## About the project

Beckon is part of the Life program which is one of the EU's financing instruments for environment and climate action. It belongs to the Life Clean Energy Transition sub-program.

LIFE-BECKON stimulates and boosts the deployment of Energy Communities across Europe by developing and delivering comprehensive support mechanisms for public authorities, promoters and Local Action Groups to better equip them to facilitate the creation of Energy Communities.

**Boosting Energy Communities massive Deployment**

@BeckonLife

BECKON Life

Co-funded by the European Union

**8 partners from 7 European countries  
1.8M€ budget  
3 years duration**

**LIFE-BECKON**

## 3 pilot sites 3 European countries

## Why **LIFE-BECKON**

- ✓ LIFE-BECKON stimulates and boosts the deployment of Energy Communities across Europe.
- ✓ The project includes Technical Assistance cookbook, Technical Assistance Offices, Capacity Building program.
- ✓ The project carries 3 different pilots in supra municipal areas in Avila-ES, Sofia-BG and Copenhagen-DK.
- ✓ Replication of the mechanism and best practices will be spread in more than 30 authorities during the project.
- ✓ Train the Trainer approach increases stakeholder knowledge and integrated services via One-Stop-Shop platform.
- ✓ It develops and delivers comprehensive support mechanisms for public authorities, promoters and Local Action Groups.

## Beckon in numbers

- Expected impact of 38M€
- Primary energy saving of 20GWh/y
- Renewable energy generation of 12GWh/y
- Greenhouse gasses emission reduction of 4,500 tCO<sub>2</sub>/y

Co-funded by  
the European Union
