

# Open Peer Reviewers in Africa

MODULE I

# What is this about?

**Open Peer Reviewers in Africa** is a 3-part workshop developed with a Train-of-Trainer framework (slide 10) in which trainees are invited and empowered to become trainers themselves.

This slide deck contains content from the workshop (overview on slide 14) and is a **TEMPLATE** for any African-based researcher who wish to:

1. Read/learn about the content of the workshop
2. Train others

Template slides for Module II can be found at

<https://doi.org/10.5281/zenodo.7145213>

# About the content and how to cite it

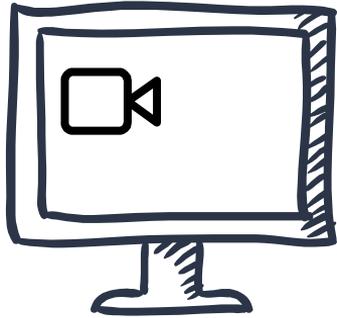

- Content in this slide deck was adapted from the [PREreview Open Reviewers program](#) with contributions from all members of the organizing team of Open Peer Reviewers in Africa.
- The content of this slide deck is licensed under [Creative Common Attribution 4.0](#), which allows for anyone to freely **share**—copy and redistribute the material in any medium, or format **adapt**—remix, transform, and build upon the material for any purpose, even commercially as long as **Attribution** is given.
- Attribution: Munene, Aurelia, Saderi, Daniela, Havemann, Johanna, Obanda, Johanssen, Owango, Joy, Ngugi, Wangari Joyce, Korzec, Kornelia, Outa, Nicholas. (2022). Open Reviewers Africa Workshop Module I Template Slides. Zenodo. <https://doi.org/10.5281/zenodo.7145170>
- The design template for this slide deck was done by Frasia Kemunto (TCC Africa) and adapted by Daniela Saderi (PREreview).
- Icons in this slide deck were taken from [handdrawngoods.com](#) and are licensed under [Creative Commons Attribution 2.5 License](#) made available through the [Slide Carnival](#) website.

# How to use this slide deck to train others

1. Download this slide deck from [Zenodo](#) and open them as Google slides.
2. Slide 8-10 contain information about the Open Peer Reviewers in Africa project.
3. For each slide, you will find speaker notes and tips on how to present the slide. Please use those as suggestions and feel free to adapt the content to your community.
4. Information that is left as a placeholder is highlighted in **YELLOW**. Once the space is replaced with your info, remember to format the text with the white background.
5. This slide deck is meant to be interactive with the workshop participants, and the course assumes the use of Zoom as the virtual platform for workshop delivery.
6. If you have questions or concerns related to the content of this workshop or the program, please email us at [openreviewers@prereview.org](mailto:openreviewers@prereview.org).

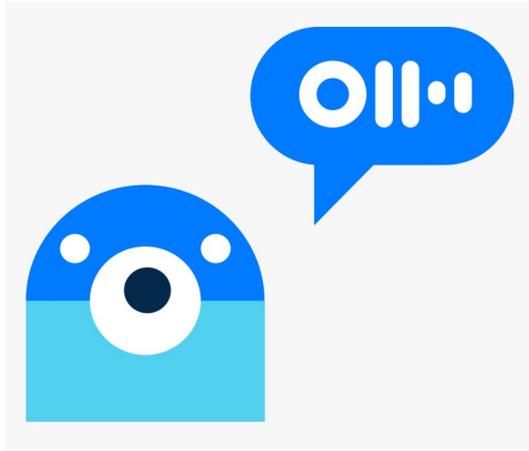

# To know before we start

We are going to RECORD THIS CALL so that you all have access to it as a future reference. The recording will be made available to all trainees in this cohort and the facilitators. It will never be shared with others without your consent.

2

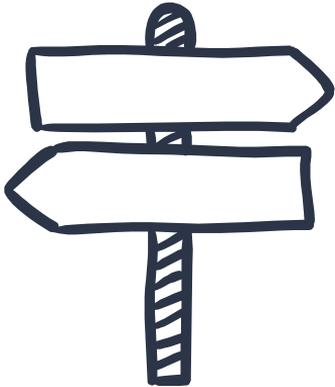

# Accessing Live Captions

We are using [Otter.ai](#) for live caption services. That means:

- 1) You can access the live caption transcript of this call by clicking on the otter icon at the top left of your Zoom window;
- 2) You will have access to the transcript and audio recording after this call.

# Slide deck etiquette

You all have **EDITING ACCESS** to this **Google slide deck** which means you can change things. Please:

**DON'T** change the content of the slide deck

**DON'T SHARE** this link with anyone

**DO** edit only when prompted by the facilitator.

**DO** follow along as we present.

# Why an African-centric peer review workshop?

- ◉ To **build capacity and enthusiasm** for scholarly open review of preprints among African researchers
- ◉ To offer **opportunities to actively participate in peer review** and gain recognition through community engagement
- ◉ To help **decolonize the academic publishing process** by creating equitable opportunities for African researchers to engage, lead, and teach others

# Train-of-Trainer Model

Open Peer Reviewers

- After taking this workshop, you will receive training and resources to train others in your research communities
- They will in turn have the opportunity to become trainers
- We hope this will have a multiplier effect that will lead to a large community of trained peer reviewers in Africa

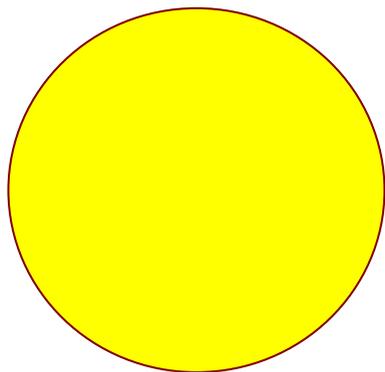

# Participation Guidelines

The Open Peer Reviewers community is committed to fostering learning in a space where everyone is and feels safe. This workshop has **participation guidelines** to which everyone is asked to abide. Expected behaviours from all participants include:

- ◉ Using welcoming and inclusive language;
- ◉ Providing feedback that is constructive, *i.e.*, useful to the receiver;
- ◉ Being respectful of differing viewpoints and experiences;
- ◉ Gracefully accepting constructive criticism;
- ◉ Focusing on what is best for the community;
- ◉ Showing empathy towards other participants and community members.

