

OPEN HARDWARE

The Open Hardware group supports researchers, students and you to share your hardware projects online.

We deliver:

Training activities

Consultancy services
(Open hardware support)

Workshops

To make it possible for you to share your hardware designs openly.

Open Hardware Project support

If you want to open your research with a hardware aspect, we can guide you through selecting the right license, publishing the complete documentation and building a community of contributors.

Website:

To get started send an email about your project to:

Open Hardware Academy

During a 10 week programme you will learn all facets of open source hardware. Start as a true beginner or just to brush up your open source skills!

Check the open hardware academy website and sign up!

Open Hardware Fund

Working on an epic hardware project and want to make it open source? We can help you to make it happen! Get access to our makerspace, get help with releasing your project online and receive budget for materials.
