# Aim of today's workshop

An aerial photograph of a vast, flat, icy landscape, likely a polar region. The terrain is covered in a dense field of ice floes and snow, with a few small, dark patches of water visible. The horizon is low, and the sky is filled with soft, white clouds. The overall scene is desolate and expansive.

Find a common ground to cooperate more intensively in polar research

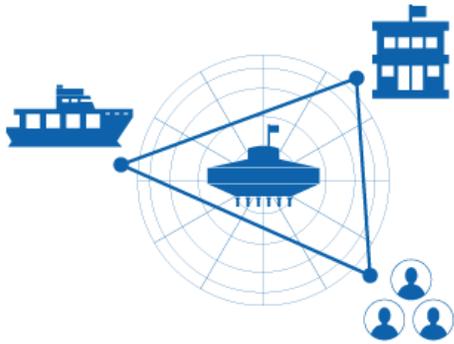

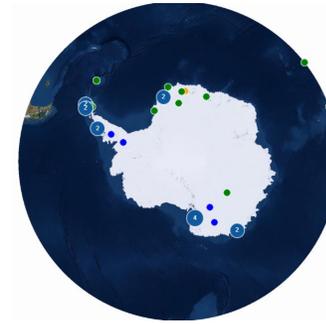

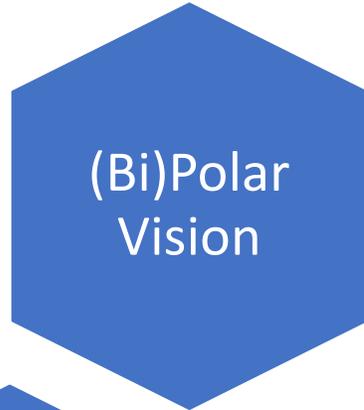

Discuss how we can move on and what support we need from decision makers and funding agencies

# EPB: The Voice of European Polar Research
