About RAISD	
Call (part) identifier	H2020-SC6-MIGRATION-2018
Topic	MIGRATION-08-2018 <i>Addressing the challenge of forced displacement</i>
Fixed EC Keywords	<i>Globalisation, migration, interethnic relations</i>
<p><i>Forced displacement crises overcome societies and institutions all over the world. Pushed by the urgencies rather than events, solutions are frequently reactive, partial, and disregard some groups. The project 'Reshaping Attention and Inclusion Strategies for Distinctively vulnerable people among the forcibly displaced' (RAISD) aims at identifying highly Vulnerable Groups (VG) among these forcibly displaced people, analysing their specific needs, and finding suitable practices to address them. The concept of 'vulnerability context' considers the interplay between the features of these persons and their hosting communities, their interactions and experiences, and how different solutions for attention and inclusion affect them. As a result of this work, a methodology to carry out these studies will be developed. These goals are aligned with the call. They pursue characterizing these migrations and developing suitable aid strategies for them. The Responsible Research and Innovation (RRI) frames the project. It proposes that all actors (including civil society) co-design actions, transversely integrates the gender perspective, and supports sustainability. Our research strategy will be based on methodological triangulation (i.e. the combined application of several methodologies). We will implement it through a specific participatory action research approach to fulfil the aim of undertaking advocacy-focused research, grounded in human rights and socio-ecological models. The team will work as a network of units in countries along migration routes. The units will promote the VG people' involvement, so they can speak with their own voices, gather information, and test practices. Work will rely on a tight integration of Social and Computer Sciences research. Automated learning and data mining will help to provide evidence-based recommendations, reducing a priori biases. A software tool will support collaboration, continuing previous H2020- funded RRI work.</i></p>

Mirrors documentary aims to raise awareness about the problems of vulnerable groups of forcibly displaced people and will help to keep the interest and foster further discussions about the project results and the adoption of policy recommendations, taking a key part on the sustainability of the Project.

The documentary has been built on a participatory method. Around twenty people from our Action Research Units have collaborated on the documentary and the transmedia webdoc, mainly refugees and asylum seekers, specialized researchers, and NGOs. In addition, we carried out (17) interviews with representatives of the target group, forcibly displaced people that are part of those that have found themselves in a vulnerable context.

Mirrors documentary has been made thank you to the selfless collaboration of this group of wonderful people that were forced to leave their home countries; People from: Afghanistan, Colombia, Guinea Conakry, Iraq, Mexico, Nicaragua, Palestine, El Salvador, Senegal, Sudan, Syria, Tunisia, Venezuela...

The documentary has been shot in Spanish, but English subtitles have been added in order to reach a wider audience.

The extra material that has been obtained during the development of the documentary works, and other linked activities such as a photographic and a writing contest organized by the RAISD Project have been included in a transmedia project. Most of the extra material is available in the *Mirrors webdoc* and it includes extra video and audio content, texts, photographs, etc.

The webdoc is available on RAISD web site: <https://raisd-h2020.eu/espejismos-webdoc-project/>

The shooting took place for two (2) weeks in Madrid, Castellón and Murcia, all of them cities in Spain, during the first quarter of 2021. The restrictions imposed due to the COVID 19 pandemic prevented the team from travelling abroad in a safe manner, for additional shootings in other locations. After seven (7) months of post-production, in December 2021, the documentary was ready to start working on its presentation to prestigious international film festivals and festivals specialized in human rights.

By the end of May 2022, *Mirrors* documentary **has applied to 161** national and international **film festivals**. It has been already **selected by 4 film festivals** and has been **awarded 2 prize**. There are 140 pending answers. Next, a brief summary is presented. The full information is available in Annex 1.

- Verín Short Film Festival - Spain / Festival de Cortometrajes de Verín – España
- Titan International Film Festival – Australia

- No selected by 17 film festivals
- Pending answers from 140 film festivals

Mirrors documentary has been **sent to film festivals from 43 different countries**.

- 22 of 43 countries (51%) are from Europe, while the rest are from America (10 countries - 23%), Africa (6 countries - 14%), Asia (4 countries – 9%), and Oceania (1 country - 2%).
- 69 of 161 film festivals (43%) are from Spain.

158 of 161 film festivals will take place during 2022. The remaining 3 will take place in 2023.

Due to the rules imposed by the film festivals the documentary will not be released by the Project in a completely open-access format until its participation in film festivals has ended.

The documentary has been directed by Alfonso Palazón Meseguer and produced by Tamara Bueno Doral and María Lara Martínez as executive producers, both members of our team at the Complutense University of Madrid for the RAISD project. The close collaboration (weekly meetings) of Tamara Bueno Doral and María Lara Martínez with the director ensured the proper dissemination of RAISD's results.

Taking into account the wide diffusion that the documentary will achieve, at the national and international levels, we would like to emphasize that we have fulfilled the objective of the wide transfer of knowledge that we included in the proposal. The parallel activities to its dissemination at festivals (colloquiums, seminars, debates...) will also increase the impact on society of our dissemination.

We hope you like it.