# Today's Safety Officer

[ADD NAME and PICTURE OF  
SAFETY OFFICER]

## How to report a violation

- If you experience a violation of our participation guidelines during this workshop that needs immediate response, please send the Safety Officer a direct message on Zoom, and they will do their best to address the issue immediately.
- For non-immediate threats, please email [INSERT EMAIL ADDRESS TO REPORT VIOLATIONS].
- Any questions or concerns about this before we get started?

## Engagement norms

- Please feel free to eat, stretch, move, step away for any reason.
  - Your kids, creatures, and podmates are welcome!
  - We'd love to see you, but welcome you to turn off your camera if it is supportive for you.
  - Please turn off your mic when you are not speaking.
  - **To ask a question please use the Zoom chat or raise your Zoom virtual hand.**
  - When invited to speak by the facilitator, please share your name as you start to speak.
  - Feel free to use the Zoom chat to share resources and constructive comments on the materials shared throughout the workshop.
- 

# Open Peer Reviewers in Africa workshop overview

## Module I - 2 hours

- Methods of peer review: how it's done and what can be improved
- Systems of oppression in peer review: what are they and why it is important to recognize and combat them

## Module II - 2 hours

- Constructive peer review step-by-step guide
- Assessing and addressing biases in peer review

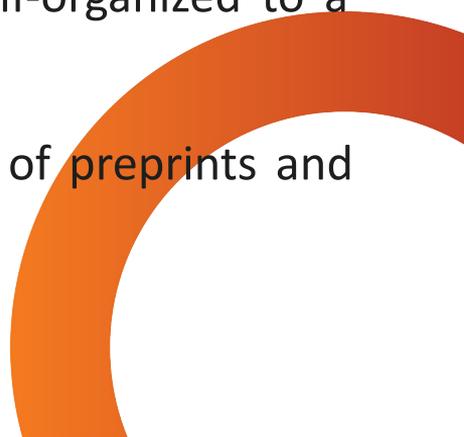

## Module III - 2 hours

- Collaborative preprint review
- Summarize the discussion in a preprint review
- Share the preprint review on [PREreview.org](https://PREreview.org)

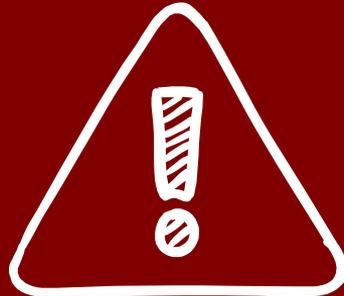

# Module I learning outcomes

- ◉ Know how to give clear, constructive, and actionable feedback;
- ◉ Appreciate how systems of oppression manifest in the peer-review process;
- ◉ Identify, reflect on, and address biases in peer review;
- ◉ Know how to write a manuscript review for a journal or self-organized to a preprint;
- ◉ Access opportunities to participate in the open peer review of preprints and build a public profile as a reviewer.

# Trigger Warning

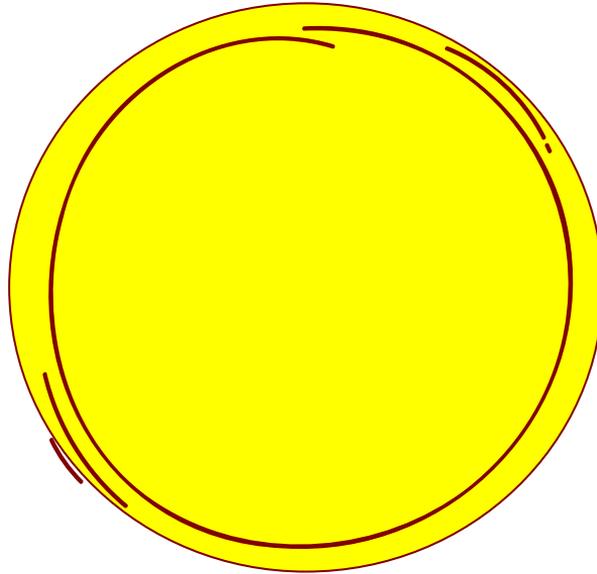

Some of the content we are going to cover today includes real life examples and it may trigger unwanted memories or uncomfortable feelings. Please know that we are here to support you, and **PARTICIPATION IN THE GROUP DISCUSSIONS IS OPTIONAL.**

I am Joyce Wangari Ngugi, and I use she/her pronouns.

I am a Consultant Psychologist and Research Mentor. I am also Lead Mentor at Eider Africa Journal Club. I am a researcher-storyteller, TED Talk 2020 laureate on Humor for Resilience, and I love learning spoken languages and socializing in Kenyan Sign Language.

I am [INSERT NAME OF FACILITATOR]. I use [INSERT PREFERRED PRONOUNS]  
pronouns.

[INSERT SHORT FACILITATOR'S BIO]

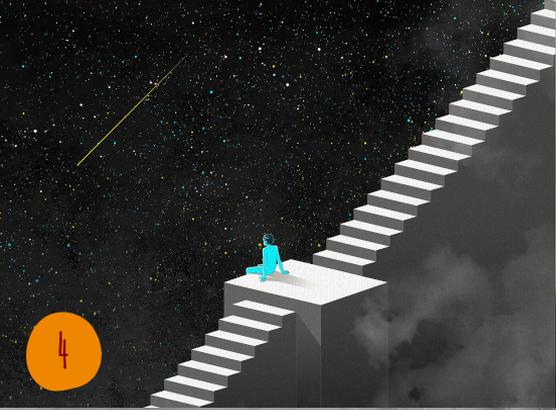

Let's get to know each other!

**Ice-breaker and participants' intros**

Choose one image that best represents your idea of peer review. When prompted, please unmute your mic and share **name & pronouns, location, and why you chose that image**. Engagement optional.

