

# Certifying the Security and Resilience of Supply Chain Services

## The CYRENE Solution

CYRENE Risk + Conformity Assessment Process

CYRENE SCSs Certification Scheme

### Pilot 1. The Port trial case execution

Pilot 1 concerns the Supply Chain Services for vehicle transportation

**CYRENE** enhances control and ensures accountability in ICT systems, components, and services across a supply chain with the use of **a novel, dynamic, and evidence-based Conformity Assessment Process** for handling security threats & vulnerabilities and for evaluating the security and resilience of Supply Chain Services.

### Pilot 2. The Automotive Manufacturer trial case execution

Pilot 2 concerns the Supply Chain Services of an automotive manufacturer.

Find out more about CYRENE:

A structured process and toolset for certification of supply chain services

01

A dual use risk + certification assessment process for SCSs

02

A certification scheme for supply chain services

03

A integrated platform to support RCA process

04
