# HOUSEKEEPING NOTES

01

The session will be recorded.

The Q&A will be recorded but not disseminated.

02

Please keep your **microphones & cameras** off during the presentations.

03

Make sure you add your **name & affiliation** and briefly introduce yourself via the chat option.

04

Feel free to unmute & turn your camera on to join the discussion during the Q&A!

# OpenAIRE Services for RPOs

*Access to knowledge is fundamental for all, to drive change and create opportunities. Open Science paves the way.*

We design, build, set up, run and maintain the OpenAIRE services for you.

Increase Visibility and Impact

## 6 steps towards Open Science

- Adopting an Open Science Policy
- Link your repository, OA journals, CRIS to the world
- Publish research in the open
- Discover & share research with no barriers
- Monitor research outcomes, open science policy uptake, impact
- Train students, research and staff to perform Open Science

# Agenda

- Why OpenOrgs: rational and why the tool is important for the quality of data in OpenAIRE
- Functionalities and workflow: how the tool works and how to proceed with the curation tasks
- Hands-on session: participants will be divided in three groups, each with a trainer
- Final remarks and next steps

**Gina Pavone**

Former OpenOrgs Service  
Manager

**Ivana Koncic**

OpenOrgs Service Manager

**Bojan Macan**

OpenOrgs Service Manager

# *Final remarks*

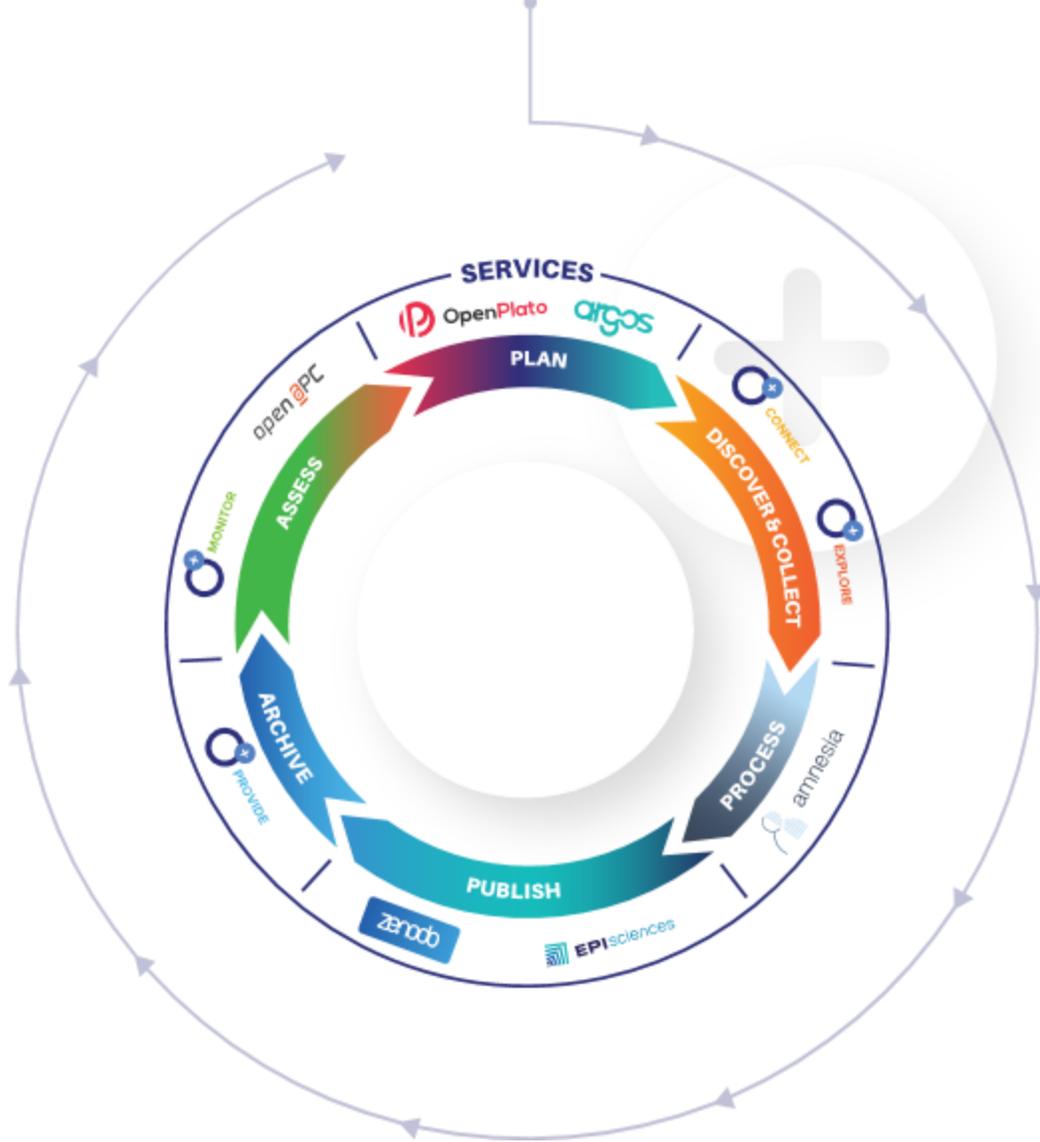

Giulia Malaguarnera, Engagement Officer
