
- HHS IR-ORI-22-001
- CNI Executive Roundtable (3/2022)
- IASSIST, IDCC22, IATUL presentations

Fig. 7 – Select data management surveys, outcomes, and projects
