Australian Research Data Commons

## Purpose

To provide Australian researchers with competitive advantage through data.

## Mission

To accelerate research and innovation by driving excellence in the creation, analysis and retention of high-quality data assets.

## WHAT IS A RESEARCH DATA COMMONS?

A research data commons brings together people, skills, data, and related resources such as storage, compute, software, and models to enable researchers to conduct world class data-intensive research.

# SKILLS ARE KEY

[Ready, set, upskill: Effective training for the jobs of tomorrow, RMIT Online \(2021\)](#) - few Australians are ready for the jobs of tomorrow.

- Overall, 87% of jobs in Australia require digital literacy skills.
- Australia will need 156,000 more digital technology workers by 2025, representing one in four jobs created during that period.
- To become a digital leader, Australia would need to double the current growth rate in the training of technology workers – an additional 388,000 technology workers would be needed.
- Building a better understanding of what skills are in demand, and investing in lifelong learning, is crucial to not just our recovery, but our ongoing economic growth.

---

... digital and data skills dominate the fastest growing emerging skills and can act as gateway for transitions between jobs.

# GROWING SKILLS

- Skills will need to be built throughout a person's life
- Need to be addressed across K12, VET, HE, Government and Industry

# SKILLS FOR USING INFRASTRUCTURE

## [2021 National Research Infrastructure Roadmap](#)

- Researcher training
- Workforce skills and career pathways for research infrastructure staff

## THE ARDC DIGITAL RESEARCH SKILLS AGENDA: A National Approach

Our approach addresses 5 key areas. Fundamental to all is the Digital Research Capabilities and Skills Framework.

# SKILLED RESEARCHER WORKFORCE

THE CARPENTRIES

Events Materials Packages Providers Trainers About

## Welcome to Digital Research Skills Australasia (DReSA)

Browsing, discovering and organising digital research events and training resources, collected from Australasian providers.

### Events

Browse and discover training events from across Australasia.

### Materials

Browse and discover training materials from Australasian providers.

### Providers

Browse and discover Australasian training providers who contribute events and materials to DReSA.

### Trainers

Browse and discover Australasian trainers for digital research skills.

About the ARDC

# AGENDA

## Day 1

- Success factors for training

## Day 2

- Guiding national skills policy
- Narrowing the skills gap
