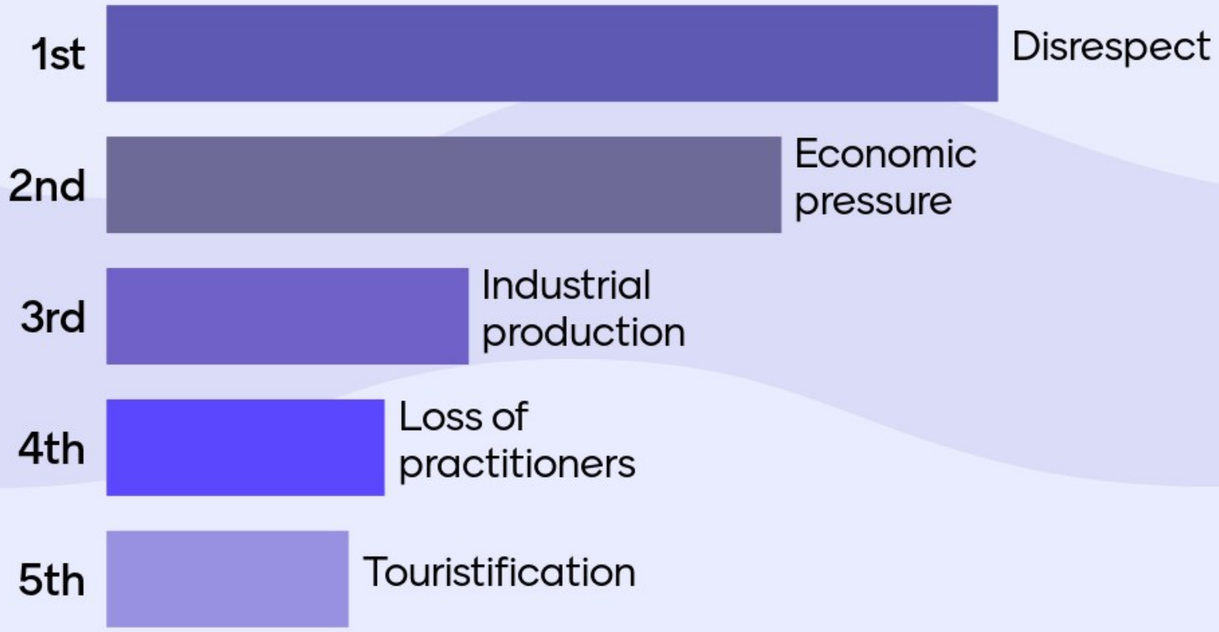
Which do you think is the biggest threat for intangible cultural heritage?



Living Heritage and threats

Designed on an experimental basis, this interactive visual is intended to highlight the phenomena that threaten the elements of intangible cultural heritage inscribed on the List of Intangible Cultural Heritage in Need of Urgent Safeguarding. By studying the nomination files, UNESCO identified 46 which are often referred to as 'risks' or 'threats'.

For easier navigation, these phenomena have been grouped into nine categories: the one in the centre ('**Weakened practice and transmission**') corresponds to symptoms, and the others to underlying factors, threats or risks. Select a 'threat' to see how it impacts the related elements; select an element to see which factors affect its viability.

76 Intangible Cultural Heritage are inscribed on UNESCO's Urgent Safeguarding List
