

# Diamond OA In Europe: lessons learnt from DIAMAS and CRAFT-OA

OAI13 September 6 2023

Margo Bargheer (University of Göttingen | SUB Göttingen)

Pierre Mounier (OpenEdition | OPERAS | DOAB)

CRAFT-OA

# **Institutional Open Access Publishing Models DIAMAS**

*OAI13 September 6 2023*

Pierre Mounier (OpenEdition | OPERAS | DOAB)

With the help of Tabea Klaus (University of Göttingen | SUB Göttingen) and George Ross (JISC)

Funded by  
the European Union

The DIAMAS project has received funding from the  
European Union's HORIZON-WIDERA-2021-ERA-01  
grant

# Inspiration - The Diamond OA Action Plan

- A plan to align and develop common resources for the entire Diamond OA ecosystem, including journals and platforms, while respecting their cultural, multilingual, and disciplinary diversity.
- [Diamond OA Action Plan](#) based on results of [OA Diamond Journals Study](#) (OADJS)
- Initiated and developed by ANR, cOAlition S, OPERAS and Science Europe.
- Over 150 organisations have signed up to the Diamond Action Plan to work together in a community.
- Close collaboration with the DIAMAS and CRAFT-OA projects funded by Horizon Europe for Diamond journals in the ERA.
- Diamond Summit in Toluca, Mexico 23-27 October 2023, to discussion **a global federation of Diamond Open Access**

ACTION PLAN FOR  
**DIAMOND  
OPEN ACCESS**

MARCH 2022

## Overview

- ❖ Duration: 36 months
- ❖ Starting date: September 2022
- ❖ Horizon Europe funding
- ❖ Budget €3m
- ❖ Participants: 23 public service scholarly organizations from 12 European countries

 OpenEdition	 IBL PAN	 LIBER Europe	 Utrecht University
 University of Zadar	 UIT	 UGOE	 UB
 TSV	 SPARC Europe	 Science Europe	 OPERAS
 OASPA	 Jisc	 IGSG	 FFZG
 FECTY	 EUA	 EKT	 EIFL
 DOAJ	 cOAlition S	 CNRS/CSI	 AMU

# Project Objectives

- Provide the research community with an **aligned, high-quality, and sustainable OA scholarly communication ecosystem**, capable of implementing OA as a standard publication practice across the ERA.
- **Create a community, supporting services, and non-technical infrastructure for Institutional Publishing Service Providers (IPSPs)** that adopt common standards, guidelines, and best practices.
- **Common standards, guidelines, and best practices** will be co-created and adopted as an Extensible Quality Standard for Institutional Publishing (EQSIP).

1

## Understanding the landscape of IPSPs in the ERA

Mapping current landscape of IPSP

Mapping of existing quality standards

Benchmarking of current IPSP

2

## Improving coordination, quality, and sustainability of IPSPs

Consultations with IPSP: co-creation of best practices, toolkits, guidelines,

3

## Formulating policy & strategy recommendations: dissemination, engagement & impact

Engagement with institutional leaders and managers

Dissemination

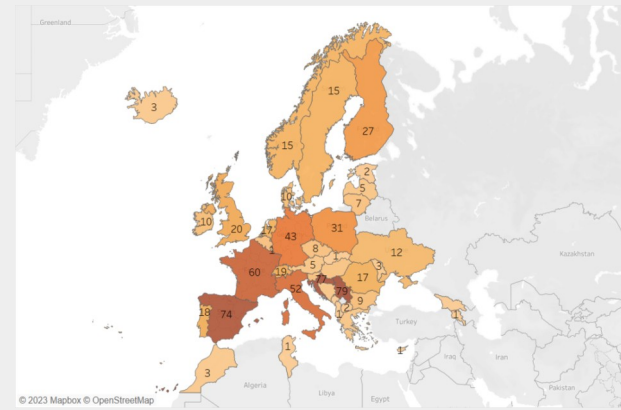

## Delivered!

- ❖ IPSP Landscape Report
  - ❖ Extensive survey within the European IPSP OA Publishing Landscape
  - ❖ Survey-a-thons – [Lessons learned](#) blogpost
  - ❖ [First results](#) published
- ❖ [IPSP database](#) : 651 IPSPs
- ❖ IPSP Best practices [report](#) (taking into account 58 best practices/ quality criteria/ requirements documents)
- ❖ Extensible Quality Standard for Institutional Publishing (EQSIP)
  - ❖ [Version 1.0](#) available (currently under EC review)

