One Health EJP Dissemination Workshop Series

Communication, education and training, and science to policy translation: lessons learnt and the legacy of the One Health EJP

Pre recorded and available to view (here)

Organised by [Work Package 5](#) in collaboration with [Work Package 6](#) and the Communications Team, this dissemination workshop aims to share the experiences of the One Health EJP to help and inspire other One Health projects with dissemination, education activities, and interaction with the stakeholders.

@OneHealthEJP

ONE Health EJP

#OneHealthEJP #OHEJPDissemination

The **One Health EJP** is a European collaboration across the fields of public health, animal health and food safety.

The Dissemination Workshops inform on One Health EJP solutions created in response to stakeholder needs, fostering the link between stakeholders and the Consortium.

The 4th virtual One Health EJP Dissemination Workshop focuses on the interaction with stakeholders to translate science into policy, the impact of the education and training activities, and strategies used for effective dissemination of One Health solutions.

Sessions of this workshop are pre-recorded and freely available for viewing. The videos can also be viewed individually as stand-alone, short seminars.

Through this workshop, One Health EJP consortium members provide examples of successful strategies and lessons learnt, with the objective of inspiring all those working in this field or setting up new One Health initiatives, and increasing the impact of One Health activities in Europe.

Sessions include:

- 1 Welcome and introduction
Dr. Pikka Jokelainen, Science to Policy Translation Deputy Leader
- 2 Education and training: Training a new generation of One Health scientists
Prof. Roberto La Ragione, Education and Training Leader
- 3 Communication and dissemination: How to reach One Health audiences
Communications Team: Elaine Campling, Dr. Jennifer Cantlay and Dr. Aurore Poirier
- 4 Interactions with stakeholders: targeted dissemination, support, and advocacy
The example of the One Health EJP
Dr. Ludovico Sepe, Science to Policy Translation Collaborator
- 5 Round table discussion summarising the discussion with key take-home messages.
