

VISA deployment in ALBA

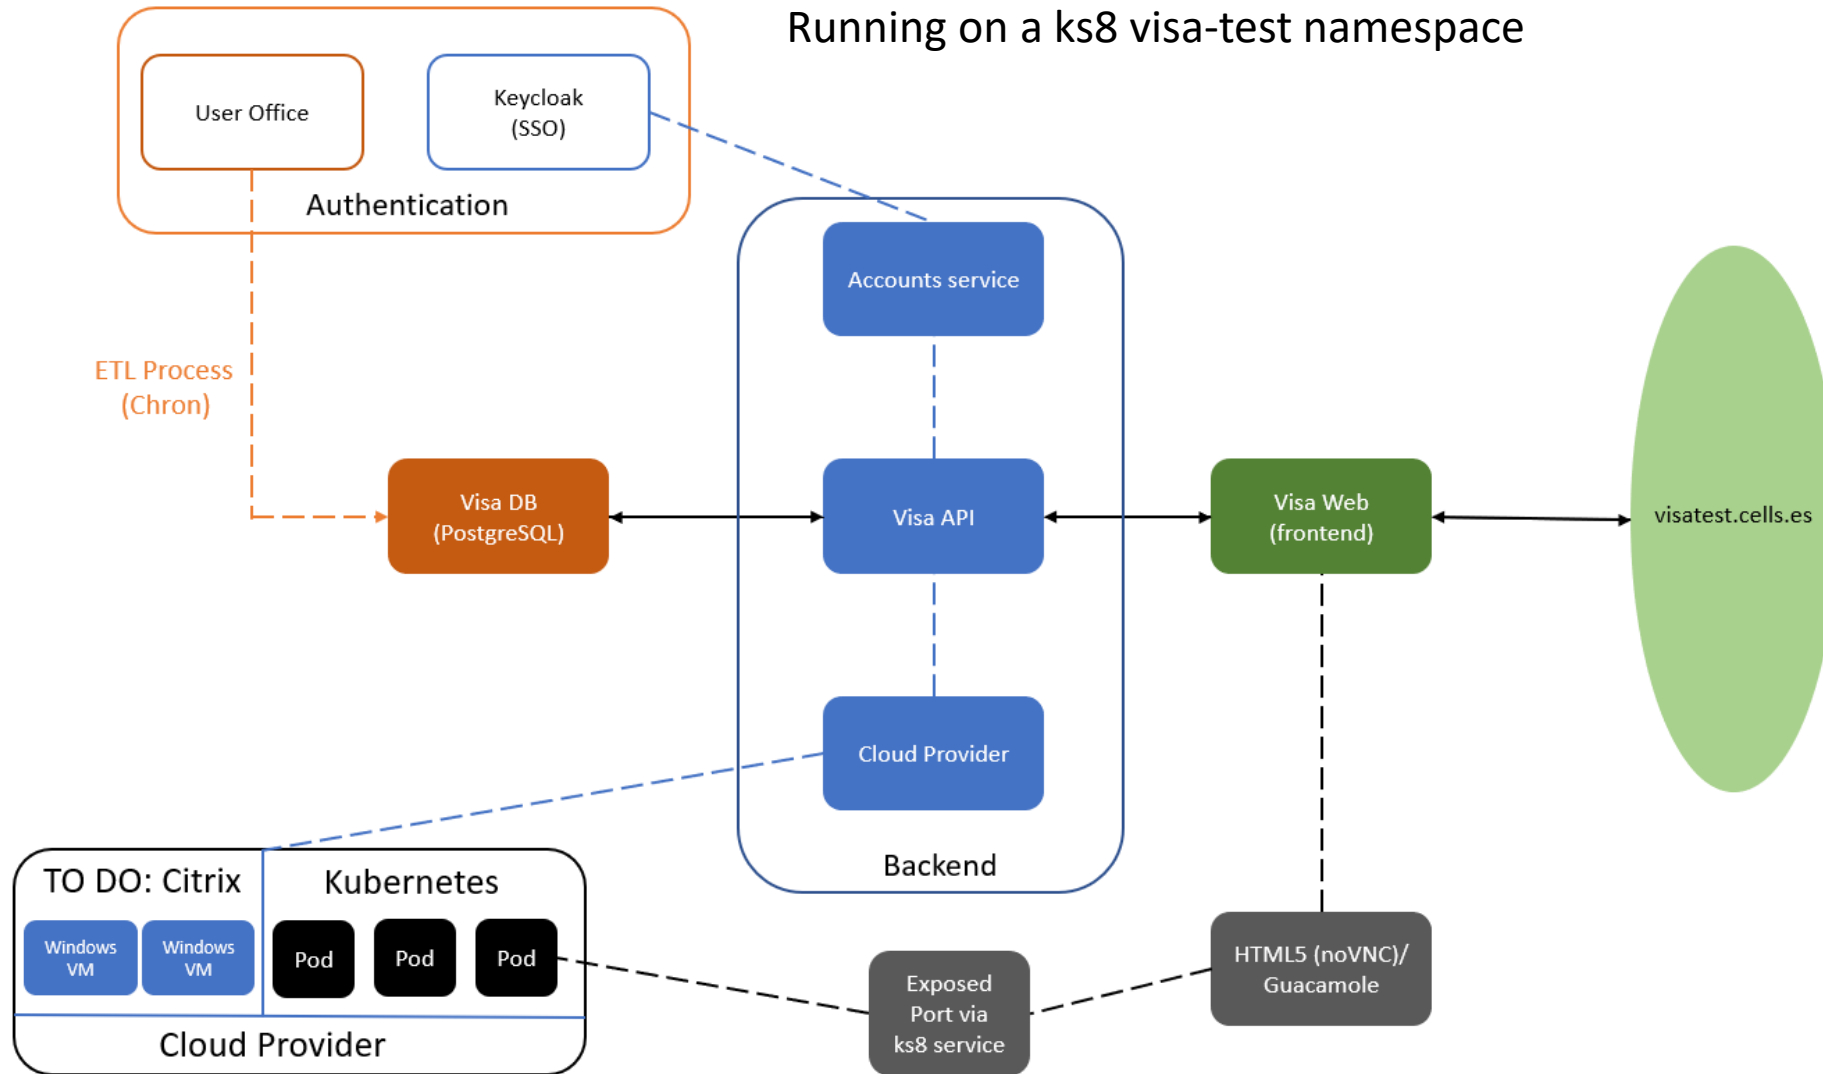

16th September 2022

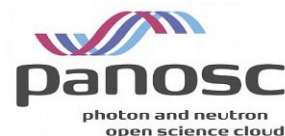

These projects have received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreements No 857641 and No 823852.

Current VISA Architecture in ALBA

Running on a ks8 visa-test namespace

These projects have received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreements No 857641 and No 823852.

Future improvements and fixes

- Add Windows VMs in the Cloud Provider via CITRIX
- Security Issues: Limit the access to ks Pods (Maybe using Guacamole)
- Storage Data management and access (uid/gid service from LDAP) for several users
- Custom Machines on demand

These projects have received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreements No 857641 and No 823852.
