Dear Dr. Doshi, Thank you for reaching out to us. We appreciate the time that you have taken to provide feedback on our work. We are writing to inform you that we have updated our [review](#) to note that the preprint has since been published in the peer-reviewed journal Vaccine, as well as some of your remarks on our assessment of the preprint. We have also included a link to your response posted to Zenodo. Our initial assessment that the claim “Covid Vaccines More Likely to Put You in Hospital Than Keep You Out” [is inaccurate](#) remains valid.

Regards, The Science Feedback team