## **What to expect:**

- ❖ Analysis of the survey
- ❖ EQSIP 2.0
- ❖ Toolsuite and guidelines for IPSPs
- ❖ Suite of resources for the sustainability of IPSP
- ❖ Recommendations and guidelines for institutions, research performing and funding organisations (RPOs & RFOs), and policy makers
- ❖ The building blocks (registry, Forum, resources, guidelines) for setting up a **Capacity Hub for Diamond OA Publishing** for all stakeholders as ultimate goal

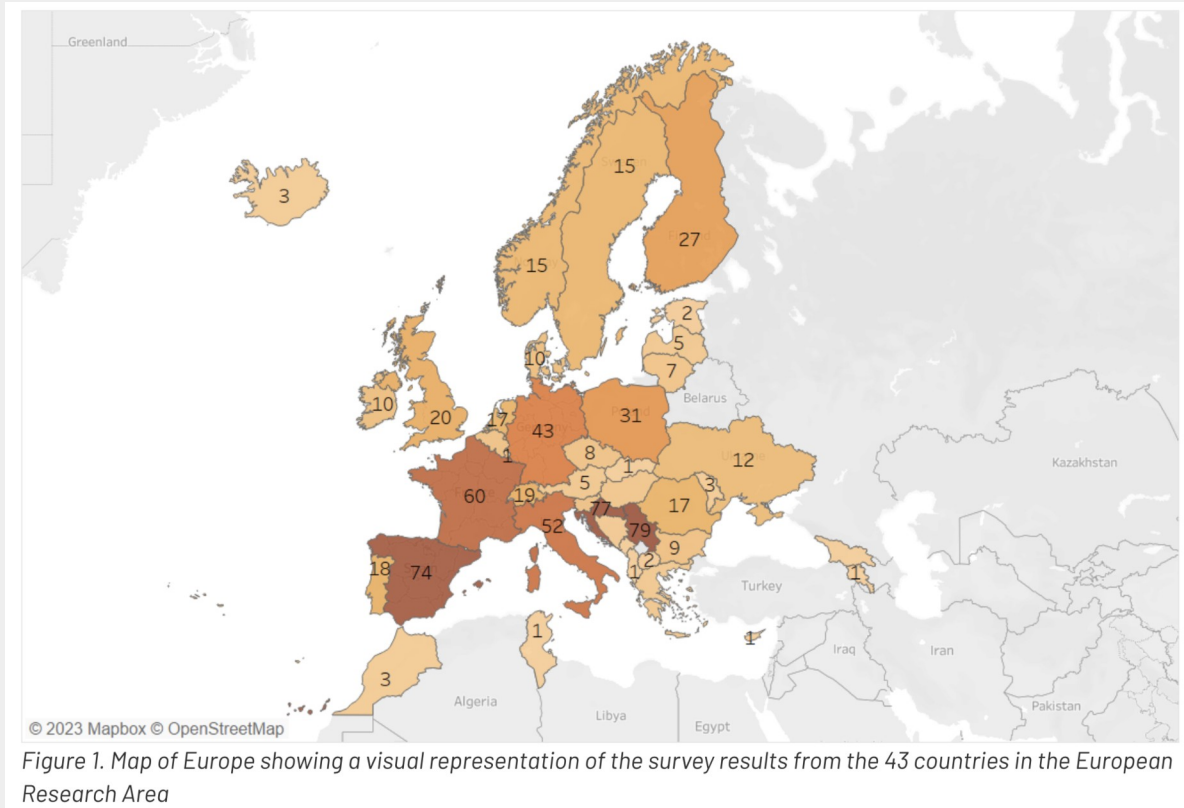

## First survey findings and followings

- ❖ Survey sent to around 5000 IPSPs
- ❖ 685 valid responses from 43 countries across the ERA
- ❖ Different levels of returns, influenced by national networks
- ❖ Publications from IPSPs in 37 languages
- ❖ All disciplines were represented, but publications from humanities and social sciences dominated, followed by multidisciplinary IPSPs
- ❖ difficulties of some institutions to identify themselves as IPSP
- ❖ Recommendations
  - ❖ Building or strengthening existing national institutional publishing capacity centres/ networks/ hubs
  - ❖ Dialogue with institutional publishing protagonists about responsibilities and roles

