What

DATA CORRECTION

enables to enrich repository data by exploiting information provided by the OpenAIRE Notification Broker.

PUBLICATION CLAIM

allows repositories to import publications from the OpenAIRE Research Graph and match them with their researchers' profile.

Why

To make the powerful OpenAIRE services integrated and available for repository managers and users.

DSPACE

OpenAIRE ELD-ADVANCE PROJECT

Where and When

in DSpace-CRIS since version 2021.01.00

available for DSpace 7.3 from July 2022

How

Via an extensible tool to review, approve and apply automatic suggestion and corrections gathered from external sources to improve the quality of repository metadata

Not only for DSpace: the idea, concept and also some code can be reused in other platforms!
