1 Executive summary and justification for merging D4.1 and D4.3

Following up the exchanges intercurred with the European Commission, the WP4 team, in agreement with the VITALISE Project Coordinator, has decided to merge D4.1 Online educational materials (first version) and D4.3 Printed Education materials (first version), due to the fact that both materials are strictly interlinked and most of the printed materials are expected to be produced in the second half of the project development, as a result of the work carried out in Task 4.4 "Fast Track Training" and Task 4.5 "Design and implementation of common postgraduate courses" and in Task 4.5 for the VITALISE Postgraduate Course in 2023, which is currently under development. At the current stage (M18), two educational posters have been produced by the VITALISE team to be used as printed materials within the VITALISE General Assembly meeting in Helsinki from 11 to 12 May 2022, as presented in more detail in D4.1 (first version).

For this reason, both D4.1 and D4.3 will be updated in M36 and reflected on D4.2 Online educational material (final version) and D4.4 Printed educational material (final version) to include the online and printed educational materials created by the VITALISE team within the context of the WP4. For this first step the WP4 team has concluded it would have been very beneficial to include all contents in a single document.