## Survey first results details

## Survey first results details

## Survey first results details

Figure 3. Chart showing the split between IPs and SPs

Figure 4. Chart showing the distribution of publishing activities of the IPSPs in the survey

## Survey first results details

Figure 5. Chart showing the distribution of publishing services across the IPSPs

Figure 6. Chart showing the distribution of disciplines covered by the IPSPs

# What you might want to know about CRAFT-OA

OAI13 September 6 2023

Margo Bargheer (University of Göttingen | SUB Göttingen)

CRAFT-OA

Funded by  
the European Union

# a priori assumptions why CRAFT-OA is needed

- Open Access and Open Science are the right way forward, but not at any costs (ends don't justify all means)
- Diamond Open Access should be stronger, institution-funded publishing infrastructure for open access publications, no author-facing charges
- Non-APC models, especially in institutional and scholar-led governance, will benefit from concerted action
- More transparency and trustworthy information needed to develop in the right direction
- Bibliodiversity needs networked infrastructures, shared knowledge and curiosity for proven solutions outside of the mainstream
- Horizontal integration of fragmented publishing ecosystems as a prerequisite for vertical integration such as EOSC

# What does CRAFT-OA stands for?

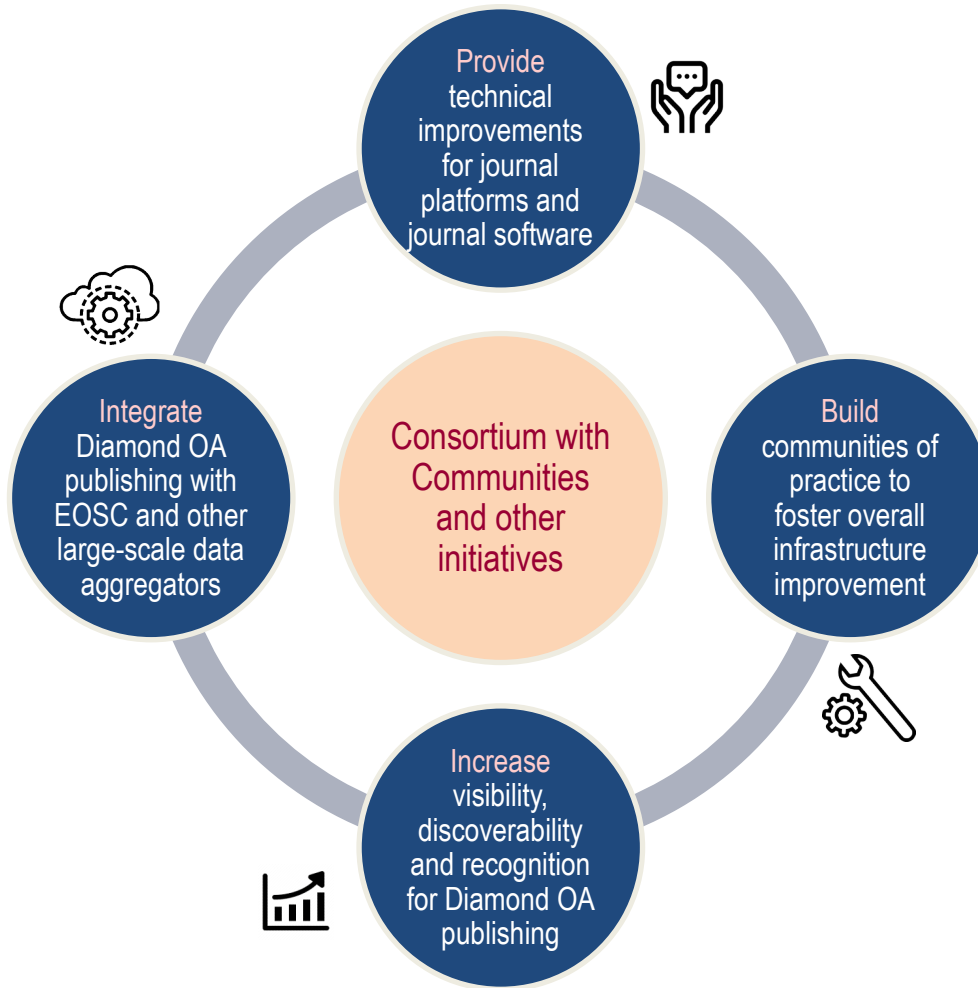

- Creating a **R**obust **A**ccessible **F**ederated **T**echnology for **O**pen **A**ccess
- Strengthening local knowledge and networks to create resilience and independence of large industrial players, also by using local „material“
- Variety and practical solutions above centralised perfection

# CRAFT-OA

- Start 01 Jan 2023, End 31 Dec 2023
- Budget of ~5 mill EUR
- 23 Partners from 14 European countries (plus affiliated entities)
- Göttingen University Library is coordinator on behalf of OPERAS Community
- Partner project DIAMAS (joint advisory board)
- Consortium consists of experienced stakeholders and service providers in open science and open access scholarly publishing, especially around institutional Diamond OA, IPSPs\* and IPTPs\*

