Linus Hartmann-Enke  
Johannes Sperling

# SaxFDM – towards a comprehensive research data management support network for Saxony

# ● SaxFDM – Research data management in saxony

- Bottom-up-initiative consisting of universities, external research facilities and GLAM institutions
- Since 2019
- Open for all data-creating, -archiving and -processing research institutions in Saxony

# ● Work levels

## Working groups

- **Services and tools:** Knowledge exchange, creation of common services
- **Knowledge transfer & consultation:** common knowledge base, development of centralised consultation service
- **Events:** Digital Kitchen, Twitter- and Zenodo channel, website, RDM conference

## Plenum

- Decision making body, quarterly meetings

## Speakers

- Coordination, representation and management

## Scientific Advisory Board

- Strategic evaluation and support

# ● Project: establishing a cooperative research data management support in the Free state of Saxony

- Funded by the Saxon State Ministry of Science, Culture and Tourism (SMWK)
- Timeline: November 2021 – End of 2025

Diese Maßnahme wird mitfinanziert durch Steuermittel auf der Grundlage des vom Sächsischen Landtag beschlossenen Haushaltes.

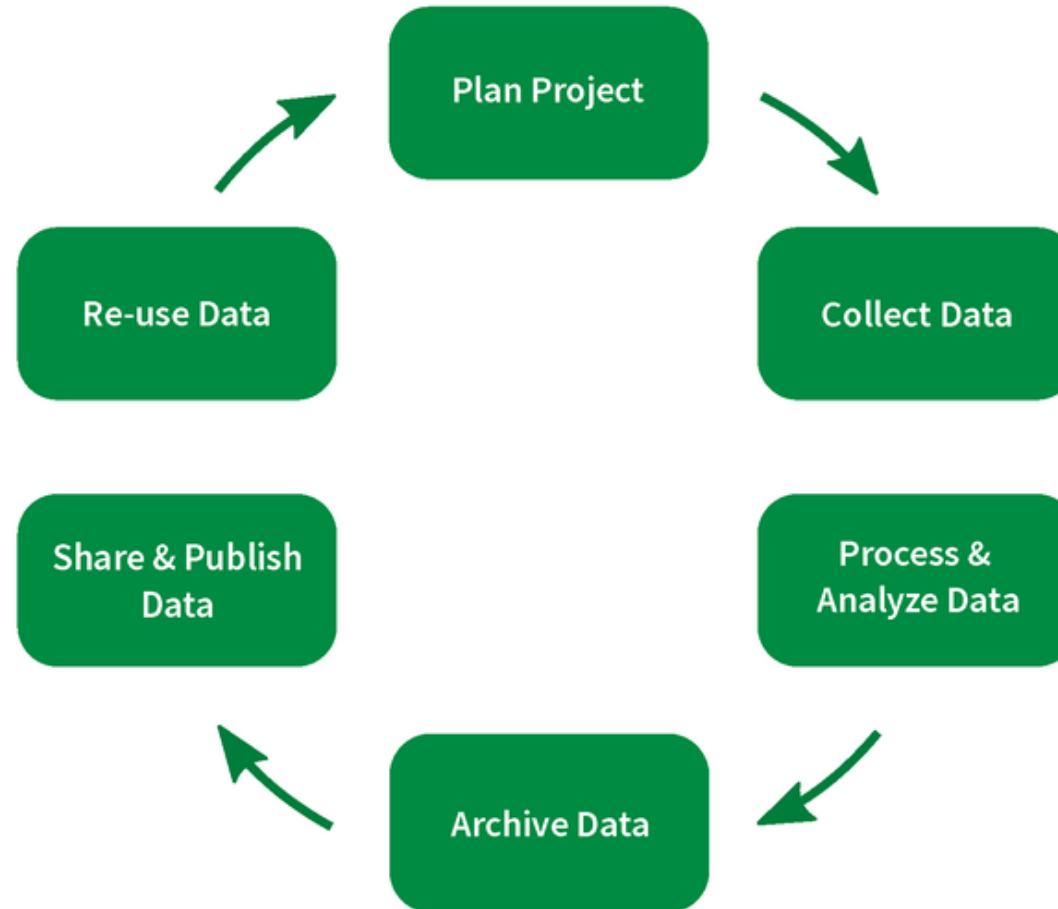

## Project goals

- State-wide consultation service
- Design of training and education offers
- Further development of the portfolio of technical RDM services based on needs assessment
- Fostering and supporting the implementation of RDM in the policies, guidelines and strategies of the SaxFDM partner institutions
- Development of a business model to sustain SaxFDM activities and structures beyond the end of the project lifetime

## Consultation service

- State-wide RDM-consultation service for all Saxon researchers
  - Concerning all topics of the RDM-circle of life

# ● Consultation service

## Consultation service

- State-wide RDM-consultation service for all Saxon researchers
  - Concerning all topics of the RDM-circle of life
  - Coordination with lokal and regional RDM-departments
    - e.g.: Dezernat 1 University of Leipzig or DRESDEN-concept
  - Cooperation with NFDI-Helpdesks

# ● Training and education offers

- State-wide education offers
  - Concerning all topics of the RDM-circle of life
  - Target groups: RDM-personnel and Researchers
  - Either online or on-site
  - Create awareness and complement missing services

## Technical services

- Support of institutions in the development and deployment of state-wide tools
  - Surveys about needs and wants of services and tools
  - e.g. OpARA

# Expert-/NetworkHub

- Networkhub
  - Knowledge about "who works where with what data?"
  - Mutual help and support
  - Knowledge about where knowledge is located
  - Experts for consultations

# ● Implementation of RDM

- Support of institutions in the implementation of RDM
  - Development of guidelines and policies
  - Structuring internal organisation and their connection to SaxFDM
- RDM-Strategy for Saxony

# ● Development of a business model

- Development of a business model for SaxFDM
  - Concept of steady continuation needs to be written until the end of 2025
  - Coordination and continuous talks with the institutions and the SMWK

## Further goals

- Cooperation and networking of all partner institutions
- Grouping of activities towards a sustainable organisational structure
- Strategic FDM-implementation in all partner institutions
- Establishment as a central partner for support of all Saxon researchers
- Protection and strengthening of Saxony as a research location
- Reinforcement of data literacy / competenz of researchers

## Open questions

- Effective interplay between different actors?
- Communication of offers to all reserachers?
- Operating and business model?

# Feedback

Thank you very much!
