

Q18 In what areas do you see room for diversified treatment?

Answered: 45 Skipped: 25

ABA Survey NJ

#	RESPONSES	DATE
1	All	2/23/2020 9:46 PM
2	Many times the clients have deficits in other areas such as sensory processing. Incorporating diversified treatment can help the child in more than one area	2/14/2020 12:53 PM
3	BCBAs need to include others on the team and incorporate ideas from other disciplines (so long as it doesn't conflict with ABA best practices), rather than getting stuck on using only the interventions they know.	2/12/2020 7:29 PM
4	Automatically-maintained stereotypy, a combatting a client's general indifference (if not distaste) for social interaction	2/8/2020 4:24 PM
5	speech therapy has been helpful to collaborate	2/6/2020 12:11 PM
6	Behavior management, I feel like their can be more understanding of feelings and allow for the idea that their can be other factors besides the four functions of behavior.	2/5/2020 7:10 PM
7	Not sure	2/5/2020 5:37 PM
8	With individuals with multiple diagnoses (i.e autism and bipolar)	2/5/2020 12:44 PM
9	social, behavior reduction and language development	2/5/2020 12:33 PM
10	SLP and OT communication with BCBAs and vis versa	2/5/2020 12:11 PM
11	I'm happy to collaborate with SLP's and OT's who address behavior and use sound, validated methods.	2/5/2020 11:49 AM
12	Not all clients will only do well with aba. There are other reasons for behaviors and deficits	2/5/2020 11:43 AM
13	Basic social skills for lower functioning chilren	2/2/2020 7:29 AM
14	When teaching social skills and emotional regulation	2/2/2020 1:05 AM
15	Sensory needs	2/2/2020 12:56 AM
16	With clients who exhibit anxiety-related behaviors or comorbidity	1/30/2020 4:17 PM
17	I think there is need for more sensory work within our treatment plans.	1/30/2020 2:25 PM
18	Not sure I understand this question but i find that although all of m clients have a diagnosis of autism, they are each individuals with different strengths and weaknesses. That being said, I feel that there is definitely room for diversified treatment. However, I do believe that many approaches can be incorporated within the ABA model.	1/30/2020 1:19 PM
19	When everything else was tried, and problem behavior is severe	1/30/2020 9:07 AM
20	More naturalistic teaching	1/29/2020 2:25 PM
21	social skills training	1/29/2020 2:25 PM
22	Very child dependent, but mainly in social domains	1/29/2020 1:18 PM
23	Social, emotional, whole child treatment.	1/29/2020 1:07 PM
24	Children with apparent emotional and or physical difficulties	1/29/2020 9:50 AM
25	Collaboration is key. Collaborating with OTs, PTs, Speech Therapists, and mental health providers. Many a times I've collaborated with Social workers who work with my clients. I focus on the skill acquisition and they focus on the emotional piece. I do feel that Child development and growth should be taught in Classes towards getting a BCBA	1/27/2020 7:49 PM
26	Emotional regulation	1/25/2020 10:30 PM
27	emotional regulation	1/23/2020 11:15 PM
28	When a child is having a hard time with aba	1/23/2020 10:22 PM
29	Integration of different modalities and therapies can help a child.	1/23/2020 10:20 PM
30	Social and emotional integration	1/22/2020 10:44 PM

31	In areas of social skills and communication. Treatment should look at the child's development and not chronological age	1/22/2020 9:22 PM
32	Social goals	1/22/2020 9:01 PM
33	All	1/22/2020 5:53 AM
34	When the child social standing is critical	1/21/2020 11:50 AM
35	In understanding the child's profile and deficits; the 'why' behind the behavior; connecting the dots of the child's functioning.	1/20/2020 1:13 PM
36	treatment planning	1/20/2020 12:10 PM
37	Not sure	1/16/2020 8:07 PM
38	In clients who have severe autism. How we connect and build rapport with our clients.	1/16/2020 10:25 AM
39	Incorporating work from other disciplines	1/16/2020 10:18 AM
40	Understanding the child's profile, choosing treatment targets, parent training.	1/16/2020 9:38 AM
41	in research. ASD Research is so heavily populated with behavior science . I value anything that works. we need more research on diversified treatments . i have the skill to adapt many effective treatments to be within the science of behavior but we need way more research . particularly social work and psychology in helping high functioning people with ASD. I value their work and would love to implement more of it to create comprehensive treatment plans for the clients I service	1/15/2020 11:26 PM
42	integrating emotional skills, motor planning, and development	1/15/2020 10:51 PM
43	The content of groups, different enriched experiences that the child can participate in	1/15/2020 9:56 PM
44	in best practice, well done ABA incorporates methadologies, concepts and ideas from developmental practices, Occupational therapy skills, Physical therapy skills, and speech skills.	1/15/2020 9:36 PM
45	Interaction	1/15/2020 8:24 PM
