INFORMATION FOR THE INTERVIEWEE

We are currently doing a study to identify the strengths and weaknesses of our health care services. A survey is being performed as part of this research to find out what patients think of the different health services they use.

The information which you will provide is very important, as it helps us to identify problems with the services and to make changes with view to improving the care offered in the primary care centres and in hospitals.

The people who make use of this information are obliged to comply with the law on statistical confidentiality, meaning that they cannot divulge it to other parties or use it for any purpose other than that described above, so we can ensure that the data will remain confidential.

(Articles 37, 38 and 39 of Law 23/1998, 30th December)

Thank you for participating in this study.