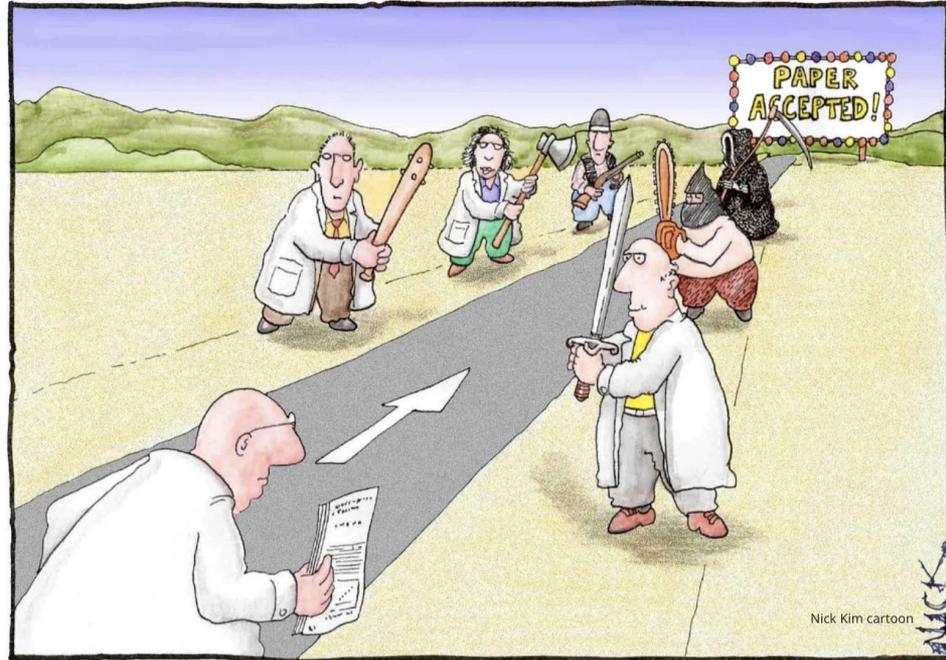

# What is Peer Review?

Peer review is the evaluation of work by one or more people with similar competencies as the producers of the work. It functions as a form of self-regulation by **qualified members of a profession** within the relevant field.

—Wikipedia

# Publish or Perish

Most scientists regarded the new streamlined peer-review process as “quite an improvement.”

# It's a black box

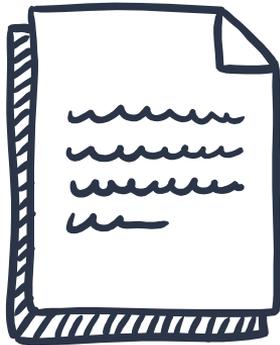

<https://twitter.com/digitalsci/status/781860071831642113>

# Peer review has many shapes and shades...

<b>Timing</b>	<b>Preprints</b>	<b>Pre-publication</b>	<b>Post-publication</b>
<b>Identifiability</b>	<b>Double blind</b>	<b>Single blind</b>	<b>Open</b>
<b>Mediation</b>	<b>Editors mediate all interactions between reviewers and authors</b>	<b>Reviewers interact with one another openly</b>	<b>Reviewers and authors all interact with one another openly</b>
<b>Publication</b>	<b>Peer reviews are not published</b>	<b>Peer reviews are published but not signed</b>	<b>Peer reviews are published and signed</b>
<b>Facilitation</b>	<b>Review facilitated by a journal</b>	<b>Review facilitated by a third party</b>	<b>Review facilitated by authors</b>
<b>Ownership</b>	<b>Review owned by a journal or third party</b>	<b>Review owned by the authors of the reviews</b>	<b>Shared or mixed ownership of reviews</b>

# What is a Preprint?

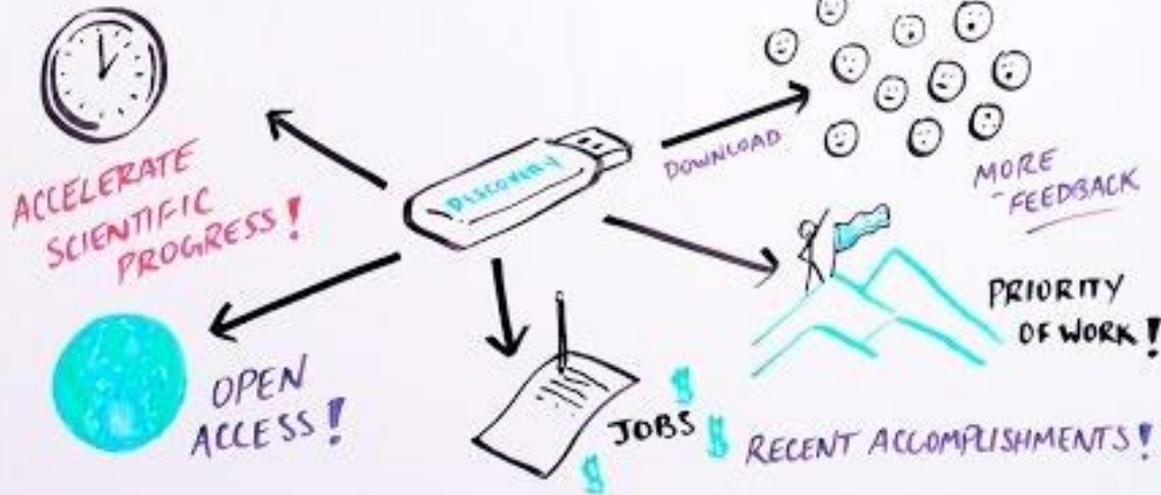

A **preprint** is a version of a scholarly or scientific paper that precedes formal peer review and publication in a peer-reviewed scholarly or scientific journal. The preprint may be available, often as a non-typeset version available free, before or after a paper is published in a journal.