\*institutional publishing service providers / technology providers

CRAFT-OA

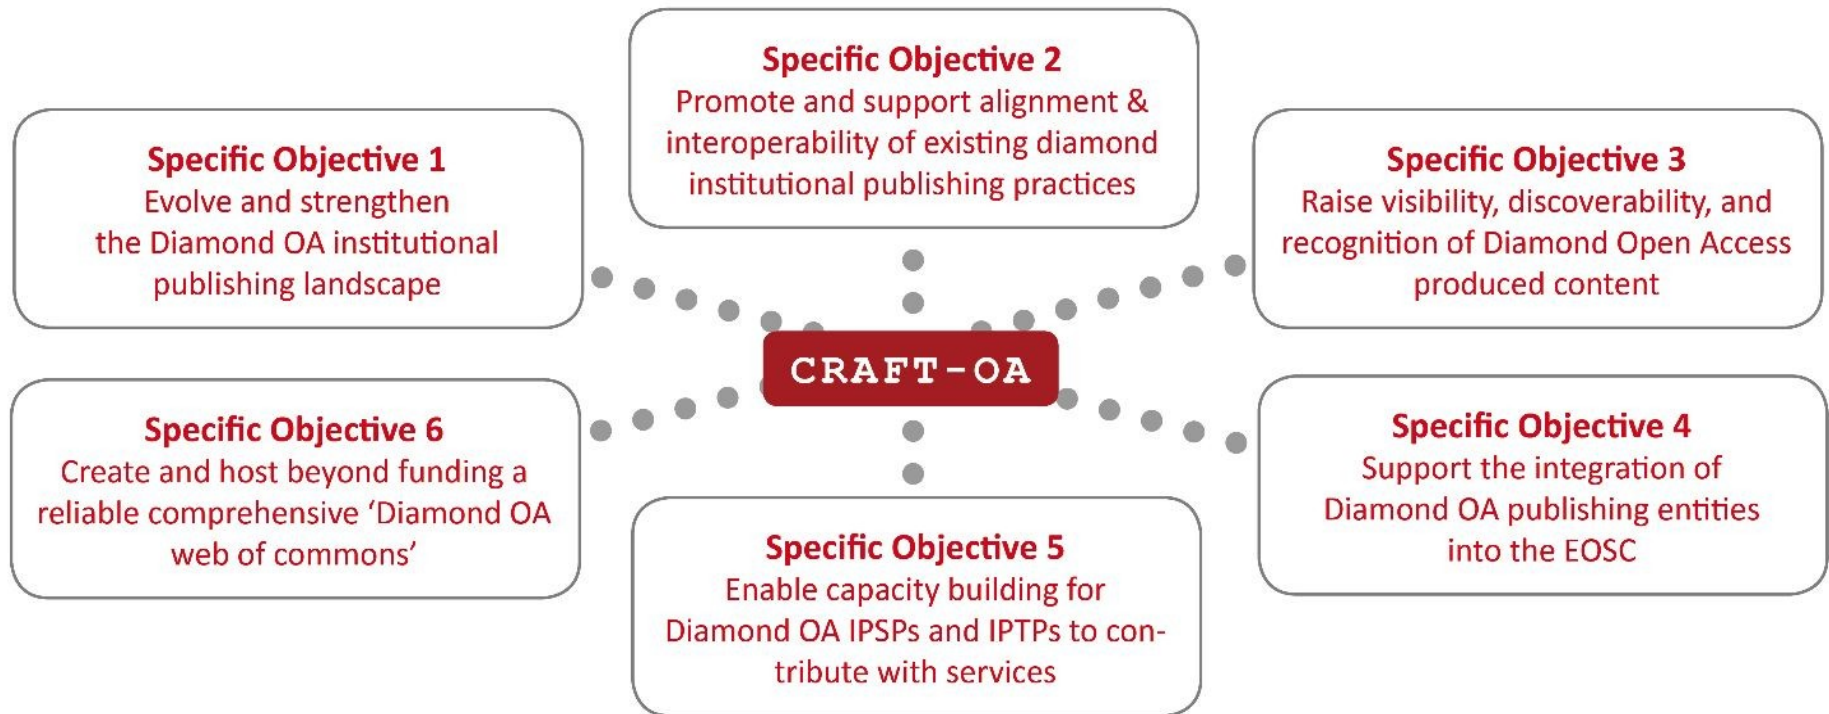

Funded by  
the European Union

# CRAFT-OA, specific objectives

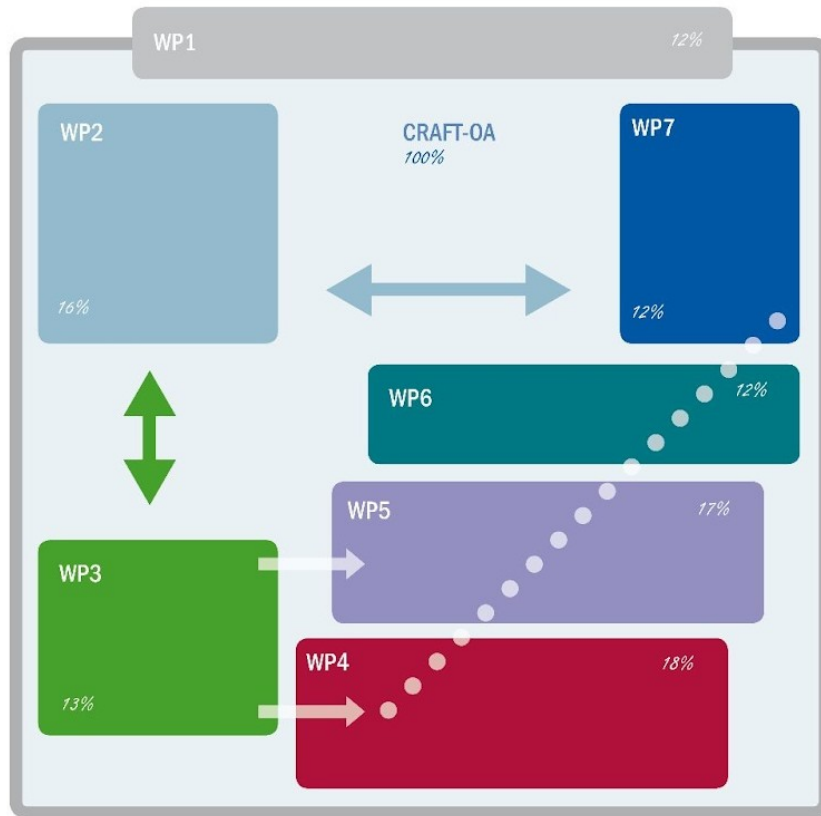

# CRAFT-OA, the project cybernetics

- WP1 for administration, governance and smooth operation
- WP2 and WP7 for scientifically and technically sound operation and constant hand-over to sustainability
- WP3 as extended requirement engineering (use cases, standards -> DIAMAS)
- WP4 to improve technically at platform level
- WP5 to improve visibility, discoverability and recognition
- WP6 to improve uptake in larger aggregations and infrastructures such as EOSC

