

**THOTH**

Open Metadata.

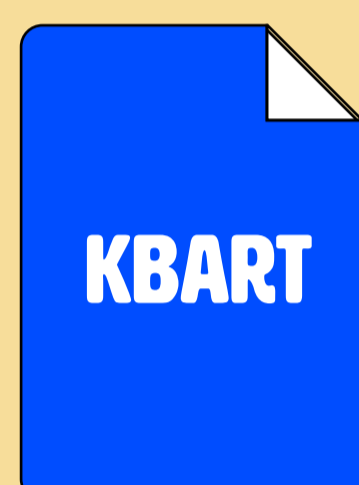

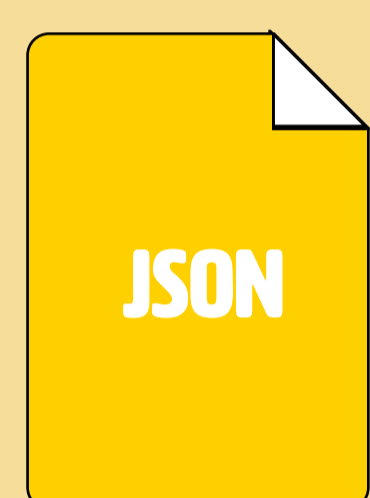

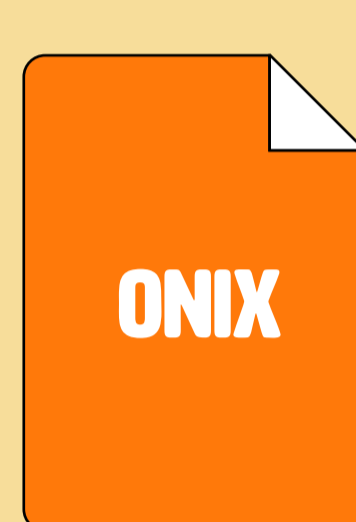

# OPEN METADATA MANAGER & DISTRIBUTION SERVICE.

**FOR OPEN ACCESS BOOKS.**

[HTTPS://THOTH.PUB](https://thoth.pub)

Open  
Standards.

Read the Export API docs.