—Wikipedia

# Preprints complement journals & open up peer review

# Peer review has many shapes and shades...

Timing	Preprints	Pre-publication	Post-publication
Identifiability	Double blind	Single blind	Open
Mediation	Editors mediate all interactions between reviewers and authors	Reviewers interact with one another openly	Reviewers and authors all interact with one another openly
Publication	Peer reviews are not published	Peer reviews are published but not signed	Peer reviews are published and signed
Facilitation	Review facilitated by a journal	Review facilitated by a third party	Review facilitated by authors
Ownership	Review owned by a journal or third party	Review owned by the authors of the reviews	Shared or mixed ownership of reviews

# Reviewers' identity: From closed to open

CLOSED

**Double blind**

Neither authors' or reviewers' identities are revealed

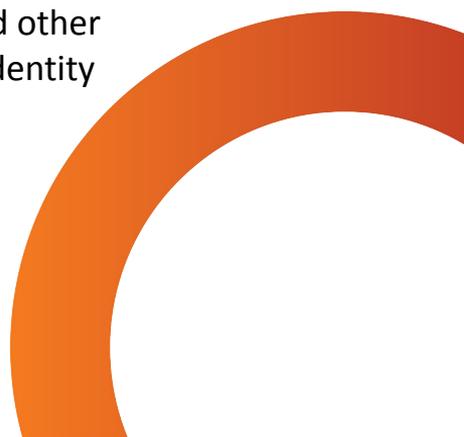

**Single blind**

Reviewers know authors' identity, but don't know other reviewers' identity

**Consultative**

Reviewers know authors' and other reviewers' identity

OPEN

# What makes peer review “open”

- ◉ Open **identities**: Authors' & reviewers' identities are known to each other
- ◉ Open **reports**: Review reports are published online
- ◉ Open **participation**: Anyone can contribute to the review process
- ◉ Open **interaction**: Discussion between authors & reviewers &/or between reviewers
- ◉ Open **manuscript posting** (as preprints prior to journal-led peer review): Manuscript drafts can be posted online on preprint servers prior to a journal submission
- ◉ Open **final-version commenting**: Open commenting on the final version of record (VOR)
- ◉ Open **platforms** (“decoupled review”): Independent discussion sites enable community review of manuscripts—*e.g.*, PREReview

\*Adapted from Ross-Hellauer T. What is open peer review? A systematic review [version 2; peer review: 4 approved]. F1000Research 2017, 6:588 (<https://doi.org/10.12688/f1000research.11369.2>)

# Let's imagine a new, better peer review system

- In the next few minutes we will spend some time thinking about and sharing **aspects of the peer review system** that we would like to keep and aspects that would be better changed or completely eliminate.
- We will divide you in smaller **breakout groups of 3-4 participants**.
- You will have **8 minutes** to discuss among yourselves before we come back to have a group discussion with the facilitators.
- Each group please **nominate one note-taker** who can write down the considerations discussed in the group and report back once we come back to the main group.

Of the current peer review system I'd like to change/eliminate...

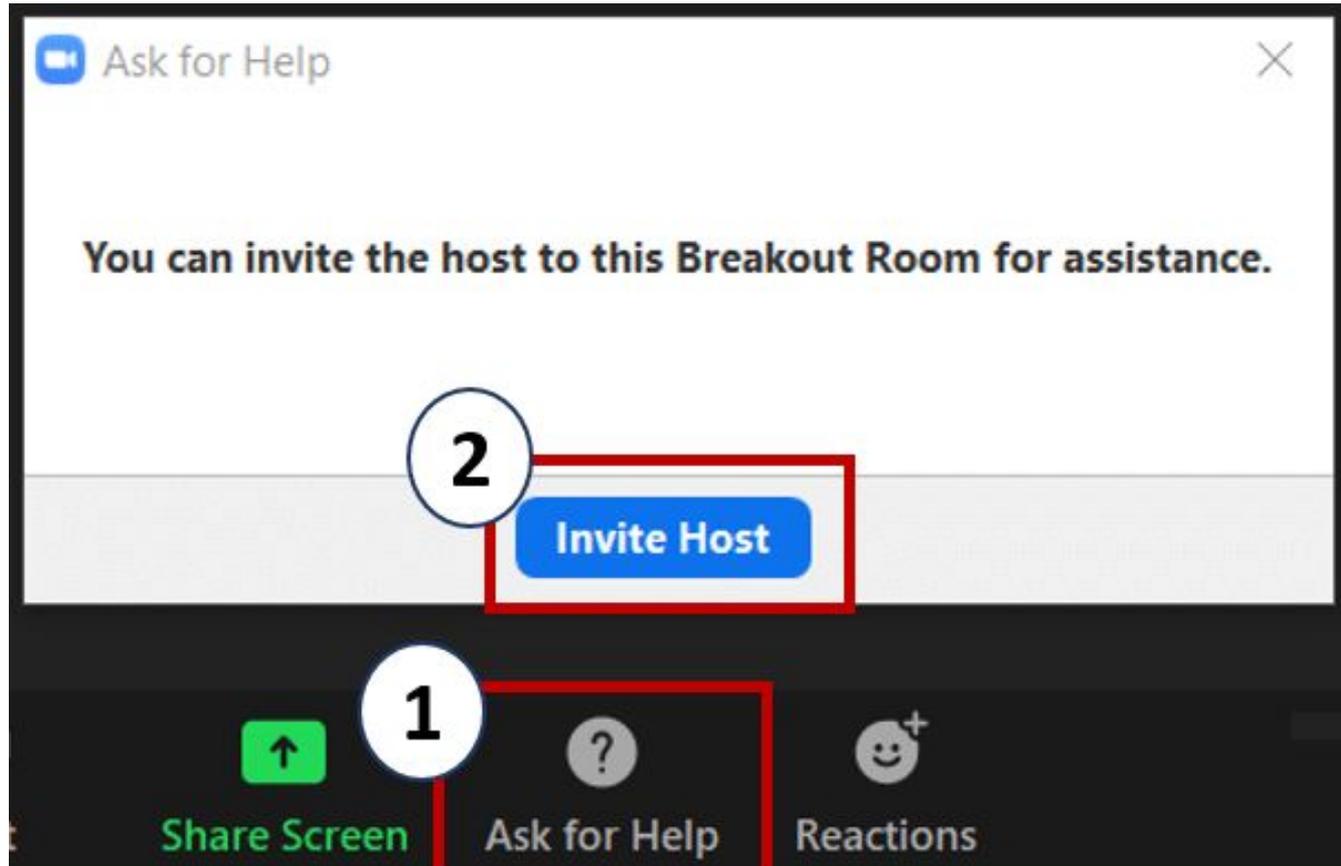

Of the current peer review system I'd like to keep...

5 MINUTE BREAK

# Systems of Oppression in Peer Review

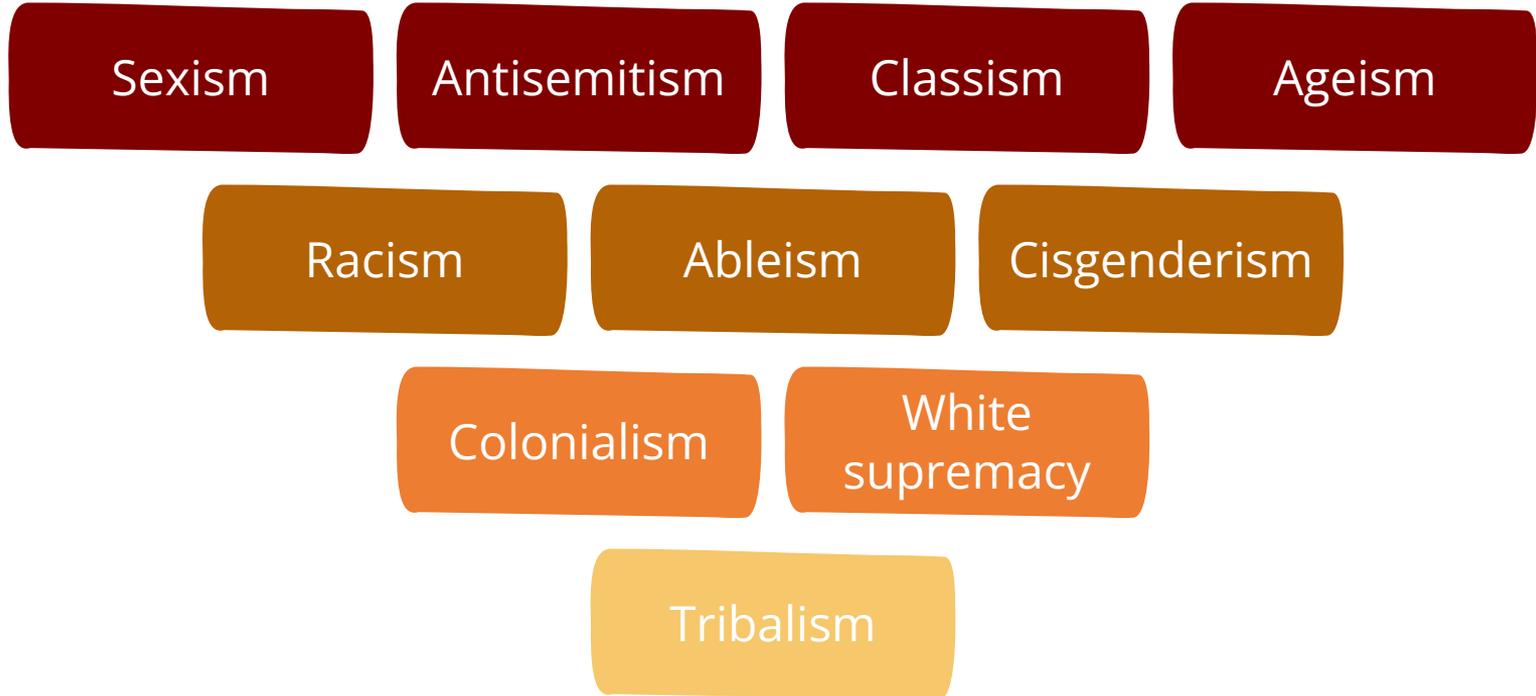

- ◉ Peer review does not happen in a vacuum; it is subject to the same **oppressive systems** that affect all human endeavours.
- ◉ It is often assumed that peer review is an objective process, but in reality **it is subject to the same biases, assumptions, and stereotypical preconceptions of people**, and consequently can perpetuate oppressive systems.

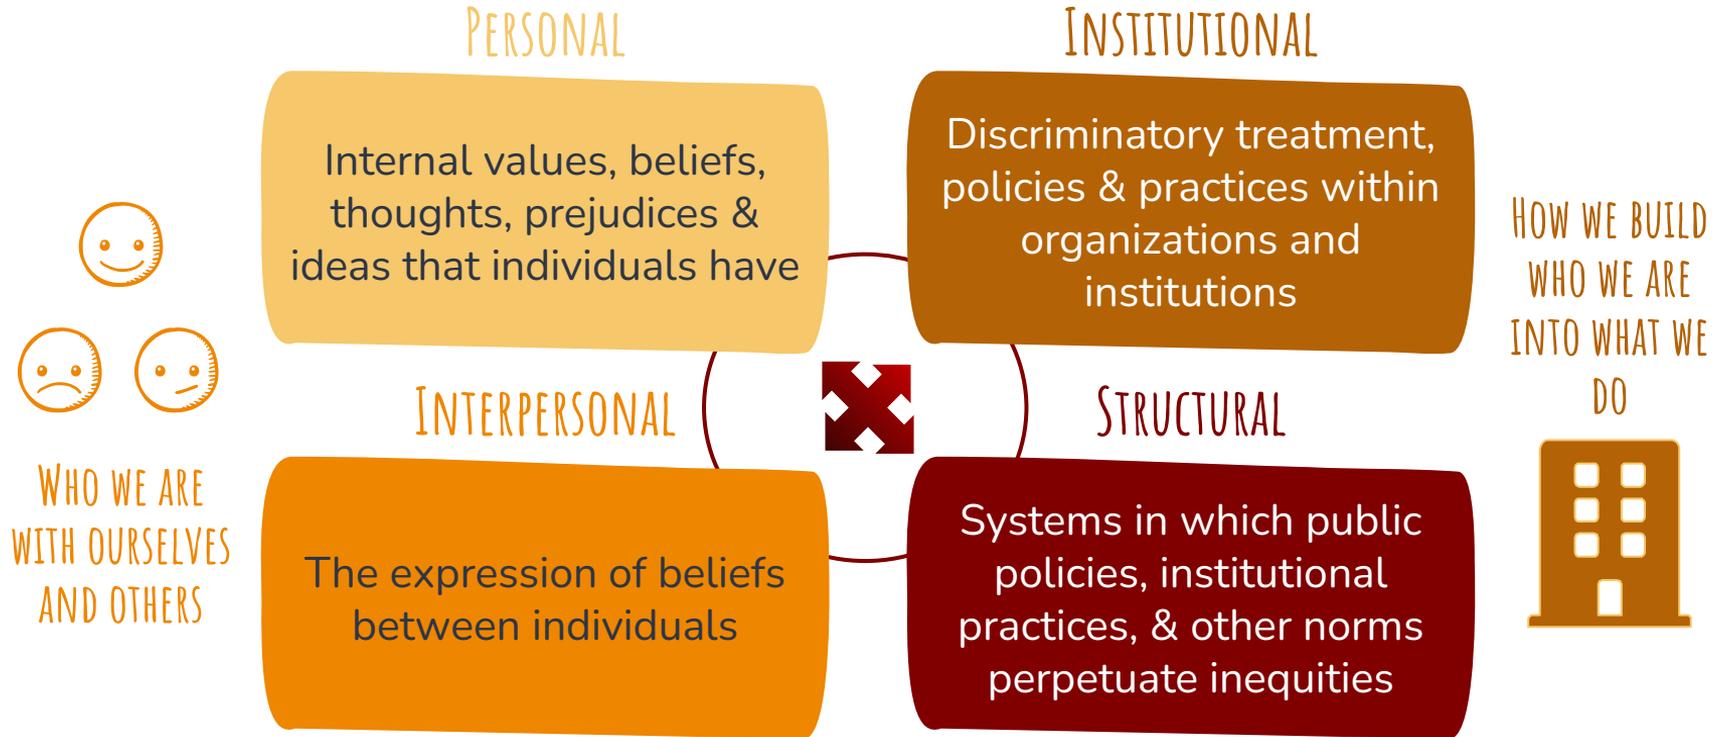

# What do we mean by Systems of Oppression?

Discriminatory institutions, structures, norms, policies, and practices used to oppress groups of people.

# How do biases become "systemic"?

# Let's reflect together using an example

- ◉ In the next few minutes we will spend some time reflecting on **how a system of oppression manifesting in peer review** may develop and propagate through the personal/interpersonal (Group A), and institutional/structural (Group B) levels.
- ◉ We will divide you in **2 breakout groups, Group A and Group B.**
- ◉ You will have **10 minutes** to discuss among yourselves before we come back to have a group discussion with the facilitators.
- ◉ Each group please **nominate one note-taker** who can write down the considerations discussed in the group and report back once we come back to the main group.

**Belief:** “Publications from the UK are higher quality than publications from India.”

**GROUP 1 - Personal & Interpersonal**

Which systems of oppression are tied to this belief and what are the implications at the personal and interpersonal levels?

**GROUP 2 - Institutional & Systemic**

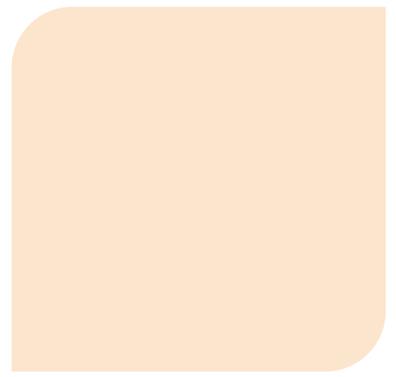

Which systems of oppression are tied to this belief and what are the implications at the institutional and systemic levels?

**Group A - Personal & Interpersonal**

**Belief:** "Publications from South Africa are higher quality than publications from Uganda."

**Which systems of oppression are tied to this belief and what are the implications at personal and interpersonal levels?**

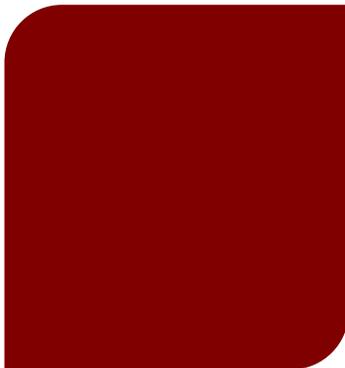

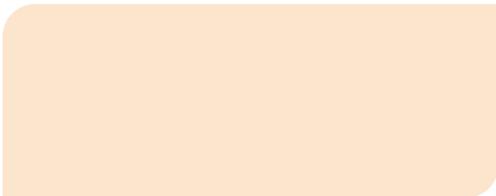

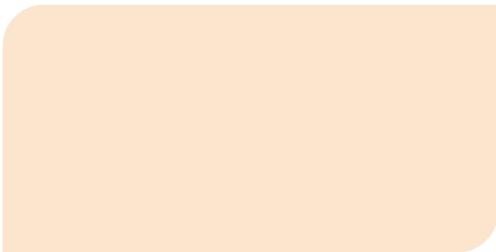

### Group B - Institutional & Systemic

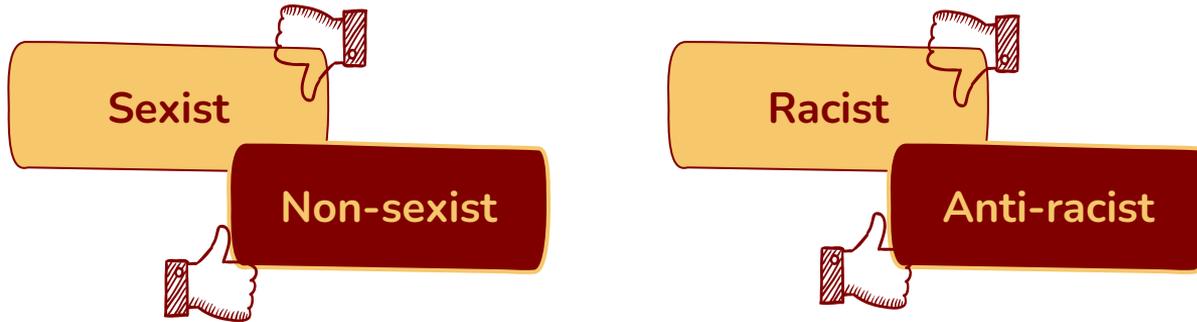

**Belief:** “Publications from South Africa are higher quality than publications from Uganda.”

**Which systems of oppression are tied to this belief and what are the implications at institutional and systemic levels?**

# A word on socialization

**We are taught** certain values, beliefs, cultural norms, and practices – these are all rooted in systems of oppression. **This is part of our socialization as people.**

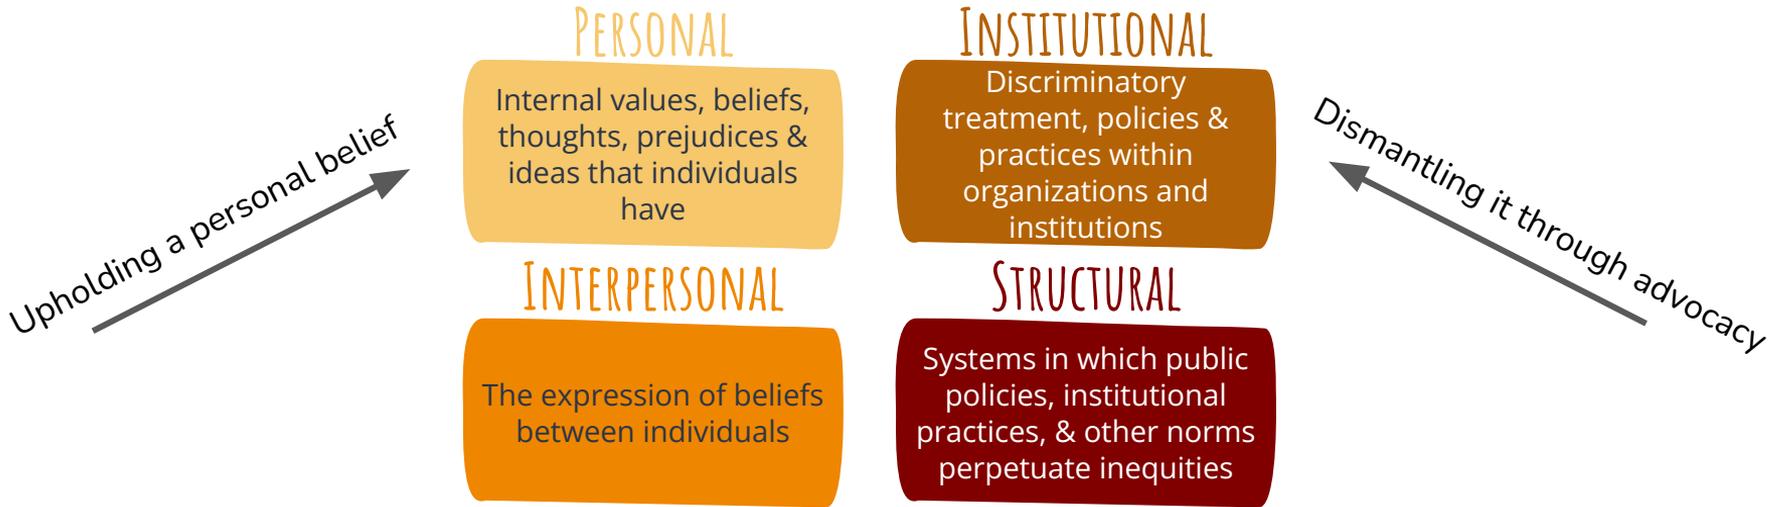

When we believe these conditioned beliefs and/or practices are tied to our own morality, discussing them can **trigger guilt or defensiveness**.

These feelings can prevent us from thinking critically, make us feel powerless, and prevent us from learning and taking action.

# “Either-or” thinking is also often not true

**What if:** A research department head at the university is advocating for opportunities to have more research publication coming from African scholars and believes that publications from the UK are of higher quality than those of Kenya.

