

Video-Nr.	Title	Content
1-1	General-Info-Chemotion	Explanation of Chemotion in general
1-2	General-Info-Chemotion-ELN	Specific explanation of the ELN
1-3	General-Info-Chemotion-Repository	Specific explanation of the repository
2-1	Create-Account_Login	Creating an account in Chemotion and the login procedure
3-1	Collections	Creation and management of collections
4-1	Creating-molecules_structure-editor	Explanation of the structure editor
4-2	Molecules_additional-information	Further information on molecule entries
4-3	Creating-molecules_Import	Create molecules by uploading external data (SMILES, MOLFile)
4-4	Molecules_Tips-Tricks_Hotkeys	Hotkeys using the structure editor
4-5	Molecules_Salts-and-Elements	Tips for creating salts and elements
4-6	Molecules_Ligands-and-Complexes	Tips for creating ligands and complexes
4-7	Molecules_Polymers	Tips for creating polymers
4-8	Molecules_Detail-Modal	Further information and adjustment options in the molecule Detail Modal
5-1	Reactions_entering-chemicals	Possibilities for adding chemicals to reactions
5-2	Reactions_additional-information	Further information on reaction entries
5-3	Reactions_Tips-Tricks	Tips for using reaction entries
5-4	Reactions_General-Procedure	Explanation of the General Procedure function
6-1	Analysis-tab_Characterization	Creating analysis entries and uploading analysis files
6-2	Analysis-tab_Transfer-from-the-Inbox	Transfer of analysis files from the Inbox
7-1	SpectraEditor-general-evaluation	General information on the SpectraEditor
7-2	SpectraEditor-evaluation-NMR	Specific evaluation of an NMR spectrum in the SpectraEditor
7-3	SpectraEditor-evaluation-IR	Specific evaluation of an IR spectrum in the SpectraEditor

Video-Nr.	Title	Content
8-1	Moving-Entries_Move-Delete	Explanation of the options for moving, assigning, and deleting entries
8-2	Sharing-Part-1	Explanation of the sharing and synchronization functions
8-3	Sharing-Part-2	Detailed information on sharing (permission level, detail level, role)
9-1	Copy-Split-Entries	Copying and splitting entries (link to General Procedure Video)
10-1	Data-Export	Exporting data from Chemotion
10-2	Data-Import	Importing data into Chemotion
11-1	Generating-reports	Creation of reports
11-2	Generating-labels	Creation of labels
12-1	Creating-wellplates	Creating wellplates from Samples/Entries
12-2	Wellplates_additional-information	Further information on wellplate entries
12-3	Wellplates_Tips-Tricks	Tips for using wellplate entries
13-1	Creating-screens	Creating screens from wellplates
13-2	Screens_additional-information	Further information on screen entries
13-3	Screens_Tips-Tricks	Tips for using screen entries
14-1	Creating-Research-Plans	Creating a research plan
14-2	Research-Plan_additional-information	Further information on research plan entries
14-3	Research-Plan_Tips-Tricks	Tips for using research plan entries
15-1	Inbox_application-functions	Explanation of the Inbox and its functions
16-1	Transfer_ELN-Repository	Transfer of entries from the ELN to the repository
17-1	Generic-Elements_Introduction	Introductory video to Generic Elements and their use

Entries with a gray background in this document will only be available in later versions of the Zenodo entry.
