Statement of Good clinical and research practice compliance and confidentiality agreement

By participating in the CUTIES-CH randomised controlled trial:

- I agree to adhere to the trial protocol and trial procedures and act with integrity and scientific rigour.
- I agree to deliver the intervention as randomised to the infants enrolled in the study.
- I agree to inform the Principal Investigator of any protocol deviations and adverse events.
- I will comply with the principles of Good Clinical Practice, the EU General Data Protection Regulation (GDPR) Act (2018), the Swiss Federal Act on Data Protection (FADP 235.1) and the Swiss Human Research Act (HRA 810.30).
- I agree not to disclose person identifiable information within the context of the research and for non-health care related purposes.
- I agree to respect data privacy and only open and access files on CastorEC that are related to patients I am to manage.
- I have completed the Good Clinical Practice training.
- I am a fully registered with the regulating body for osteopaths and have valid public and professional indemnity insurance.
- I agree to manage infants and their parents without charging them any fees for the duration of the study treatment and will receive CHF 200.- for every participant (additional 100.- for the first participant).

Date: _____ **Signature:** _____

Countersigned

I am satisfied that the participating osteopath is aware of the key issues relating to ethical compliance and confidentiality in relation to the CUTIES randomised controlled trial and I agree that this osteopath is suitable to participate.

Prof.DrSci. Paul Vaucher, Principle investigator
