

The ARRIVE Essential 10

[ARRIVE guidelines 2.0 - English.pdf](#)

Study design	Described in section
a	Animals and housing conditions
b	Analysis
Sample size	
a	Analysis and results
b	Animals and housing conditions
Inclusion and exclusion criteria	
a	Analysis
b	Analysis and results
c	Analysis
Randomisation	
a	No randomization as each group served as their own control.
b	Developmental step 3: Cognitive bias test
Blinding	Analysis
Outcome measures	
a	Analysis
b	-
Satistical methods	
a	Analysis
b	Analysis
Experimental animals	
a	Animals and housing conditions, Developmental step 1, 2, 3: Animals, Developmental step 2 and 3: Results
b	Developmental step 1, 2 and 3: Animals
Experimental procedures	
a	Methods
b	Methods, Developmental step 1: Gate conditioning protocol, Developmental step 2: Corner conditioning protocol, Developmental step 3: Corner conditioning protocol, Cognitive bias test
c	Methods
d	Methods, Developmental step 1: Gate conditioning protocol, Developmental step 2: Corner conditioning protocol, Developmental step 3: Corner conditioning protocol, Cognitive bias test
Results	
a	Developmental step 1: Results, Developmental step 2: Results, Developmental step 3: Results
b	-
