

TYOLOGY OF CASE STUDIES

Diverse values initiatives...

Demonstrate how initiatives mainstream their **concept, framework and approach** through pilot activities

Show the **key role of external actors as facilitators and stimulators** of biodiversity governance transformation

Demonstrate the **initiatives framework implementation using real examples at the local scale** without any pilot intervention

Demonstrate the **empowerment and integration of local and indigenous people, values, and knowledge** in biodiversity governance

Show **collaboration and co-management with local actors** in biodiversity governance

Promote **indigenous rights and justice** for improving biodiversity governance

Demonstrate **knowledge co-production mechanisms** to support decision-making in biodiversity management

Demonstrate **collaboration with private sectors** in transformative biodiversity management

Demonstrate the urgency of **providing capacity building and tools for social-learning and decision making** in biodiversity governance

Show integration of **diverse values for urban biodiversity management** transformation