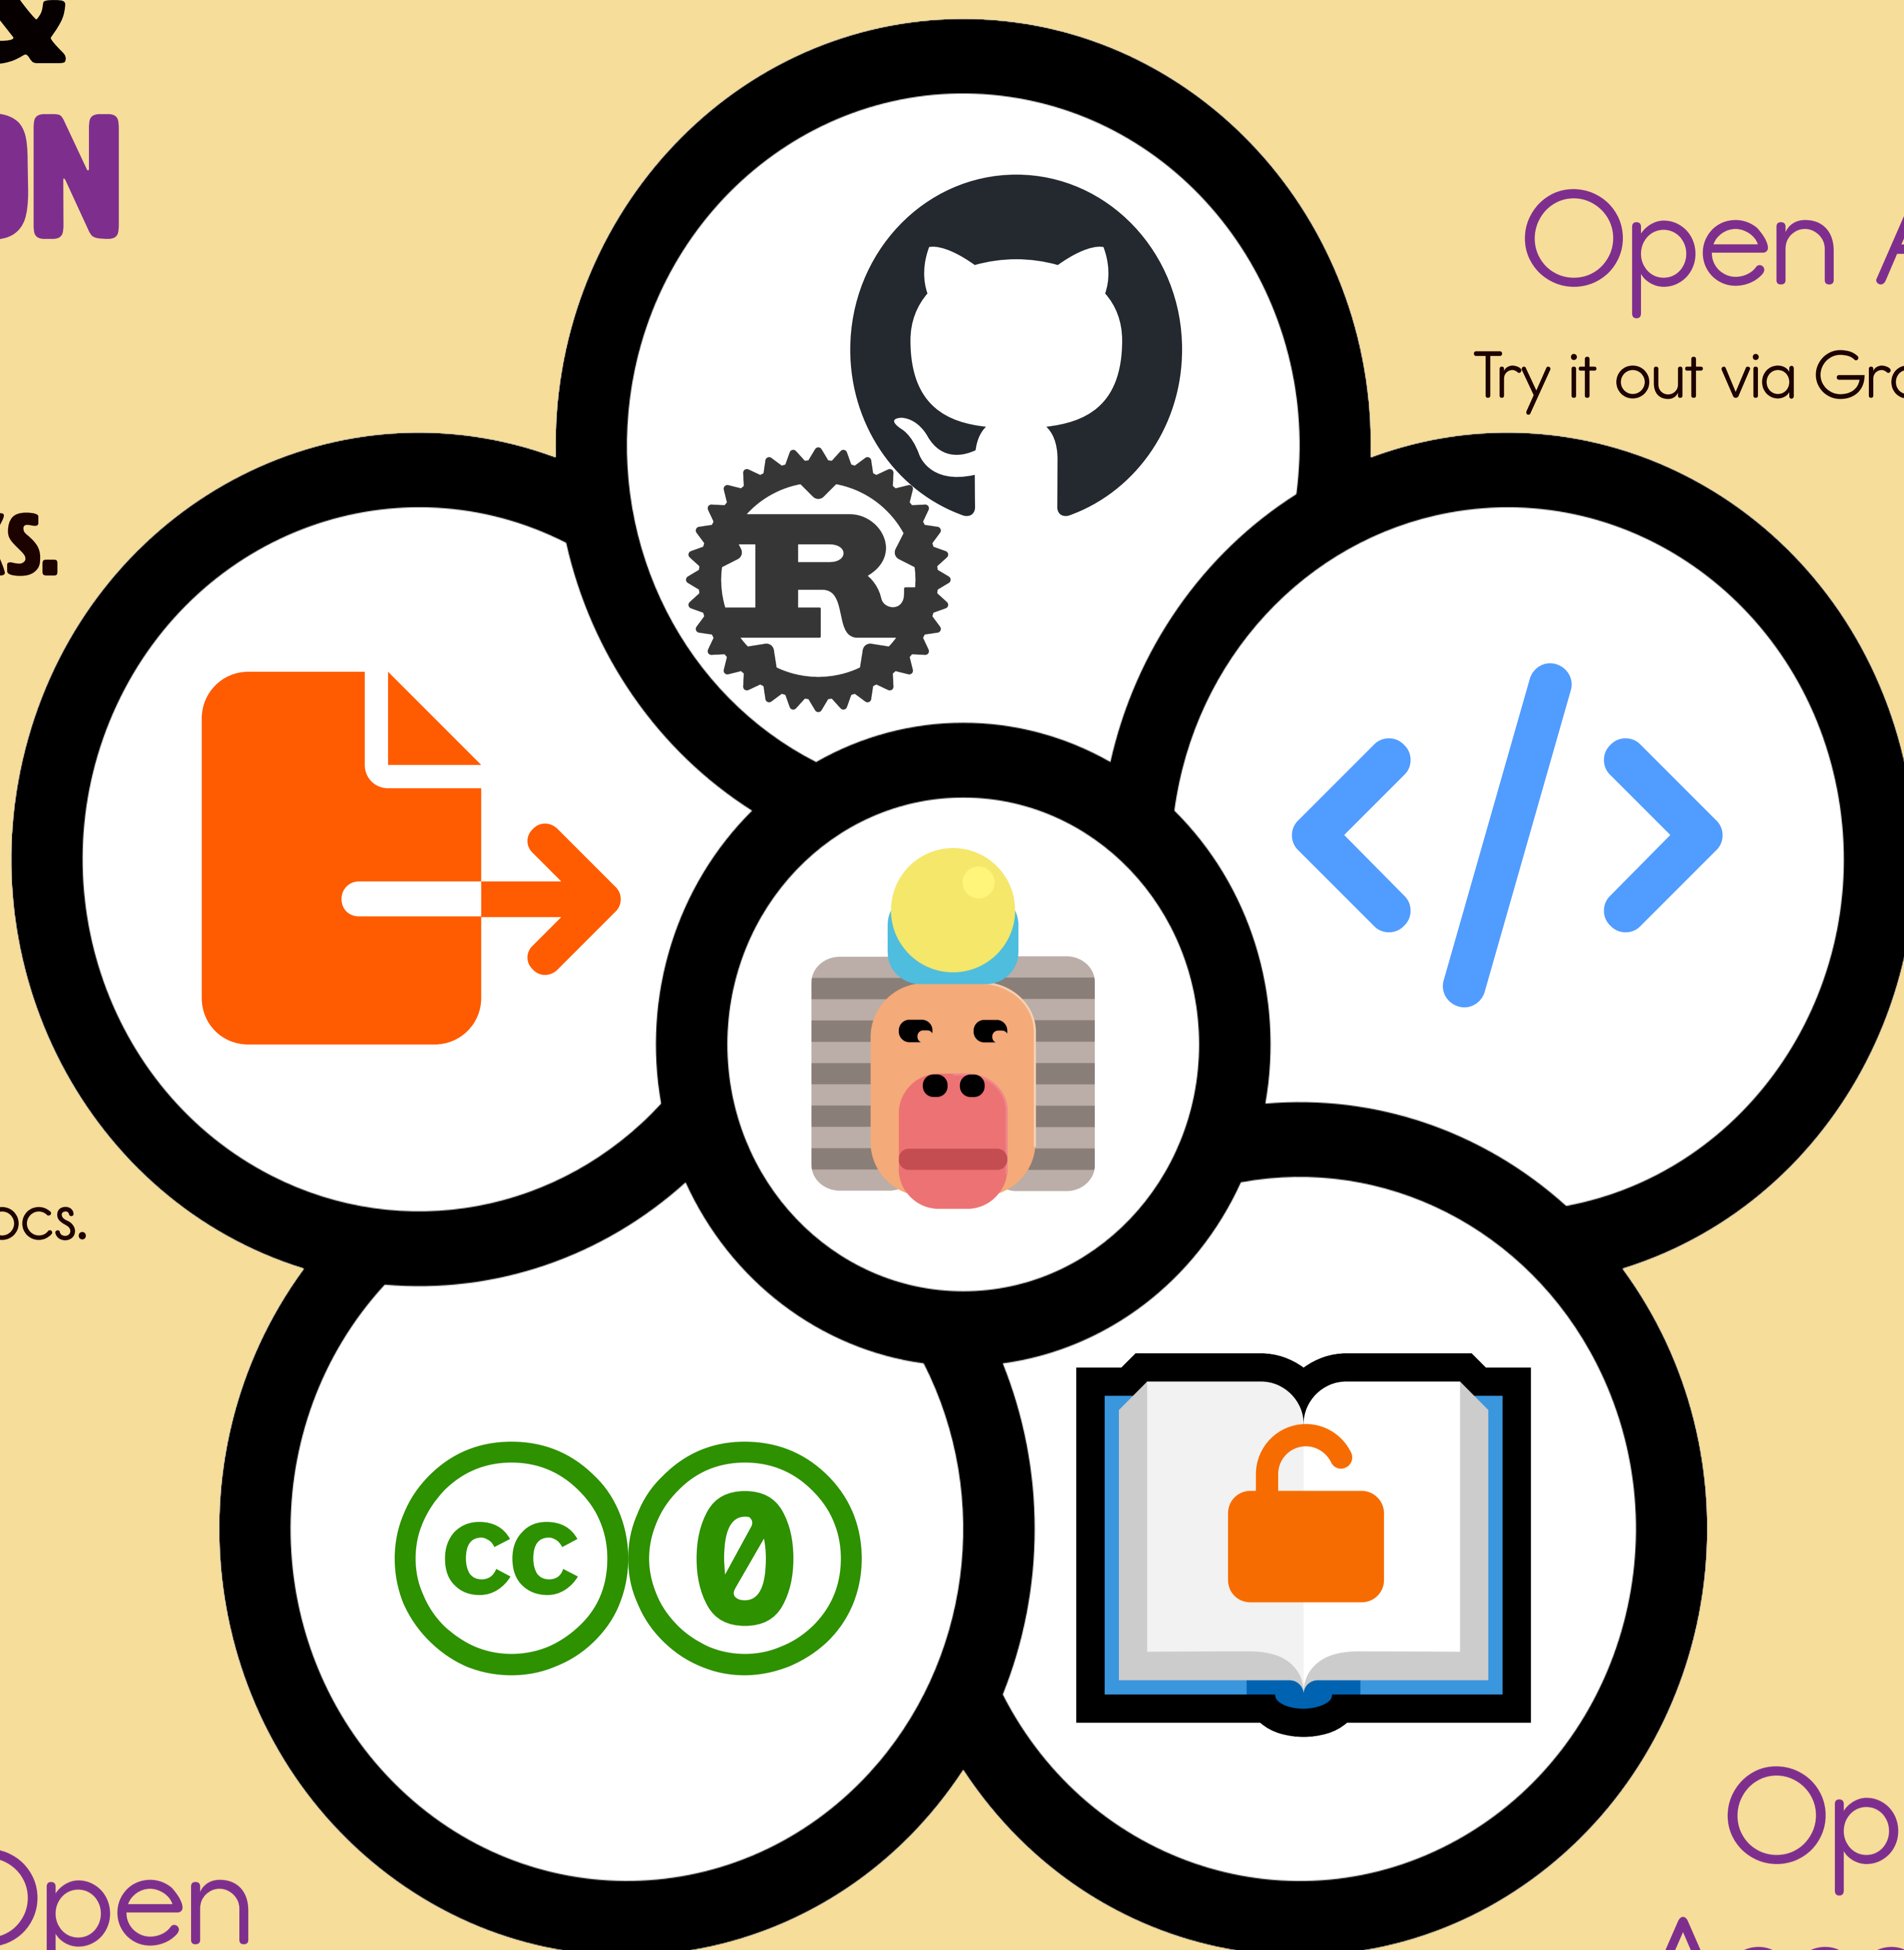

**CELEBRATE  
ALL  
FORMATS.**

Open  
Metadata.

Truly open CC0-licensed data.

Open Source.

Written in Rust. Code on GitHub.

Open API.

Try it out via GraphQL.

Open  
Access.

Built for OA books.

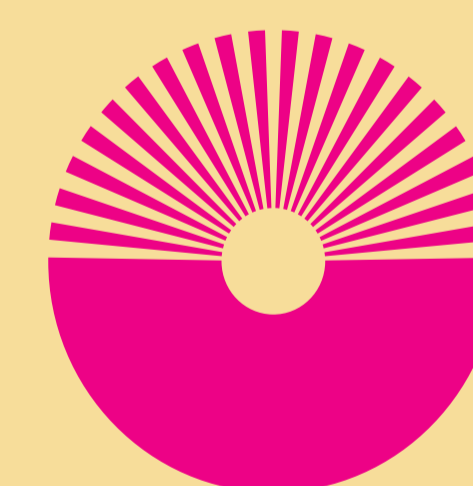

## For (Library) Publishers.

- ✓ No more spreadsheets: One interface, multiple outputs.
- ✓ Automatically generate metadata outputs (MARC, ONIX, CSV, JSON, BIBTEX, KBART) according to major aggregators' specifications (e. g. Project MUSE, JSTOR, DOAB, OAPEN, EBSCOHost, RNIB Bookshare, Google Books, ...).
- ✓ Register DOIs with book- & chapter-level metadata.
- ✓ Archive your OA content for future generations via the [Thoth Archiving Network](#).

## For Libraries.

- ✓ Easy LMS integration of OA books.
- ✓ Download a variety of enriched and fully open metadata formats (MARC, ONIX, etc.) from publishers using Thoth via our open APIs.
