CSI-COP Framework (Deliverable D2.3)

Identified Organisations of Interest for Citizen Science Projects

This dataset was created during the actions of CSI-COP project task T2.3, producing the deliverable D2.3 (D12): the framework for citizen science engagement in CSI-COP. The list of organisations in this dataset are the varied European and international societies that the CSI-COP consortium partners discovered as appropriate to CSI-COP's objectives. The purpose of gathering these organisations is to raise awareness among their members of CSI-COP's objectives, including the opportunity to join CSI-COP as citizen scientists to co-investigate the extent of online tracking and data collection in websites and apps. D2.3 framework document is available for download from Zenodo: https://zenodo.org/record/4066515#.Yrw5JezMLb0

For enquiries on this dataset, please do contact:
