

## Objective

We present our actions to support and facilitate OA publishing by researchers at the four research institutes. Besides offering support for gold/hybrid OA (agreements with publishers, OA fund), we concentrate on services making green OA as easy and trouble-free for researchers as possible.

[www.lib4ri.ch](http://www.lib4ri.ch) > Services > Open Access

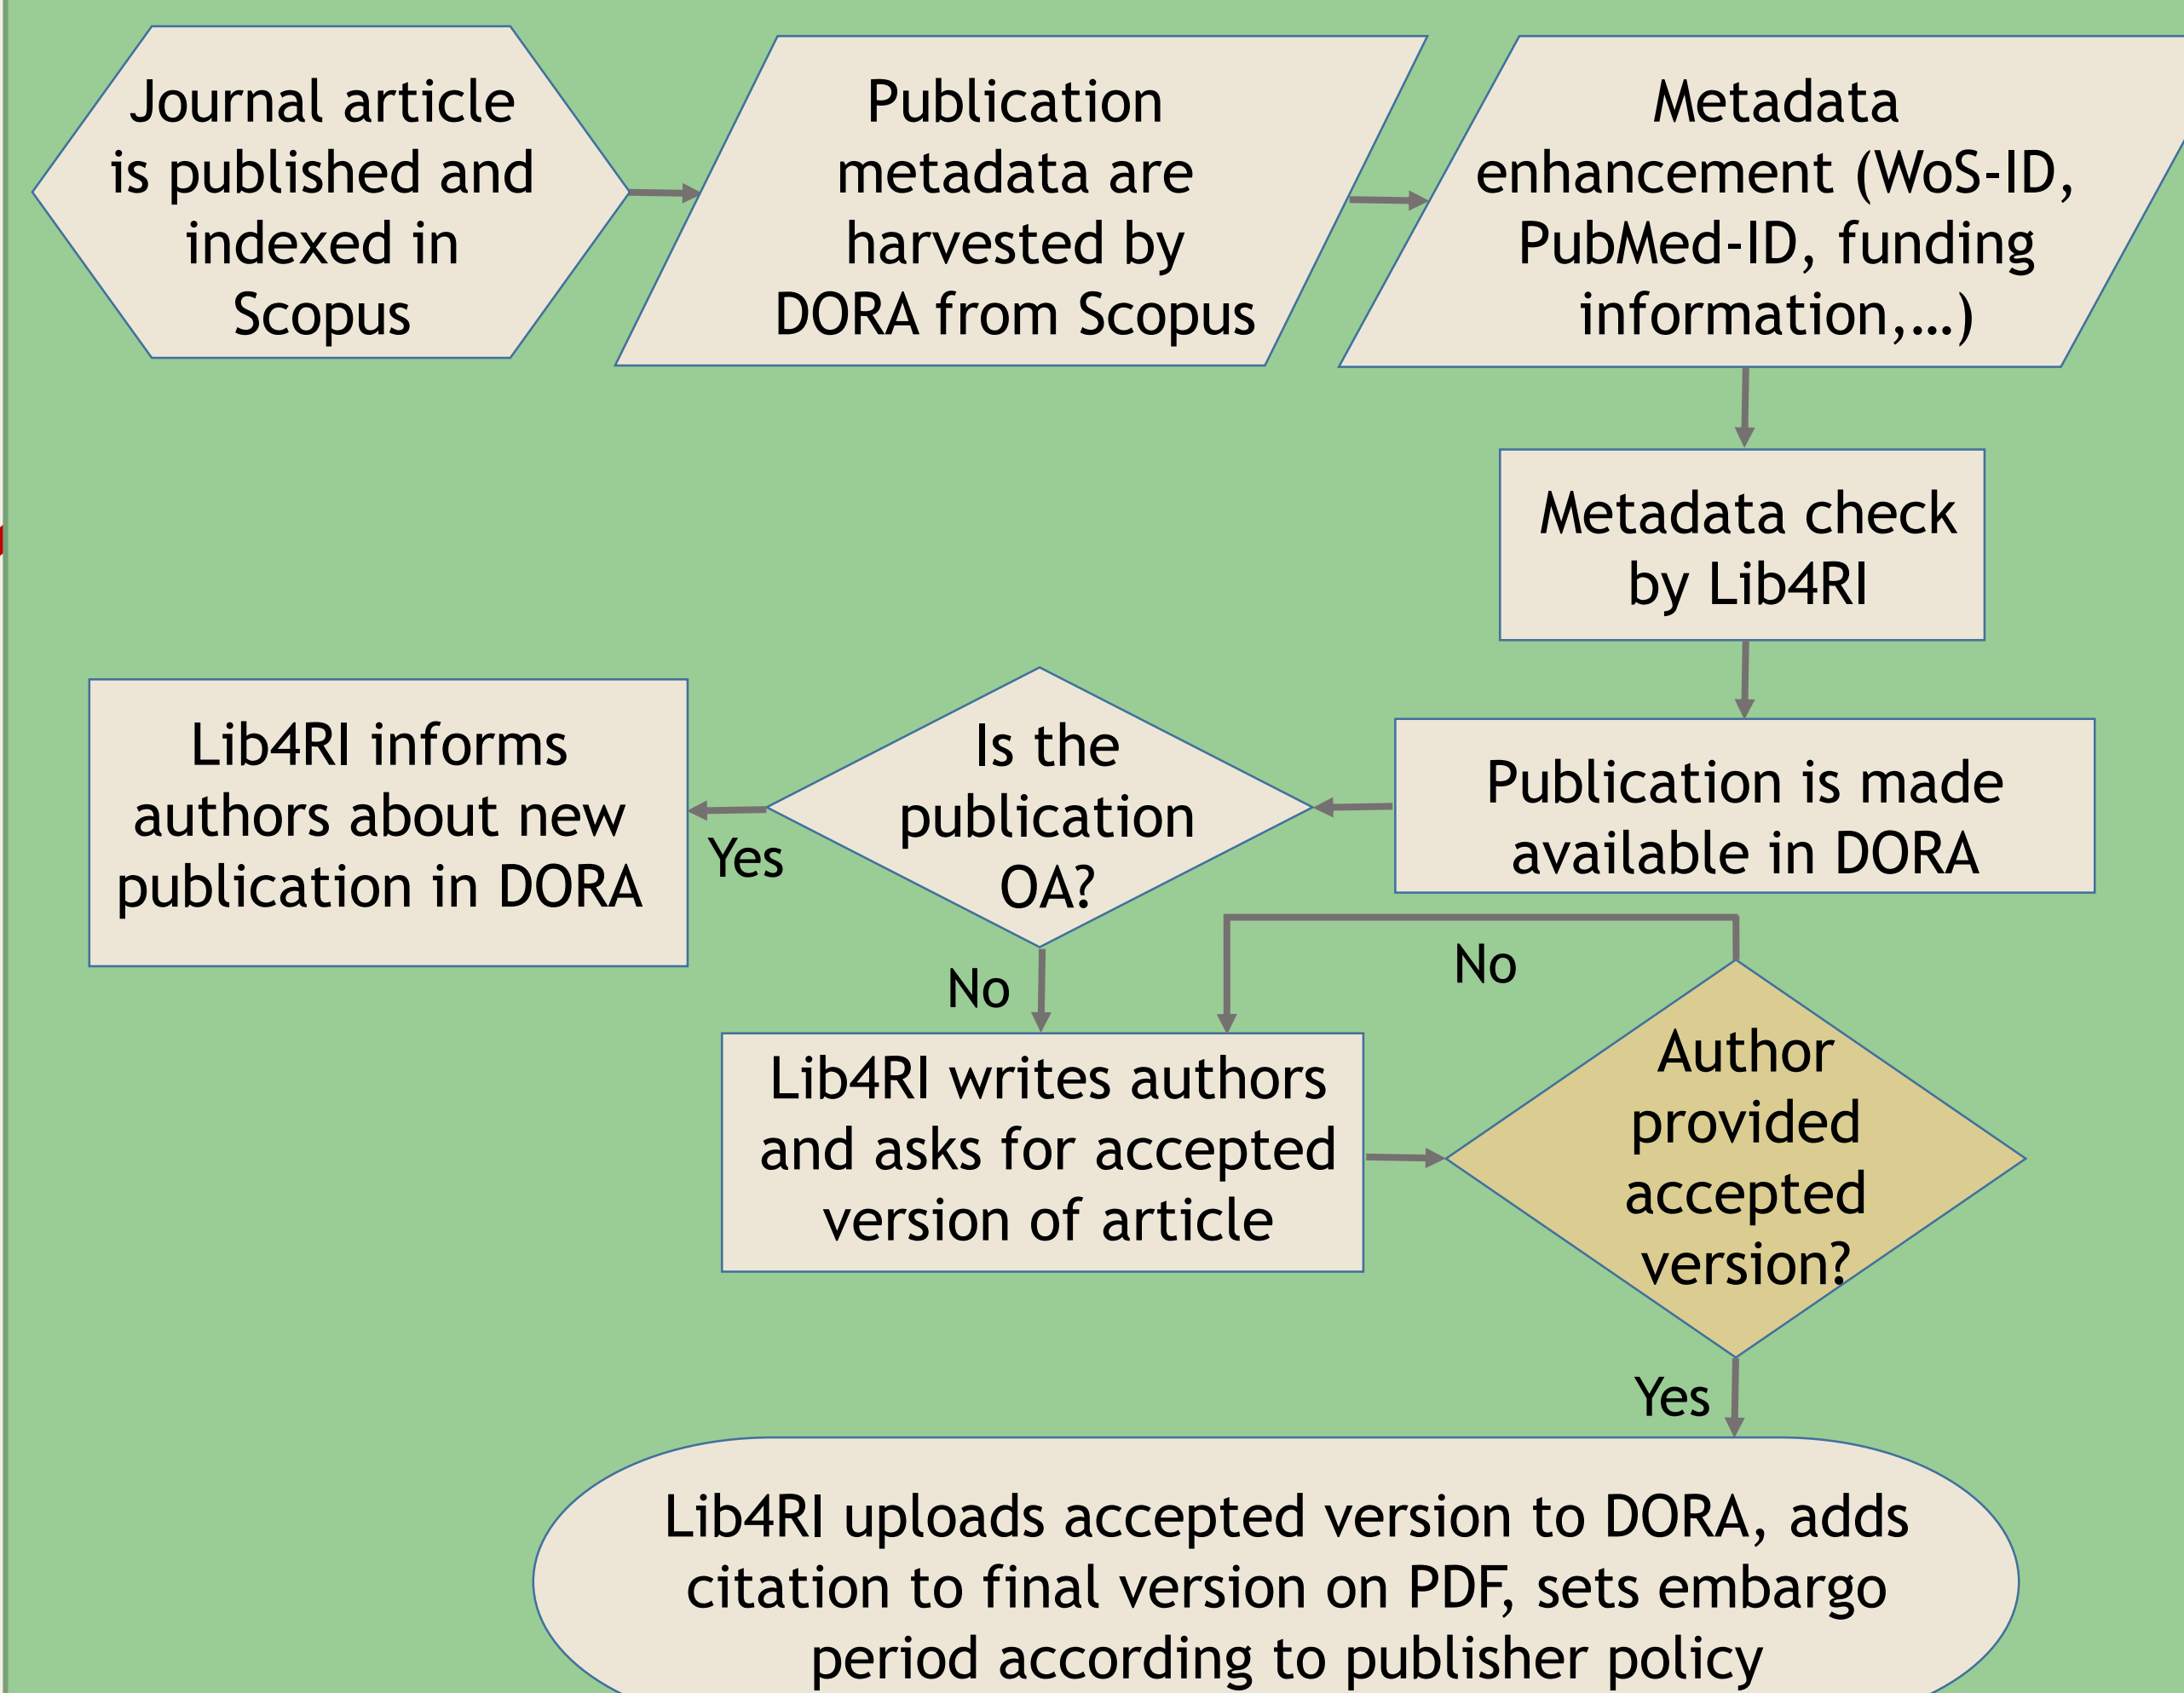

## Open Access institutional policies

- Lib4RI worked together with the directorates to establish institutional OA policies (in 2019 for Eawag and Empa, and 2021 for PSI and WSL).
- All institutional policies encourage publishing OA and mandate that for each Closed Access article an accepted version is submitted to DORA.

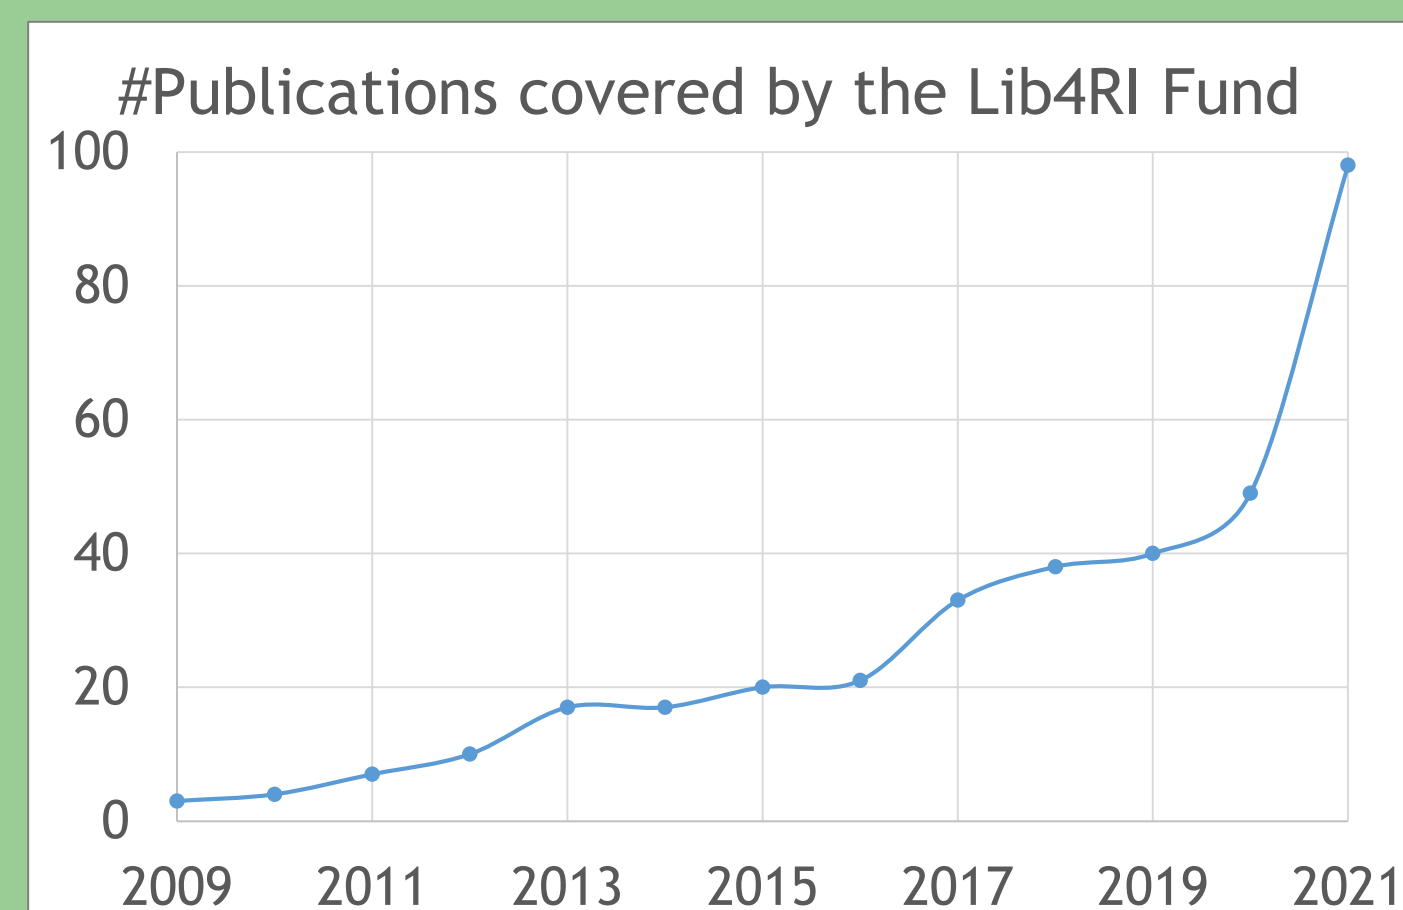

## Assisted deposit service

- Semiautomatic addition of a journal article (enabling Green OA as well) to DORA with minimal effort for the researchers.
- Regular and targeted reminders to increase Green OA.

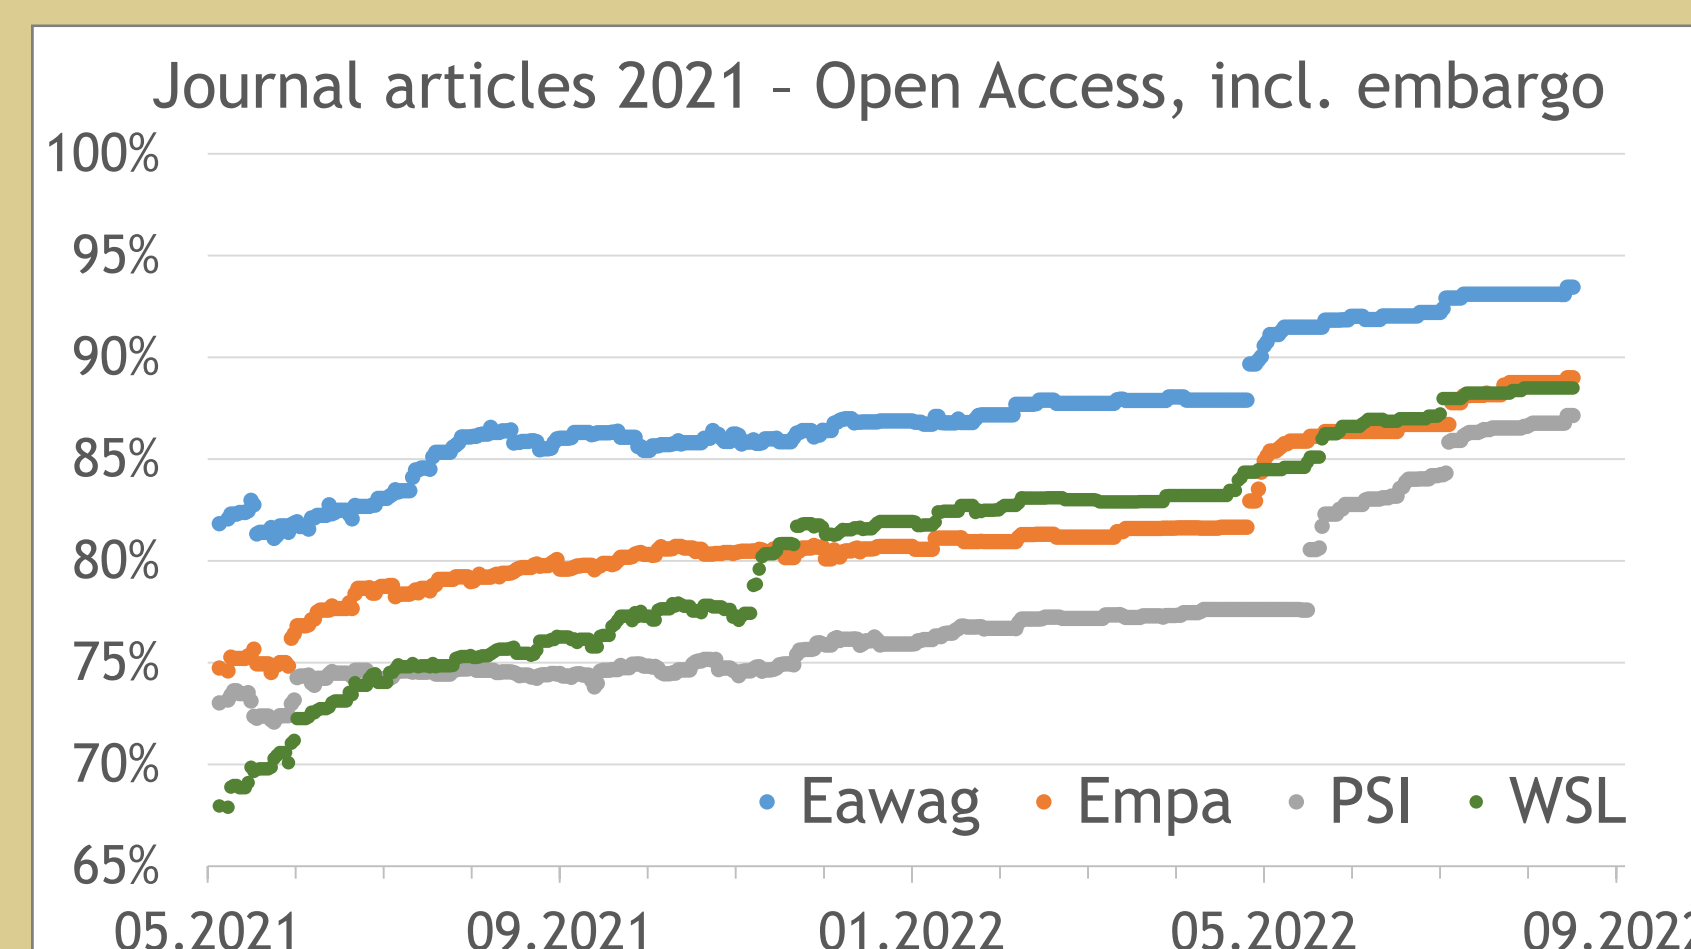

## Lib4RI Open Access fund for gold Open Access journals

- Since 2009 for Eawag and Empa, 2020 for WSL and 2021 for PSI.
- 357 articles for a total of 633 570 CHF.

## Goal: >90% Open Access

See our Results e.g. for 2021 Journal Articles  
87% - 94% of all 2021 journal articles in DORA are - or will be soon (i.e. are under embargo) - OA.

## Read & Publish and Open Access agreements

- Read & Publish agreements with 11 Publishers (9 064 journals).
- OA agreements with 3 publishers (519 journals).

## Complete bibliography and Open Access monitoring

- DORA includes all research publications and monitors OA at the four research institutes.
- An OA monitoring dashboard and filtering options inform about the OA status for specific publication lists.
- Easy identification of Closed Access articles - for individual researchers, for research units and for the institutes - helps to increase Green OA.

Department	Total	With full text	Open Access	Total	Open Access	With embargo	Restricted
Aquatic Ecology ECO	1 267	1 264	990	197	91.9%	8	4.1%
Eawag/EPFL Ecoton Centre	26	202	186	42	90.9%	38	4.8%
Environmental Chemistry UCHER	860	857	501	140	92.9%	9	6.4%
Environmental Microbiology UCHER	611	610	332	93	91.3%	81	4.4%
