

OPEN EDUCATION

We strive to create a culture where the use and creation of Open Educational Resources in campus education is the standard.

We aim to:

Embed open education practices in our campus education

Establish a technical and support infrastructure for Open Education

Stimulate bottom-up initiatives

Open Textbook Publishing

We support teaching staff with publishing freely accessible textbooks that are used in bachelor and master courses. (Check out the latest at <https://textbooks.open.tudelft.nl>, or all on catalog).

Interested in publishing your own TU Delft Open Textbook?

Learn about the process here

OR reach out to us:

Open Interactive Textbooks

We are piloting the Jupyter Books software for publishing open interactive textbooks (OIT) as interactive websites.

Learn more about OIT and publishing your own

Open Education Stimulation Fund

We provide funding opportunities for teaching staff across campus for one-year Open Education projects, (up to 20.000 euros per project). The 2024 call is now open!

Read more about the OESF call 2024 and get inspired by current projects!
