EULIFE -Meeting June 6th, 2023

1. Unité Recherche Plaies et Cicatrisation, Ensemble Hospitalier, Institut Curie; 2. ENVA, UMR 7179 CNRS/MNHN 3. Direction du Centre de Recherche, Institut Curie

Institut created by

Generation &

Preservation of knowledge

- High stress levels for medical professionals
- Suffering and lack of communication by patients
- ≈ Post-Covid crisis loss of social coherence

Animals can provide solutions, they

- Encourage communication and interaction
- Bring positive distraction
- Reduce anxiety

2 MAIN **OBJECTIVES**

Background situation

To offer to the project team and all Institut Curie staff a happy and friendly presence, in order to lighten the burden of busy days in terms of both work density and emotional load.

To provide Snoopy time on request to patients for whom the presence of a dog could be beneficial: non-communicative or very anxious patients, in oncogeriatrics, adolescent consultations.

Research

3 missions

3,700 employees on 3 sites

Marie Curie in 1909

METHODS

Choice of the dog

- ≈ Not too big
- aggressive
- ≈ Robust and healthy
- ≈ With a calm temperament and familiar with humans

Experts team

- A vet and animal behaviour expert at National Veterinary School
- ≈ A occupational therapist and lecturer at Univ. Paris Est Créteil
- ≈ A professional dog trainer
- ≈ A team of 5 specially trained nurses

