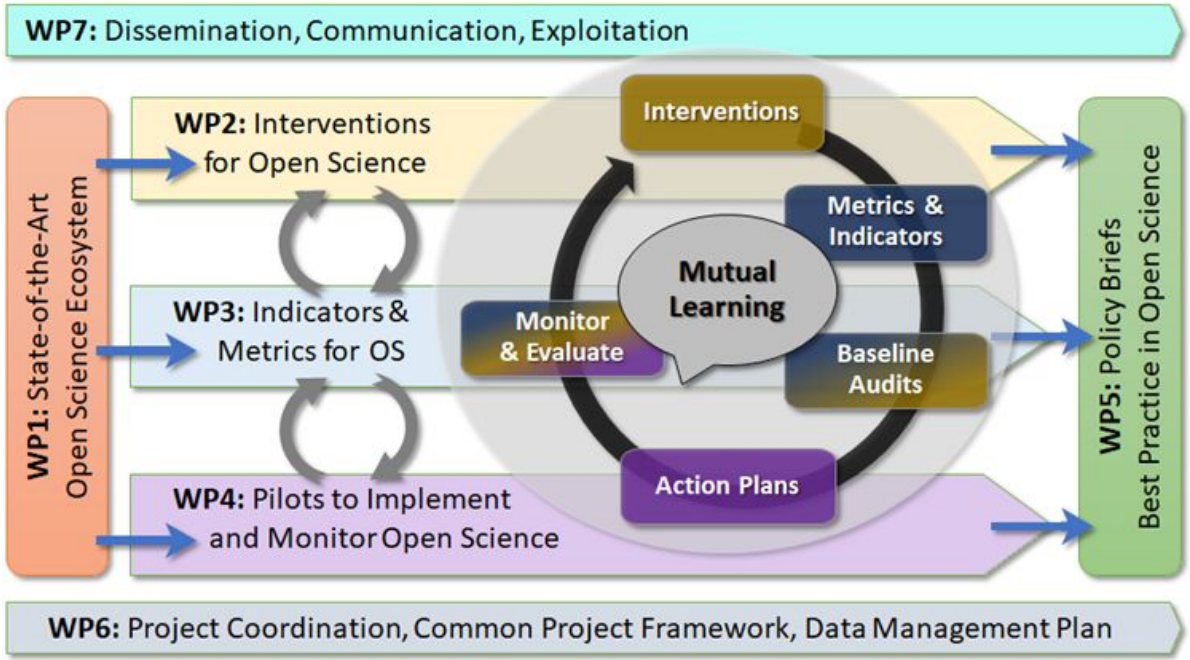
OPUS Activities



Principles for Researcher Assessment Framework

1. Includes optional sets of indicators/metrics for RPOs/RFOs
2. Applies across countries, disciplines, and organisations
3. Combines both quantitative and qualitative assessment
4. Focuses on relevant assessment of individual researchers
5. Covers full spectrum of activities conducted by researchers
6. Offers generic framework for open and non-open activities
7. Offers specific framework targeting Open Science activities
8. Distinguishes between processes, outputs, and outcomes
9. Formulates indicators/metrics at high level of description
10. Puts selection, refinement, and prioritisation to RPOs/RFOs