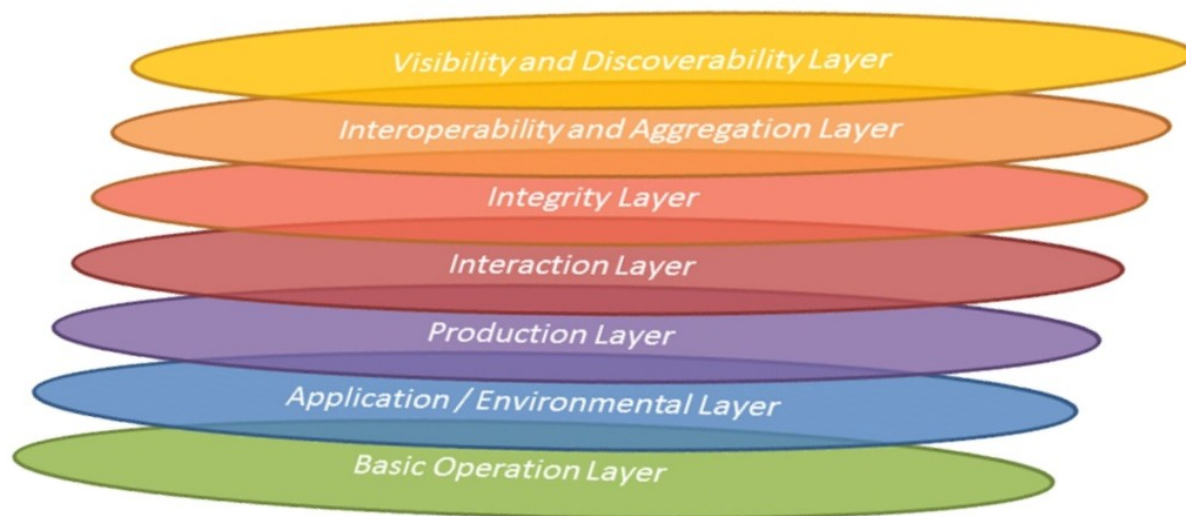

# CRAFT-OA, the project cybernetics

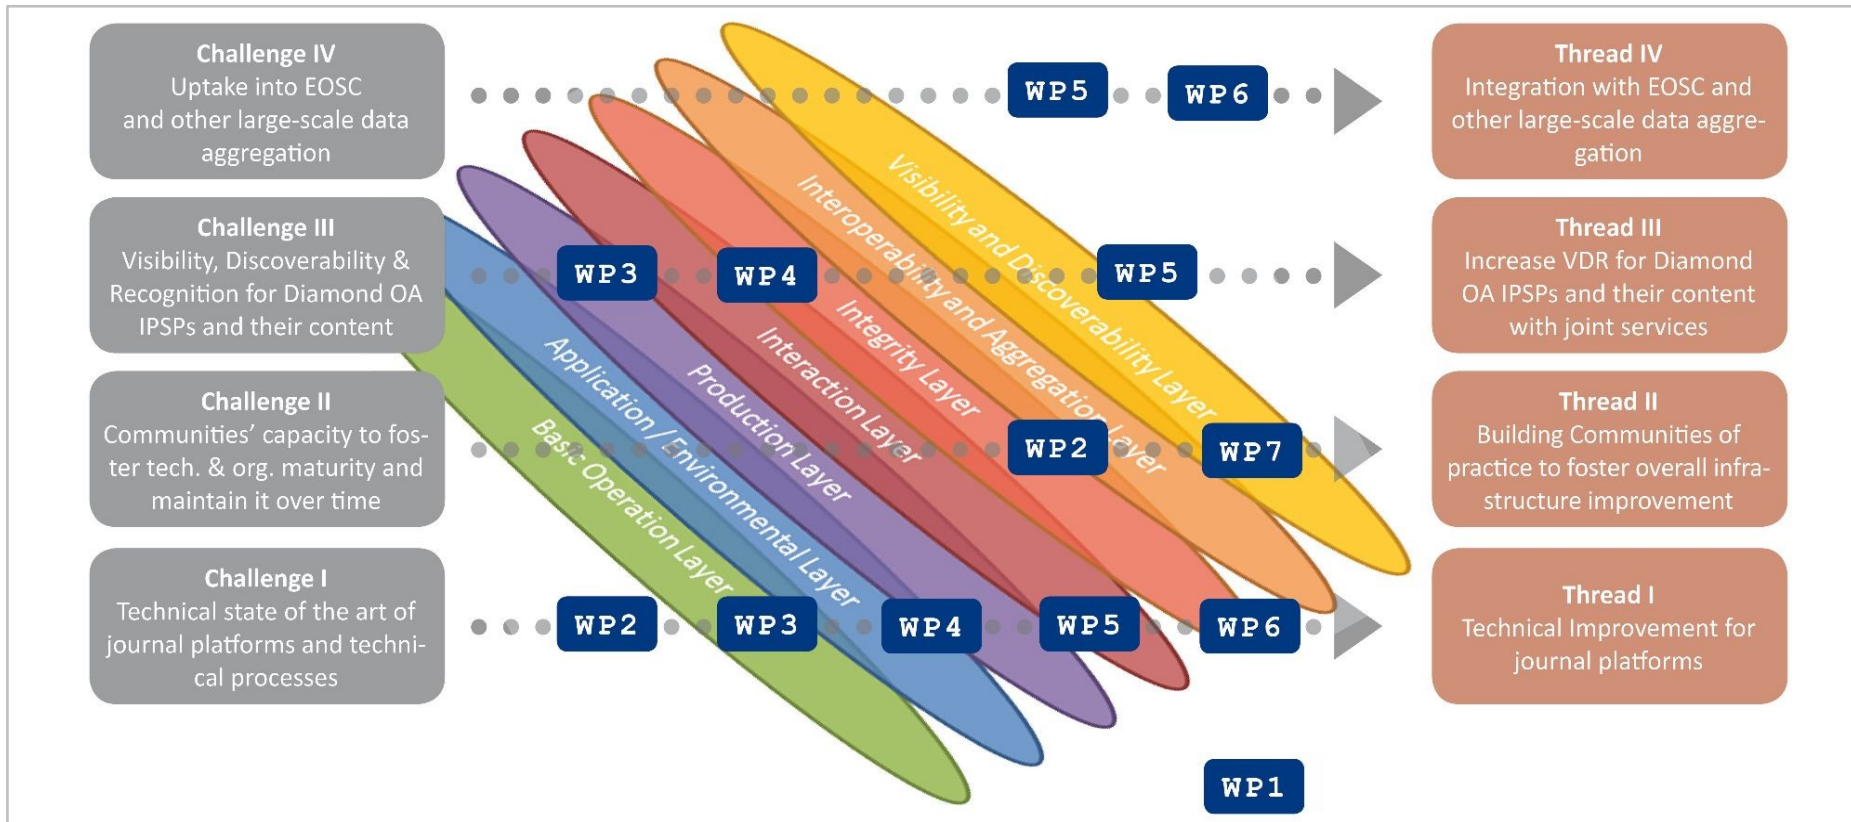

- WP1, WP2 and WP7 the „backbone“ WPs
- WP3-6 the „productive“ WPs

# Project approach

- Look at the entire value chain of journal publishing
- We are our own testbed and a good nucleus for a larger network
- Feasible concepts and vocabularies that work across communities
- Branding of project developments is less important than community uptake and sustainability

# CRAFT-OA, project design

# CRAFT-OA, what's going on

- WP2 community building and onboarding
- WP3 report on technical standards is out (ZENODO)
- WP4 working on identified development needs in OJS (along agreed community needs), GDPR, multilingualism, operation into given environments
- WP5 bringing flesh to bones around „Diamond Discovery Hub“ and other innovation ideas
- WP6 flesh out how institutional publishing integrates and contributes to EOSC

Melanie Imming, & Jon Tennant. (2018, June 8).  
Sticker open science: just science done right.