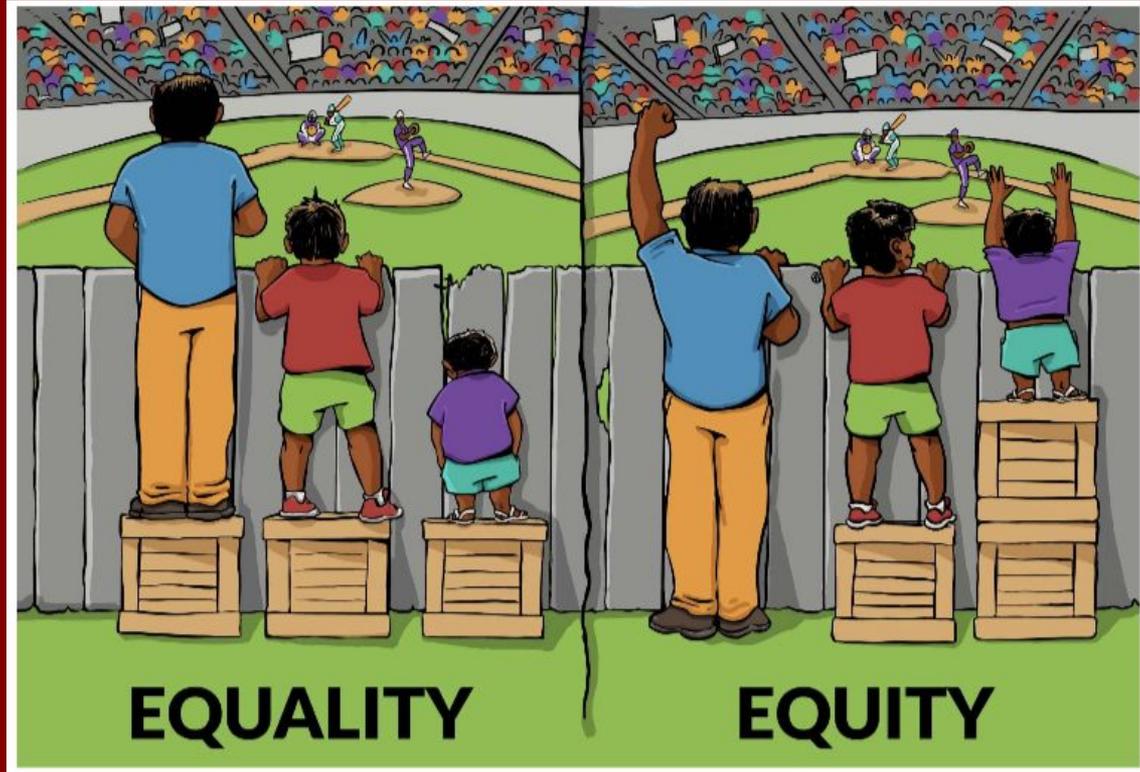

Calling a person “Racist” vs “non-racist” isn't just an unhelpful way of thinking about a person, but it's often not a true reflection of a person's actions.

**It is possible we can both uphold and simultaneously dismantle racism.**

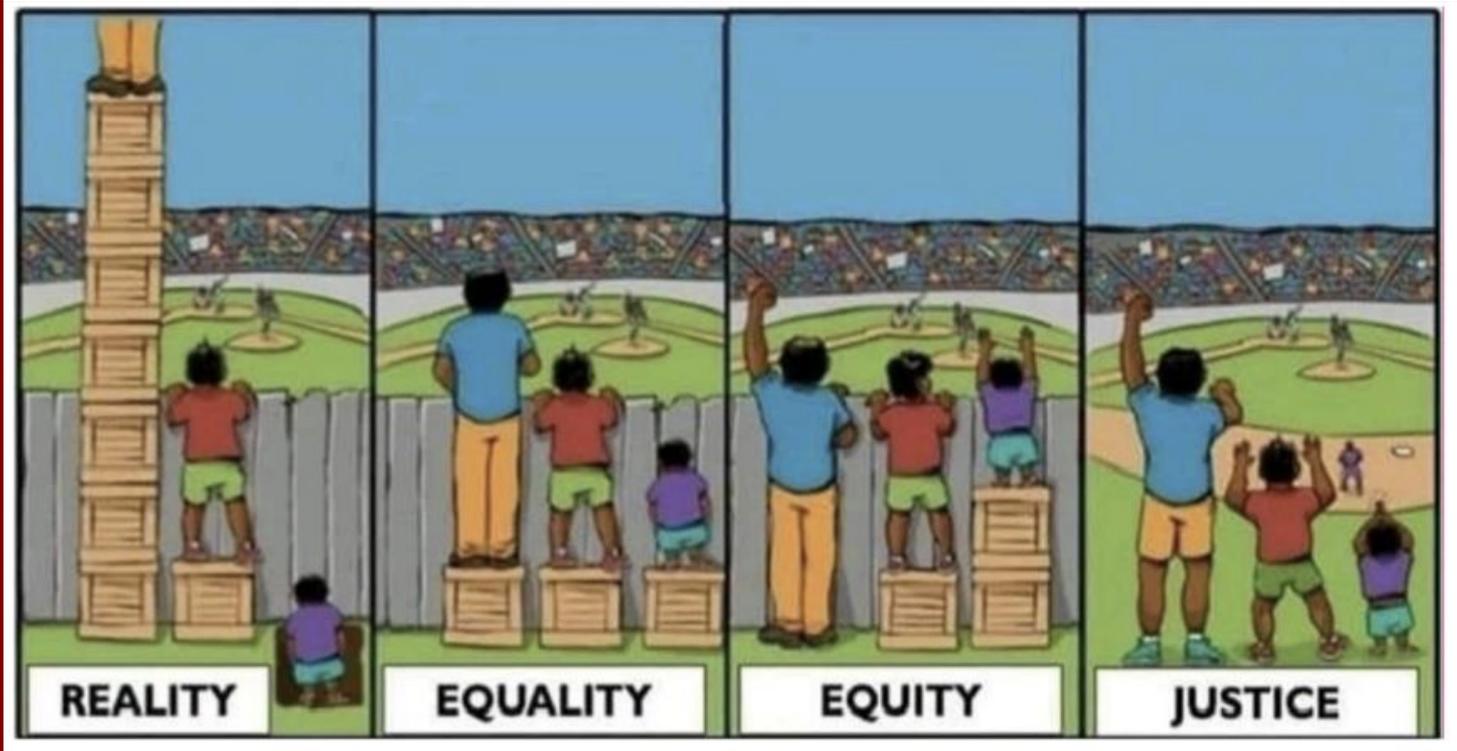

How do we move forward?

What can we do to mitigate systemic oppression in the space we live and work in?

## Next week we will...

- ◉ Move through a step-by-step guide on how to write a review
- ◉ Learn how to provide constructive, actionable, and clear feedback
- ◉ Learn and practice how to identify and mitigate our biases

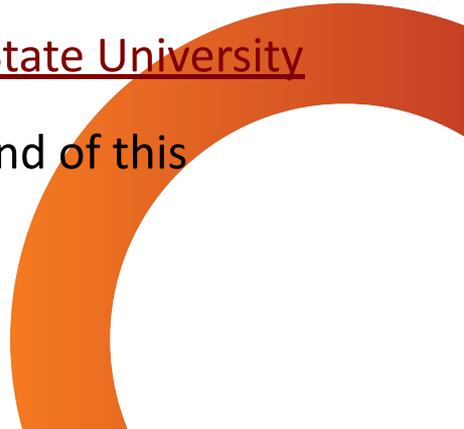

Expect an email from us with some reading assignments in preparation to next week's module.
