

Table S1.1. 25 questions answered by representatives of professional fishermen in the 16 fishing shelters of the Republic of Cyprus.

No.	Question
1	Why do you choose this particular fishing shelter?
2	Was another member of your family fisherman too?
3	How far is the fishing shelter from the place of your permanent residence?
4	Do you work all year round or temporarily throughout the year?
5	Do you pay for using the fishing shelter and if so, how much?
6	Which is the most important problem of the fishing shelter that you faced in the past?
7	Which is the most important problem of the fishing shelter at present?
8	Which is the most important problem of the fishing shelter that you anticipate in the future?
9	Is the fishing shelter safe for berthing?
10	Is there always space available for berthing?
11	In your opinion, does the fishing shelter require major construction works, including expansion?
12	How often cleaning activities occur in the marine area, including the sea bottom?
13	Is there waste in the marine and terrestrial areas?
14	Is there parking space in the terrestrial space of the fishing shelter?
15	Is the electricity supply sufficient?
16	Is the water supply sufficient?
17	Are there any other problems in the utilities and facilities of the fishing?
18	Have you observed extreme weather events and if yes, which ones?
19	If yes, which were the most important problems of the shelters observed after these events?
20	Have the fishing periods changed and if yes, do you think this is connected to climate change?
21	Have the fish stocks diminished throughout the years?
22	Do you face issues related to invasive species?
23	Which is your opinion about aquaculture?
24	Is there a problem with ghost nets and plastics in the marine area surrounding the shelter?
25	Are the port authorities eager to cooperate with you to resolve problems?
