

Publish Educational Materials as Open Educational Resources

- I am the sole author of the educational materials or other authors agree to open licensing.
- My superiors agree to open licensing of the learning resource ([in accordance with FaHG ZH §16 Abs. 1 lit. b.](#))
- 🔍 If images of people are shown: get a declaration of consent.

- Only use your own or openly licensed third-party materials.
- Info:** Citing materials will be done according to current academic practice.
- 🔍 I search for openly licensed materials on search portals.
- 🔍 Correct labelling of third-party materials in general according to the TASLL rule: **T**itle, **A**uthor, **S**ource, **L**icence, **L**ink to the licence.

- ZHAW recommends the licence types CC BY and CC BY-SA.
- Important:** Other CC licence types are also possible. It is still worth checking the consequences carefully if you choose more restrictive licences. Our [OER Team](#) will be happy to guide and support you.
- 🔍 Our [Licence-Chooser](#) can support you choosing the best license.

- **Video:** [Kaltura Mediaspace \(ZHAW Video Platform\)](#), [Vimeo](#), [YouTube](#) (with reservations: limited download function)
- **Images:** [Wikimedia](#), [Flickr](#)
- **Other:** [GitHub](#), [Zenodo](#), [ZHAW digitalcollection](#)
- Info:** Example of file formats for processing: PDF, JPG, PNG, SVG, MP3, MP4.