Balance of spirit

- ≈ Training period
- **□** Positive educational model

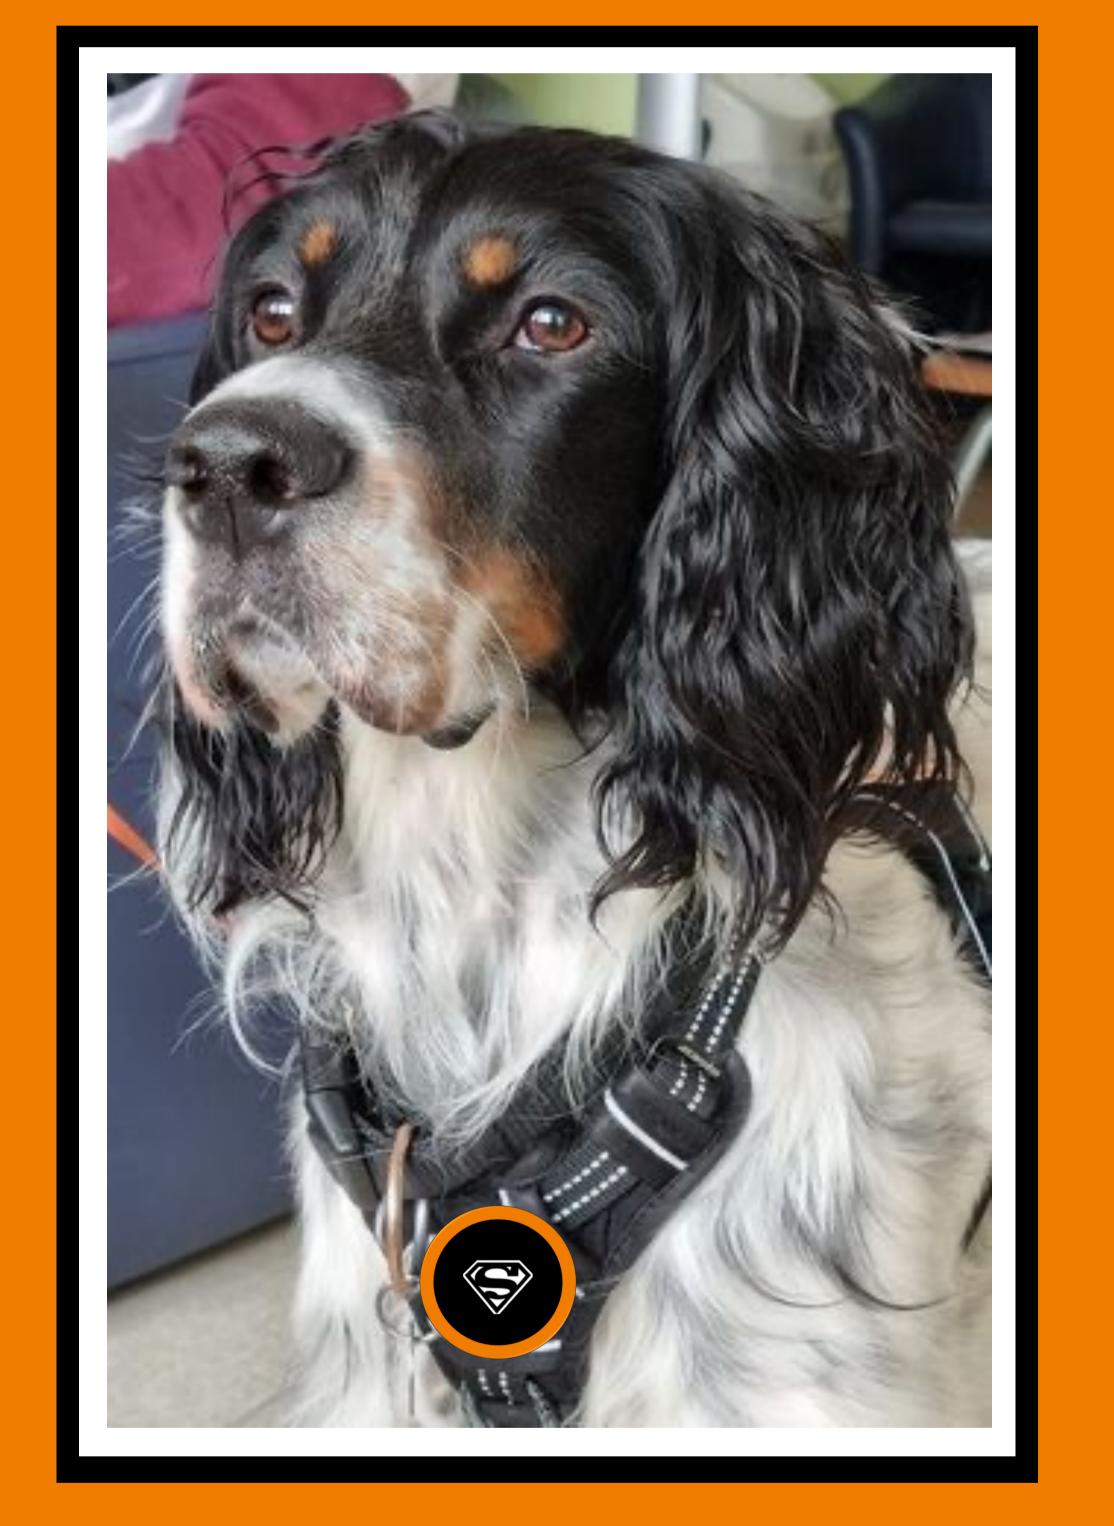

First month of work with

- ≈ Cancer patients, non communicative patients, > 75 years old, adolescent cancer patients
- Stressed clinicians
- **□** Consultations and waiting room
- **Before stressful examinations**

Evaluation: Who? Impacts?

- ≈ Internal staff and patients
- ≈ Quality of work life, stress level

WHO IS NOOPY?

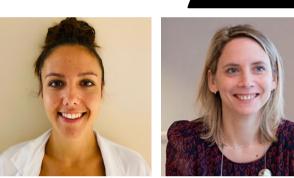

a two-year-old English setter wno was adopted from the SPA animal rescue center in 2022

NOOPY FAMILY

+ many Snoopy volunteers

FIRST RESULTS

Hospital waiting room

- Health and safety charter validated
- **≃** Countless smiles
- ≈ A canine project full of humanity

Improve project management

- ≈ Snoopy is a super doctor
- □ New links between Hospital and Research Center

PERSPECTIVES

FOR THE FUTURE

Mitigate limiting factors Reflexion about a second dog? Possibility of replicating the project: other Curie sites, the Research Center , other establishments in France and beyond.

CONCLUSION

After Curietherapy and Immunotherapy

it's time for SNOOPYTHERAPY
