

The SSH Open Marketplace is a discovery portal which pools and contextualises resources for Social Sciences & Humanities research communities.

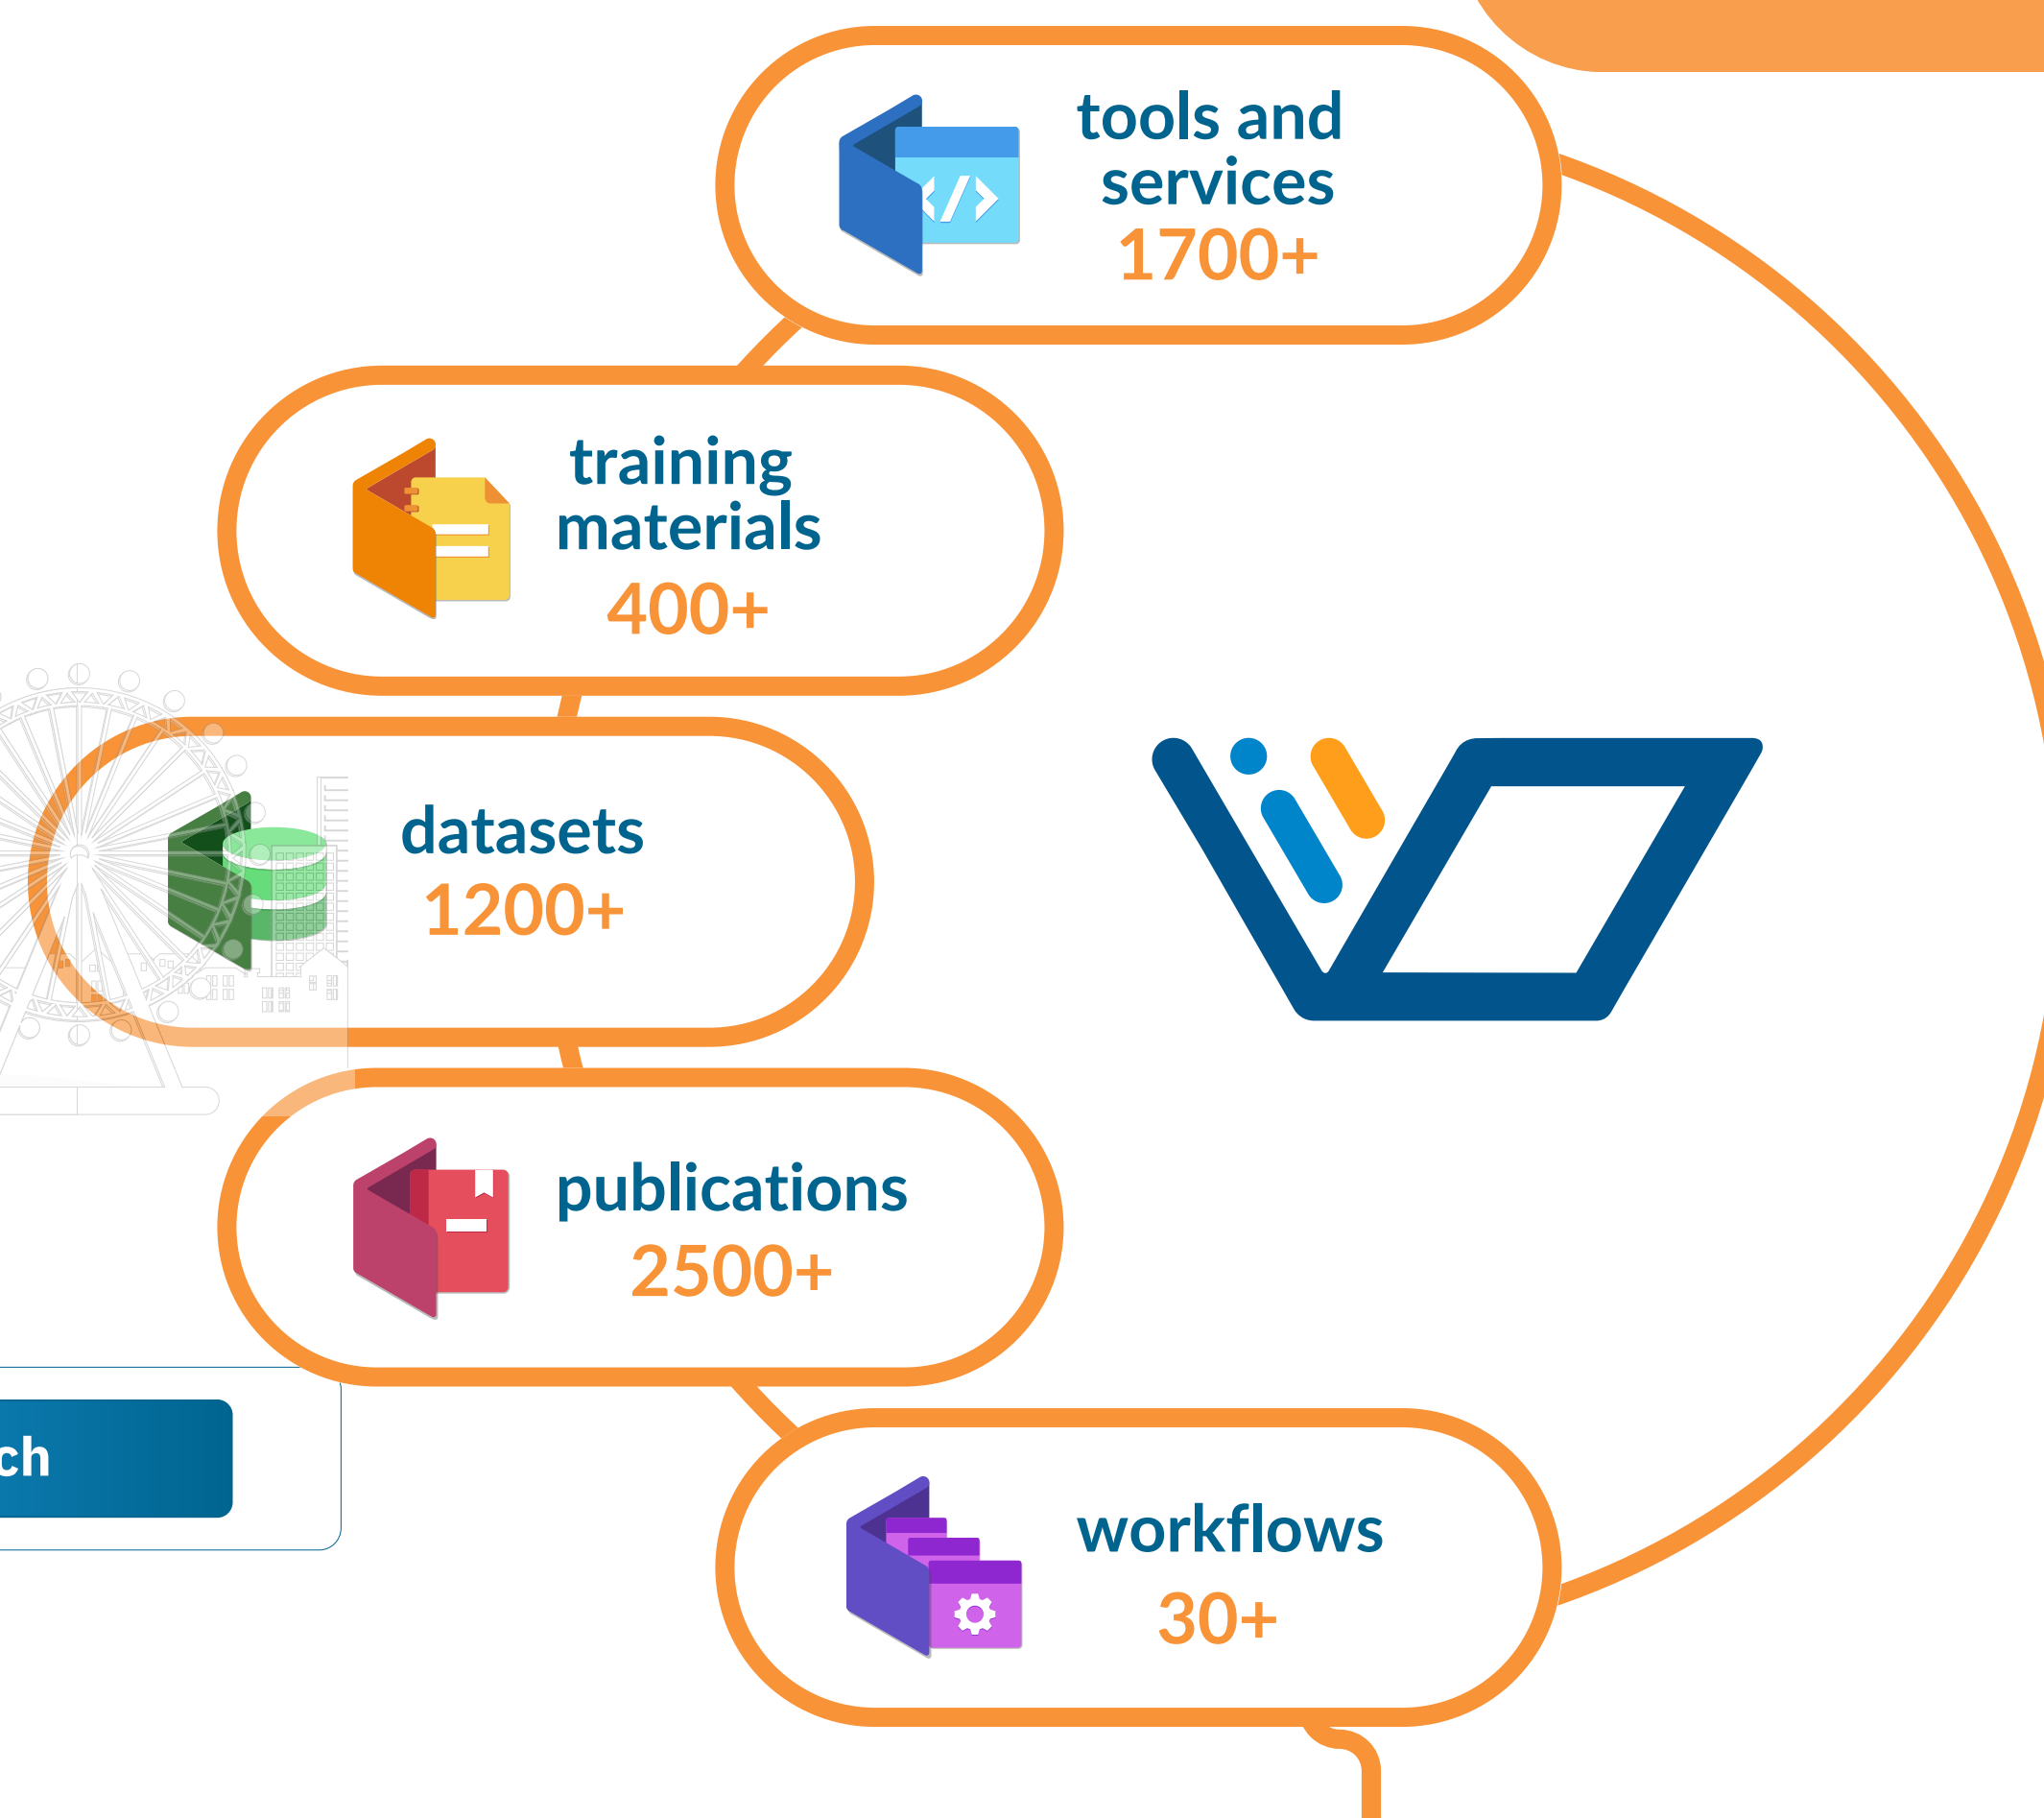

The SSH Open Marketplace: increasing the discoverability of your favourite resources

ESRA 2023, 17-21 July

All Categories  Search

## Resources

## Core Principles

- Contextualisation:** the tools and services are placed in context via publications, training materials, datasets, and workflows
- Curation:** automated checks and manual review to ensure (meta)data quality
- Community:** collaborative work and user-centric approach

## Governance & sustainability

- Funded and maintained by 3 ERICs under the umbrella of the
 

- 17 Editorial Board members moderating and curating the content
- A growing community of contributors

## Join us and contribute!

Are you a researcher in Social Sciences and Humanities, a support staff member, a librarian, someone interested in digital tools & methods in SSH?

You want to put your favourite resources on the EU map and contribute to the European Open Science Cloud?

You can not find your favourite tool? The methods and standards in use in your discipline are not well represented in the catalogue?

Join a growing community, become a **contributor** and improve the SSH Open Marketplace by curating existing records or creating new ones in the catalogue.
